

Flanked by Detectives Bob Basche, left, and Norman Daniels, Harry Hebard heads for the Brown County Jail. The youth, who admitted slaying five members of his family Monday night, was arraigned in Green Bay this morning. (AP Wirephoto)

Fire Raging in Green Bay Hotel

Seven Business Places Reported Destroyed on City's West Side

GREEN BAY — Fire raged out of control in the Blackstone hotel today, collapsing the roof at noon with the walls expected to tumble on the near west side structure.

The fire broke through the roof this morning shooting flames smoke hundreds of feet into air. Seven business places being destroyed, firemen on scene were doubtful whether they could hold it from taking hotel.

Firemen were called at 9:40 a. m. when the first report of smoke was made from the Tradewinds, a secondhand store just east of the hotel.

Michigan Fire Kills Four in Family of Six

KALKASKA, Mich. (AP) — Four members of a family of six perished today when a fire destroyed their roadside restaurant and home on U.S. 131 south of Kalkaska.

Two teen-age daughters escaped the blaze, running a block in their feet and night clothes in 6 below zero temperature to give alarm.

The fire swept a combination restaurant and filling station operated by Cecil Birmingham and wife, Ovina.

The parents died with two other children, Donald and Valery, when they were trapped in the basement of the building.

Their home and place of business, known as the Riverview Inn, is in the small town of South Kalkaska, eight miles south of Kalkaska, in northern lower Michigan.

Kalkaska County Sheriff Earl Rodman and state police said cause of the fire was not determined immediately.

The two surviving daughters, Marilyn, 18, and Paulette, 16, were taken to Kalkaska Memorial hospital.

They were injured in breaking windows to escape.

Stol Possible Clue Biernat Murder

KENOSHA (AP) — A rusty .22 caliber pistol found along a highway Wednesday was turned over to officers investigating the gangster slaying of juke box distributor Anthony Biernat, 46, last month.

William P. Schmitt, an investigator for the sheriff's department, said he did not think the weapon was connected with the slaying.

The gun was discovered on a county road by a State Highway Department employee.

Schmitt said there were no fingerprints or blood stains on the gun. The hammer had been broken off.

Health Care Plan Sent to Congress

Hebard to Get Mental Exam, Court Decides

Defense Attorney Makes Motion at Arraignment Today

GREEN BAY — Two psychiatrists will examine Harry R. (Butch) Hebard to decide if he is insane or mentally competent to stand trial for first degree murder in the shooting deaths of five members of his family.

Judge James W. Byers ordered the mental examination for Hebard, a 16-year-old West High School junior, in County Court today.

"I have certain misgivings about his mental condition both now and at the time of the crime," Hebard's court-appointed defense attorney, Robert J. Parins, told the judge.

Parins said he had interviewed the accused mass murderer twice. Wednesday at the Brown County jail and this morning in a jury room on the third floor of the courthouse.

AFL-CIO Acts To Increase Voting Power

MIAMI BEACH, Fla. (AP) — The AFL-CIO is laying careful plans at winter union meetings to make organized labor an even more potent political force on the state and national scene.

Federal chiefs decided Wednesday to expand to a permanent, year-around basis previously sporadic campaigns to get the maximum number of union members and adult members of the family to qualify to vote and to go to the polls.

They also decided to establish voting overseers in each of the 50,000 local unions comprising labor organizations affiliated with the AFL-CIO. Their responsibility will be to marshal the greatest possible labor turnout in 1964 and beyond.

\$3.5 Million Theft Revealed

NEW YORK (AP) — Disclosure of the theft of more than \$3.5 million in stock certificates from an elderly widow's home excited Wall Street today.

The disclosure resulted from a securities firm's warning that stolen stock certificates were being presented for transfer.

An FBI spokesman said the theft occurred more than 17 months ago at the home of Theresa N. McSweeney in suburban New Rochelle, N.Y.

Mrs. McSweeney is the widow of Henry McSweeney, a corporation lawyer who died in 1946.

The theft was at first reported a minor one.

President Proposes Hospital Insurance and Tax Benefits For Elderly Americans

WASHINGTON (AP) — President Kennedy put his battered plans for health care of the elderly into new wrappings today—part of a \$10 billion, five-year plan aimed to better life, income and housing for senior Americans.

But it was bound to be old hat to Congress.

Besides the expected, and once-defeated, proposals for hospital insurance for the aged through Social Security, the President asked again for tax benefits for the elderly, part of his tax message last month.

The hospital insurance plan is expected to cost \$5.6 billion for the first four years, the tax benefits \$3.9 billion for the first five years.

Missing Ship's Owners Plan to Inspect Debris

KEY WEST, Fla. (AP) — Owners of the missing tanker Marine Sulphur Queen planned an inspection of debris today while Coast Guard ships searched south of Key West for traces and survivors of the ship that vanished after sailing Feb. 2 with 39 men aboard.

An unidentified flare and flotsam lettered "Sulphur Queen" stimulated the search. The Coast Guard had no assurance that the light had anything to do with the 523-foot vessel.

One possible explanation—that the flare was fired by the crew of a missing light plane—was eliminated when the plane was located on the ground at Miami. It had been thought missing on a flight from Miami to the Bahamas.

Prairie Fires Burn Over Wide Area

OKLAHOMA CITY, Okla. (AP) — Prairie fires fanned by winds up to 50 miles an hour swept across thousands of acres of parched Oklahoma grassland Wednesday.

An Indian Agency headquarters and 15 houses were destroyed and oil storage tanks exploded. Two firemen were burned and two others overcome by smoke.

Officers said two fires were set by arsonists.

Farm land is dry as tinder. Since Jan. 1, Oklahoma City has recorded only .30 of an inch precipitation compared with a normal 2.28 inches.

The largest fire, near Fairfax in northern Oklahoma, raced across an area 10 miles long and up to 7½ miles wide, destroying the Gray Horse Indian Agency building and two homes.

Craft and 2 Aboard Not Struck

WASHINGTON (AP) — Two MIG fighter planes from Cuba fired rockets in a flight over a U.S. shrimp boat in the Florida Straits Wednesday, the Defense Department announced today.

The boat and its two-man crew were not hit, the department said, but the rockets were understood to have come very close to the boat.

The MIGs flew away as U.S. planes approached.

The department said U.S. jet interceptors planes took off when unidentified targets appeared on the Key West radar station screen.

The U.S. planes reported two MIG fighters made rocket firing passes at the shrimp boat, the Ala. A Pentagon spokesman said the U.S. planes saw the rocket firings as they were screaming out across the straits to check on the unidentified targets, which turned out to be the MIGs.

Byrnes Wants Public Help in Spending Cuts

WASHINGTON — Rep. John W. Byrnes, Green Bay Republican, wants recruits for a "crusade for puritan prudence" in governmental spending as a prerequisite to tax reforms and cuts.

The congressman, who is a member of the House Ways and Means committee which is holding hearings on the Administration's tax reduction and reform bill, said that "it is time that we tailor our tax laws to the needs of the economy and that we tailor our expenditures to the needs of our tax laws."

Discipline Needed

Stating that "prudence" is defined as "the ability to regulate and discipline oneself through the exercise of reason; and skill or sagacity in the management of practical affairs," Byrnes said there is nothing we need more than "prudence" in the management of our fiscal affairs.

Armed Forces Told To Act If Necessary

Several Thousand Russians To Withdraw, Moscow Says

WASHINGTON (AP) — President Kennedy ordered the armed forces today "to take all necessary action" to prevent a recurrence of Wednesday's rocket attack by Cuba-based MIG planes on an American shrimp boat.

Kennedy's action was announced by the White House, which attributed the attack in the Florida Straits to "Cuban aircraft."

In a second announcement, the White House said the Soviet Union has told this government that several thousand Soviet military personnel will be withdrawn from Cuba by the middle of March.

It said the Soviet personnel being withdrawn had to do with guarding the kinds of weapons which already have been removed from Cuba, as well as some military specialists who have been training Cuban military cadres.

Byrnes Wants Public Help in Spending Cuts

The congressman, who is a member of the House Ways and Means committee which is holding hearings on the Administration's tax reduction and reform bill, said that "it is time that we tailor our tax laws to the needs of the economy and that we tailor our expenditures to the needs of our tax laws."

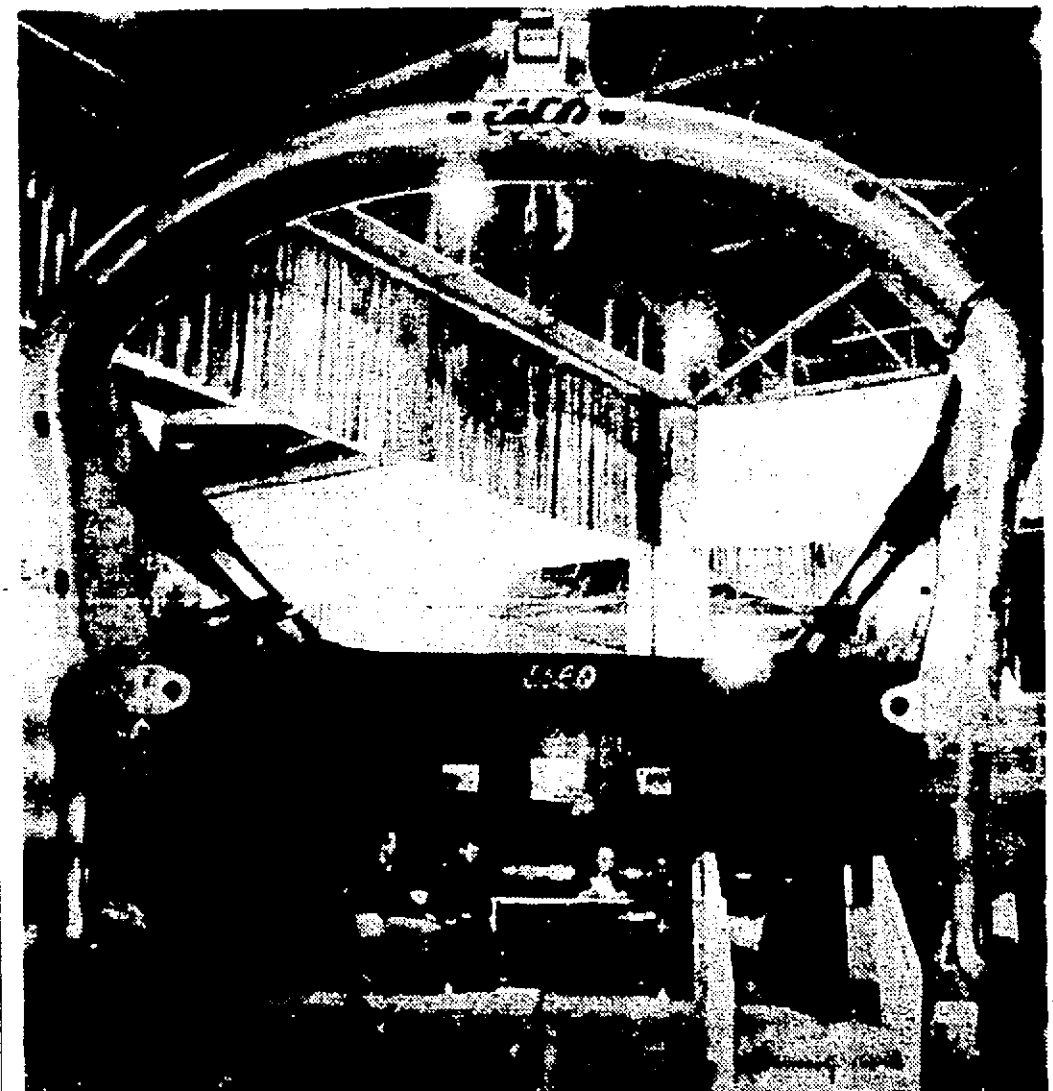

Weatherman Says It's Jumper Cable Season

Wisconsin — Continued very cold tonight. Partly cloudy Friday with possible snow flurries, not quite so cold.

Low tonight, 12 below. High Friday, 3 above. Moderate northwesterly winds becoming westerly tonight.

Appleton — Temperatures for the 24-hour period ending at 9 a.m. today: high, 21; low, 15 below. Wind velocity, 16 miles an hour from the northwest. Barometer reading: 29.86 and rising. Relative humidity: 40 per cent. Temperature at 9 a.m.: 14 below. Snowfall: trace. Snow cover: 5 inches.

Sun sets at 5:30 p.m., rises Friday at 6:44 a.m. Moon rises tomorrow at 6:01 a.m. Prominent star is Arcturus. Visible planets are Jupiter, Venus, and Mars.

An Office Inside a shovel? There it is — desk, rug and all. The office is inside a mammoth drag bucket big enough to dig and lift 127-ton loads. It is on display at the Construction Equipment Exposition and Road Show in Chicago. (AP Wirephoto)

Congressman, Senator Clash

Williams Denies Powell's Charge Of Race Bias, Asks Data on Funds

WASHINGTON (AP) — Rep. Adam Clayton Powell has accused Sen. John F. Williams of racial bias. But Williams says how government money is spent—not race—is the issue in his attack on the Negro congressman.

Powell accused Williams, R-Del., at a news conference Wednesday of following "the Hitler concept" in purchasing property that the New York Democrat said is under a restriction limiting resale to "Aryans." Asked if he felt there was a racial motive to Williams' criticism, Powell declared emphatically, "yes."

Williams Expense Reports

The senator swung back at Powell Wednesday night. "I never have and never will cater to any man's race, religion or nationality in discussing a case on the Senate floor or off it," Williams told a newsman.

"I do intend to see that anyone whether a member of Congress or not, gives a proper accounting of how government money is spent," he said. "We're going to keep right on the issue and will not be diverted."

In his session with newsmen, Powell said Williams has voted consistently against civil rights. He also distributed an excerpt from a property deed to a house Powell said Williams bought in 1952 in Rehoboth Beach, Del.

According to the excerpt, the deed contained a restriction against the sale or leasing of the property "to any person not of the Aryan (Nordic) race."

"Are you trying to say that Sen. Williams criticized you because you are a Negro?" a reporter asked.

"Very definitely," Powell replied.

Reached Wednesday night at his home, Williams said he bought the property in 1952, still lives there and has no intention of leaving. He said he has never examined the deed and has no idea if it contains a restriction.

But even if it does, Williams said, it would have no effect because the Supreme Court has outlawed such provisions.

The battle began Feb. 5 when Williams charged in a Senate speech that the government was "shoveling out" money for activities sponsored or promoted by Powell. He also accused Powell of income tax delinquency and criticized him for using State Department funds for a European trip last summer with two women staff members.

Denies Housing Report

Powell, who was in Puerto Rico when Williams leveled his blast, fired back Wednesday before a battery of newsmen. He said a Williams charge that the Housing and Home Finance Administration had lent Powell or groups associated with him \$10.8 million for three housing projects was incorrect.

The HHFA deals in mortgage insurance, not in loans, Powell said, and the transactions Williams referred to were handled by a foundation he started in honor of his late father.

Council Discusses Buying Procedure

Five Gallons of Paint, Truck
Motor Purchase Points of Issue

KAUKAUNA—Purchase, with-out following proper channels, of five gallons of paint and a new truck motor led to some heated words on the Kaukauna council floor Tuesday.

Opening salvo was fired by Ald. Fred Reichel (5th), on purchase of paint by the park superintendent without approval of the purchasing committee.

Ald. George Simon (3rd), chairman of the health and recreation committee, said he had authorized the purchase at the 55-gallon

price when park crews ran out of paint while working on park picnic tables.

Reichel told Simon he had no business authorizing the purchase because the city is being run by more than one man. He said proper procedure must be followed when making purchases. He warned the clerk against issuing checks without having purchasing committee approval.

\$645 Expenditure

An expenditure of \$645 for a new motor for the garbage truck also roused the ire of some aldermen Ald. Clarence O'Connor and Ald. Arnold Vander Loop (1st), questioned the bill.

They were told the engineer had authorized the motor when the garbage truck broke down, but both felt an expenditure of this size should have received approval by the board of public works before work was carried out.

"Someone must have control over large expenditures," said O'Connor, "even if it means renting a truck for a few days. Aldermen could have decided it would be more advantageous to invest in a new truck rather than spend such money on repairs, he said.

Withhold Check

The finance committee was authorized to withhold payment on a bookkeeping machine until the company has the machine operating satisfactorily and until users of the equipment receive more training in its operation.

Purchase of a \$400 calculating machine was objected to by Ald. Russell Dix (4th). He said the equipment had been in a city office for several months on a trial basis and he felt the city was not getting a new machine.

The same machine could have been in other offices and used before it came to Kaukauna, Dix said.

Vander Loop informed Dix purchase of the calculating machine was merely being recommended to the purchasing committee and since he was a member of that committee, he could raise objections at that meeting.

Organ Recital 8th Program In Series

Junior Conservatory organist Judith Lindquist Lewandowski will present the eighth in this year's series of student recitals at 8:15 p. m. today in Lawrence Memorial Chapel.

Mrs. Lewandowski, 315½ E. College Ave., is from the studio of LaVahn Maesch. She is majoring in organ. Her program is open to the public without charge.

Four of the Great Eighteen chorale preludes of J. S. Bach are listed first on her program, to be followed by the "Dorian" prelude, also by Bach.

From the "Folkloric Suite" of Jean Langlais, Mrs. Lewandowski has programmed two pieces, a "Fugue" on "O Filii", and "Cantata." Langlais is a blind French organist, born in 1907. He is a pupil of Dukas, Dupre, and Marchal and is organist of Sainte-Clotilde, Paris. He has also been active as a composer, mostly in the organ field.

Thursday's recital will end with the toccata "Tu es petra," from Henry Mulet's Byzantine Sketches.

Everyone, It Seems, Has 'Those' Days!

The Wisconsin Motor Vehicle Department, it is said to relate, also has "those" days.

A letter sent to the Outagamie County traffic department today from the motor vehicle department confirmed the fact that the department's October issue of the motor vehicle registration book covering licenses U-49824 to U-9999 had pages 35 through 69 in reverse order.

The letter writer said "it would be impractical and expensive to reproduce the entire book. We are therefore sending you a second copy of page 69 beginning with license U-57380. If you wish to realign the pages, mark the present page 69 void, and remove pages 35 through 68. Use the new page 69 and reassemble the pages.

Included in the letter was a second copy of page 35.

Long Range Plan Set Up At Kimberly

Street Committee
To Make Study of
Roads in Village

KIMBERLY — The board of public works has authorized the street committee to set up a road improvement program to cover the next three to five years.

The program will be reviewed by the board before adoption. Tentative plans are for the committee to study which streets in the community require the most maintenance and are most costly to keep up. These will be given priority rating for improvement.

Plans call for the village board to float a loan to finance the improvement of County Trunk Z this year. These funds will be placed in a special revolving fund to finance this and other road projects. When special assessments are paid, money will be deposited in the revolving fund to permit continued use of funds for street improvements.

Sewer And Water

Discussion was held on the possibility of installing sewer and water mains under County Trunk Z before it is improved, thus making it unnecessary to tear up the street at a future date. The sewer and water facilities would be designed to serve areas not yet platted into residential property.

A meeting with the water commission is planned prior to deciding on installations. Discussion was also held on grading the intersection with County Trunk Z as the road is improved. This will be necessary as the improved road will not meet normal grade of unimproved roads intersecting the main street.

The board plans to meet with the village engineer regarding grading or sloping intersecting streets to match County Trunk Z and will decide on whether to have work done by village crews or make improvements part of the general road reconstruction project.

Talent Show at Youth Center Has 9 Numbers

KAUKAUNA — Nine numbers were featured on the annual Talent Show held at the Youth Center following a recent Kaukauna High School basketball game. No judging was done as the students were not in competition.

A vocal duet was offered by Linda Vanderloop and James Nielsen while Dorothy Mader played an accordion solo. Piano solos were played by Dennis Kasten and Greg Dery. Offering vocal solos were Lillian Mather, accompanied by Sue Lust; Mary May, accompanied by Jean Schmidt, and by Patricia Minkebeige.

Participating in a vocal quartet were Kathy Skibba, Joan Kiffie, Lynn Hurst and Patricia Landreman. Seven members of the high school band calling themselves "The Panetelas" played a selection. Members include John Eiting, Joe Eiting, Jerry Spice, Don Straus, Ron Williams, Tim Weigman and Vicki Meyerhofer.

Bob's Feet Rested

WASHINGTON (AP) — Atty. Gen. Robert F. Kennedy said Tuesday his feet are rested after his 50-mile physical fitness hike 10 days ago.

Asked if he still approves of 50-mile hikes, Kennedy told reporters: "For others."

To Your Good Health

Syphilis Is Possibly A Hereditary Disease

BY JOSEPH G. MOLNER, M.D.
Dear Dr. Molner: When I entered the army in 1943 my blood showed a positive Kahn test. I took 500,000 units of penicillin and was O. K. Now it is positive again. Could this be hereditary? I know of no other way it could have happened.—J.A.L.

Dr. Molner

We usually give more than 500,000 units of penicillin for a complete treatment for syphilis, but the fact that your blood test became negative the first time is a good sign. It may be that you need further treatment.

It is also possible that you are one of those unfortunate people whose blood test won't change. It happens. But with proper evaluation of your case, and treatment if it is needed, you can at the same time be without any clinical indications of the disease. Enough of the germ is in the blood to make a test positive, but except for that you can be well, and not run a risk of passing the disease on to anyone else.

Incidentally several newer and more sensitive tests have been developed in the last 20 years, and can do a more accurate job, in difficult cases, than can the Kahn or Wasserman tests. However, those two tests are still very useful for most purposes.

As to whether your case is hereditary, I'd have no way of knowing but what's the difference? Whether the disease is contracted as a result of heredity, or through the more usual way, it still should be treated until it no longer is a peril either to the patient or his family.

Disease Transfer

Dear Doctor: Is it possible to get syphilis from a man who has had relations with a woman yet he does not have the disease himself? — Mrs. B. J.

I never have known the disease to be passed on in that fashion. While I can imagine circumstances under which I suppose it COULD happen, they would be so extraordinary as to be scarcely believable.

The syphilis germ, you see, doesn't survive very long except in the human body. But in the human body—oh, how persistent it is. For a person to carry the germ for more than a very short time; give it to someone else, yet not contract the disease himself, would be quite unusual.

Pinworms

Dear Dr. Molner: Please discuss pinworms, where they breed, how they spread, treatment, and whether a doctor's prescription is necessary? — Mrs. R. S. C.

So many people have asked the same thing that I have written a booklet which covers all of those

questions. Yes, a prescription is necessary for the modern and highly effective treatment now in use. (Send 20 cents in coin and a long, stamped, self-addressed envelope for a copy of "The Commonest Pest — Pinworm." Address your request to Dr. Molner in care of this newspaper.)

Trench Mouth

Dear Dr. Molner: Can one ever get cured of trench mouth? — M. M.

Certainly, but the quicker you get to your dentist, the sooner you'll be cured.

Diabetes

Dear Dr. Molner: Does diabetes affect one's nerves? Does it interfere with one's ability sexually? — L.M.M.

Yes, sometimes. There can be "diabetic neuritis" with pains and reduced sensations as well. Hence diabetics should be careful of hot water bags, electric pads and the like. They sometimes can burn themselves because they don't sense how hot the things really are.

A nervous involvement can occur, causing reduced sexual potential. It can also involve the intestinal tract, causing either diarrhea or severe constipation.

(Copyright 1963)

Are you bothered with ringing in the ears? If so, write to Dr. Molner in care of this newspaper for the booklet, "Ear Noises — Their Causes and Cures," enclosing with your request 10 cents in coin and a long, self-addressed, stamped envelope.

Dr. Molner welcomes all reader mail, but regrets that due to the tremendous volume received daily, he is unable to answer individual letters. Readers' questions are incorporated in his column whenever possible.

Savings Bonds Sales In Area Counties

Total \$401,350

Sales of E and H Savings Bonds in five counties in the Fox Cities area in January amounted to \$401,350, according to Edwin L. Bersagel, Wisconsin Savings Bond Director.

Individual county totals included: Winnebago, \$191,898; Outagamie, \$119,063; Waupaca, \$39,325; Calumet, \$32,681; and Shawano, \$18,381. Chairmen of the sales in these counties were Leighton Hough, Harold C. Adams, Max Steig, Bert Ketter and O. Strassenreuther, respectively.

Wisconsin sales amounted to \$9,279,035 in January, 9.8 per cent of the 1963 quota of \$94,100,000.

According to early returns, the new income tax refund option for the purchase of E Bonds is being used by a number of citizens. According to per cent of the county goal achieved, the above counties showed the following totals: Calumet, 11.3 per cent; Winnebago, 8.5 per cent; Outagamie, 7.7 per cent; Waupaca, 6.8 per cent and Shawano, 5.4 per cent.

Teacher Suggests Industry Changes

Oregon Professor Tells TAPPI Unit More Education Is Needed

NEW YORK (AP)—An Oregon professor said today that American industry can give itself a long-range boost through just a slight change of emphasis: from mere training to true educating of workers.

"By educating, I mean stimulating them to think and to acquire the tools to think with," said Dr. James D'Argaville Clark in an address prepared for delivery to a trade group today.

Clark, a teacher of paper science at Oregon State College, then suggested that companies offer postgraduate fellowships as a lure to promising workers.

He said that some industries were training their young men well, that is, if their efforts were meant primarily to prepare young men to be superintendents or managers.

However, he said, inadequate support was being given to education, which he termed at least

equally or more important. Clark is the winner of the 32nd annual gold medal award of the Technical Association of the Pulp and Paper Industry, one of a dozen trade groups observing paper week here.

The award is given each year for significant contributions to the technical advancement of the pulp and paper industry.

Called "Idea Man," Clark was described in the citation as "an idea man, a teacher, intolerant of loose thinking, of work which is anything but the best of which you are capable."

The award is one of the highlights of Paper Week, which continues through Friday. More than 1,000 engineers, salesmen and executives of forest products companies are attending.

In Wednesday's sessions, Edward R. Cliff, the chief U.S. forester, called for professional management of the nation's small woodlands.

Such management now is generally restricted to large lots owned by corporations and the government.

However, Cliff said, small lots often contain the highest quality timber and "eventually should supply about half the timber that will be needed."

He told the American Pulpwood Association that "it just doesn't make sense to me" for government and industry to intensify forestry of their own lands "and then fail to do what is necessary to improve productivity of the forest lands in smaller holdings."

He commended efforts now being made to improve the quality and efficiency of small lots, but added:

"The problem is not that nothing is being done. Rather it is that existing activities simple are not adequate to accomplish the job."

In other action, Charles N.

OUR NEW AGE

ANT SONG

A LADY SCIENTIST HAS BEEN LISTENING TO THE "VOICES" OF ANTS...

THEY TALK BY SCRAPING FEET OR SNAPPING LEGS AND JAWS!

Egan, president of Shawano Paper Mills, Green Bay, Wis., was re-elected president of the Tissue Association, Inc.

Egan told members that "if there is no new added production capacity, there may be a real possibility that demand will more nearly equal supply in 1964."

The industry has been plagued by an over-capacity situation that has made for stiff competition in recent years.

Fire Destroys Caroline Home

CAROLINE — Fire was discovered at 2:15 p.m. Wednesday at the Otto Dieck home, Caroline. The house was destroyed.

Caroline and Marion fire departments were unable to save the house as heavy winds sent flames out of control. Firemen were able to keep the fire from spreading to nearby buildings. Some furniture was saved. The owner was visiting his wife

County GOP Seeks Chief

Leonard Pasek to Retire as Head of Outagamie Party

Outagamie County Republicans will elect a new county chairman when they meet for their annual caucus 7:30 p.m. March 14 at the Conway Hotel.

In addition to finding a replacement for retiring Chairman Leonard Pasek, the GOP will elect a slate of county unit officers and will select delegates to the 8th congressional district caucus and the Republican State Convention in Oshkosh on May 25.

The county GOP also is likely to discuss the question of state convention endorsements for candidates on future state tickets.

Party Endorsement

The endorsement question is expected to be a hot issue at all of the county, district and state GOP meetings.

In the past, the party has endorsed one candidate for each of the state elective offices and has given these candidates financial support and backing in the primary election.

The Outagamie GOP's executive committee meets Feb. 28 to decide on the agenda for the March 14 meeting and to consider a list of candidates for county party offices.

Other county caucuses in the area will be Winnebago County, 7:30 p.m., March 11, at the Menasha Hotel, and Waupaca County, 7:30 p.m., April 1, at Manawa city hall.

In the Clintonville Hospital at the time of the fire Mrs. Dieck was scheduled to return home today. Firemen are investigating to determine the cause of the fire, which they believe started in the upstairs of the two-story frame house.

Pasek

Due in Congress Today

Medicare Will Add to Dreariness in Capital

BY JAMES MARLOW

WASHINGTON (AP)—President Kennedy's medical care program, due to go to Congress today, won't relieve the general dreariness which has settled over Washington like an umbrella. It will just add to it.

It will be just one more program wrapped up by Kennedy and handed to Congress, with the chance dim, indeed, for anything coming of it. That's about par for the course so far in 1963.

January and February this year have been the two dullest opening months of any year in a long time, even though Kennedy's Democrats outnumber the Republicans as they did in 1962 and 1961 and for years before that.

At least the President can claim credit for prophecy when, despite the size of his party's margin, he said last Dec. 17 all his controversial proposals would be "closely contested."

No Signs

Nothing better illustrates the stalemate in the Capital and the Capitol than what's happening in the Senate. It has done practically nothing and shows no signs of doing anything any time soon.

Democratic Leader Mike Mansfield Wednesday complained bitterly to his fellow-senators for "demeaning ourselves" by wasting six weeks squabbling instead of legislating.

The early weeks were consumed in a fruitless fight between the out-numbered liberals of both parties and the Southern Democrats, with the former trying to change the rules to make it easier to shut off a Southern filibuster.

This has been tried so many times, and failed so often with the outcome always predictable, that it has become a kind of traditional tribal dance. That fight's finished for 1963.

Another Dispute

Now the senators have themselves boxed in on another dispute, this time about procedure

and committee assignments. Sen. Mansfield will have to be a very powerful medicine man to get his Senate braves on the legislative path.

Kennedy has so far sent two major programs to Congress, one a gigantic combination calling for tax cuts and tax reforms, all in one package, and the other proposing federal aid to education practically clear across the board.

At first Kennedy said his tax program was needed to stimulate consumer buying and business investment. Then, as if having second thoughts, he said it was also needed to prevent a recession.

This program, as was expected, has been hit from all directions by special interest groups. The whole business became more complicated, and therefore looked more unworkable, by the marriage of cuts and revisions.

Education Program

A sort of indifference has enveloped Kennedy's huge education program from the start. It's a 24-point aid proposal for the nation's schools from grammar grades up through graduate school and even private colleges and universities.

Last year Kennedy's medical care program—for which he did almost no public fighting except for one off-the-cuff broadcast from Madison Square Garden—landed in the soup.

There's no reason the one going to Congress won't land in the same moist grave, along with the education program, since Kennedy before Congress even came back this year expressed skepticism about both their chances.

While Congress has been blocking traffic, there have been no police sirens from the White House, either.

10-Cent Gas Tax

The average tax per gallon of gasoline is 10 cents. The federal tax is 4 cents, while the average state tax is 6.07 cents.

Post Publishing Officers Elected at Annual Meeting

Officers and directors of the Post Publishing Co. were re-elected at annual meetings of stockholders and directors Wednesday afternoon.

V. I. Minahan was re-named president and publisher; Glenn H. Arthur, vice president and director of sales; John B. Torinus, vice president and editor; David L. Nelson, treasurer and business manager; Kenneth E. Davis, secretary; and Roger C. Minahan, assistant secretary.

Directors re-elected include the

Book Returned After 29 Years

ATLANTA (AP)—A copy of Eugene O'Neill's "Strange Interlude" has been returned to the Atlanta Public Library after an interlude of more than 29 years. The book was checked out Dec. 7, 1933.

The borrower didn't return the book. It was found recently in a purchased house and mailed to the library.

Officers and Mrs. Mary M. Walt-offer, DePere, and Bert C. Everson, Green Bay, Maurice Cartier retired as a vice president and director effective Jan. 1, 1963.

Pavement Patriotism Now Sweeping Capital

BY HAL BOYLE

NEW YORK (AP)—The poor man's philosopher says: In public life today it is no longer enough to have a bleeding heart. Your feet have to bleed, too. The corn plaster has become the new status symbol for political in-

tegrity in the nation's capital. A man used to say he'd walk a mile for his favorite cigarette. Now he has to walk 50 miles to prove he's physically fit to serve his country. Pavement patriotism seems to be sweeping Washington, D.C., like wildfire. Every bureaucrat of

who hasn't made plans to complete a 50-mile loyalty health hike has to publicly admit he has flat feet or be put down as a coward. They say the area around Foggy Bottom is thronged with so many limping casualties the place looks like Gettysburg on the second day of the battle.

Is this what President Kennedy meant when he said we'd have to get the country moving in the 1960s? Somehow we'd hoped it would be done on wheels. This whole problem of whether you can measure the efficiency of a government by the number of bunions on the feet of elected and

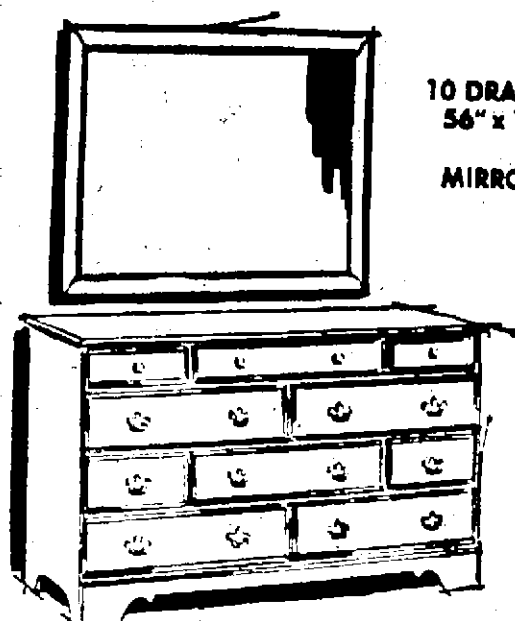

appointed officials raises a number of interesting questions such as: Will it result in a pedestrian administration? How fast of foot will lobbyists have to be to keep up with legislators on the hoof? Hike Route Isn't it enough to ask a politician to run for public office? Is it fair, after he wins, to expect him to go on a long walk to hold his job?

Instead of arranging to meet a congressman in his office, will you have to get a copy of his hike route from his secretary and hope to catch up with him at an intersection? Politics has always had its obstacle courses, but already some of the sore-footed faithful have been rumbling about using the 50-mile hike as the sole test of fitness. Some have suggested swimming the Potomac both ways. Others only 300 yards ahead.

Convertibles Now Offered by Mercury Comet

Power-Operated
Tops Standard;
Engines Improved

Convertibles become part of the Mercury Comet line for the first time with introduction of two sporty models in the Comet custom and Comet S-22 series for 1963.

Both convertibles have power operated tops as standard equipment. The S-22 model has bucket seats with dividing center console and individually adjustable front seats.

Engineering advances developed originally for the big car field have been incorporated into the 1963 Comet line and substantially reduce the time and cost of auto maintenance.

Self-Adjusting Brakes

Among these service-saving maintenance items are: an increase in the major lubrication cycle from 1,000 miles to 36,000 miles, with minor lube intervals of 6,000 miles; a replaceable fuel filter element sufficient for 36,000 miles; new front wheel bearings that require cleaning and packing only after 24,000 miles, compared to 12,000 miles in 1962; and new self-adjusting brakes that are designed to last longer.

The 1963 Comet will not require its initial servicing until six months or 6,000 miles have elapsed. A new high detergent engine oil, factory installed oil filter and adjustments to the transmission, engine and electrical system have eliminated the need for the 1,000 mile checkup.

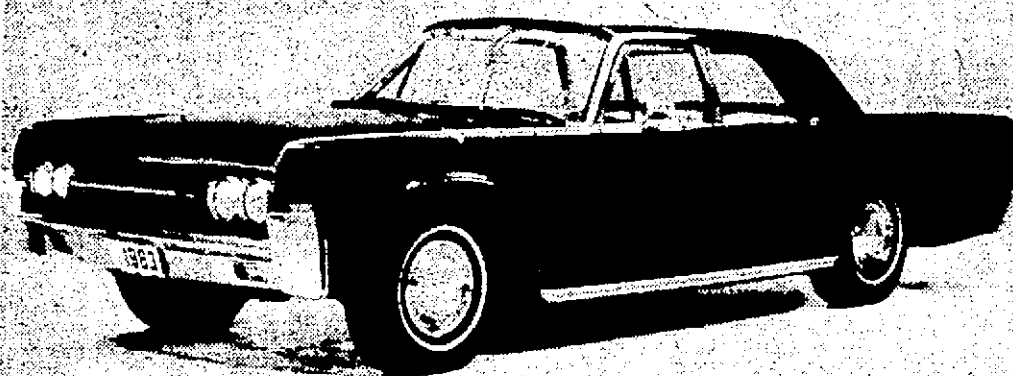

Comet's over-all styling theme is maintained with appearance changes in grille, rear ornamentation and taillamps.

Engines Improved

Improvements in the Comet's two six-cylinder engines include hydraulic valve lifters and a newly designed carburetor. The standard engine has a displacement of 144 cubic inches and the optional higher performance engine has a displacement of 170 cubic inches. Both engines are equipped with a smog reducing "blow-by" device.

Comet's sporty trend is supported by the addition of an optional new four-speed, floor-mounted manual transmission, which gives greater performance and fuel economy. Merc-O-Matic automatic transmission and a three-speed manual transmission also are available.

The Comet also comes in two-door and four-door sedans and station wagons in both standard and custom series. S-22 two-door sedan

Lincoln Continental's classic styling continues into 1963 with minor refinements. Interiors are redesigned to give almost an inch more leg room for front seat passengers and more than an additional inch in the rear. A new engine with four-barrel carburetor gives higher performance for start-up acceleration and for passing at turnpike speeds. Sedan luggage space is improved. Lincoln Continental's reputation for reliability and durability is enhanced further by improvements in design and manufacture.

Subtle Refinements In Lincoln Continental

The classic styling of the Lincoln Continental undergoes only subtle refinements in 1963. The car offers increased roominess, additional luggage space and higher engine performance.

Almost an inch more leg room is provided for front seat passengers and more than an inch additional leg room for rear seat passengers. Rear seat head room also is increased slightly.

More Trunk Room

The sedan trunk has 1.8 cubic feet additional usable capacity, which permits carrying one additional 2-suiter.

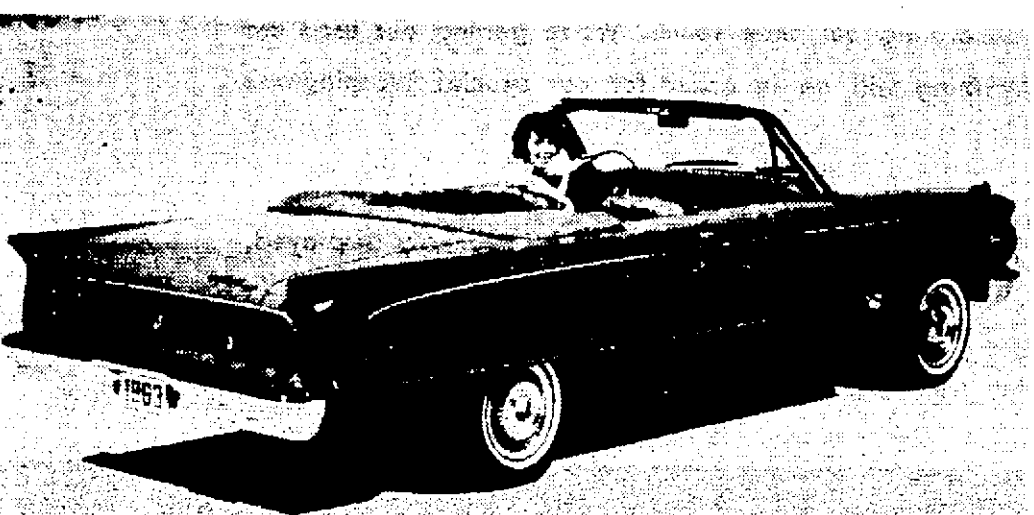

Lincoln Continental's elegant styling shows a slight modification resulting from a new and higher rear deck and three-dimensional ornamentation on the lower back panel.

A new grille and upper grille moulding feature the distinctive front-end. Amber lights for front turn signal and parking lights are a new safety feature.

Eighteen exterior solid colors are offered. The Lincoln Continental four-door convertible—the only one made in America—of

and the Villager station wagon. The Villager four-door wagon features simulated wood-grain paneling and rails, and bucket seats are optional.

Redesigned bucket seats on the S-22 models contain an additional 1/2 inch of foam padding for a more comfortable ride. The S-22 also features distinctive exterior ornamentation on the rear metal applique and special, tri-color wheel covers. Back-up lights and plush carpeting are standard on this luxury model.

Two New Convertibles are added to the Mercury Comet line for 1963. The power operated soft tops will be available in the Custom series and in the sporty, S-22 series with bucket seats. Significant engineering advances developed originally for the big car field are incorporated into the 1963 Comet and substantially reduce the time and expense of maintenance. Picture is the Comet S-22 convertible.

'63 Cars Made To Fight Smog

Emission Devices
Installed to Reduce
Unburned Vapors

All 1963 model cars and trucks manufactured in the United States will be equipped with positive crankcase ventilating systems, the Automobile Manufacturers Association reports.

Such systems also called "blowby devices" — have been installed on U.S. made vehicles built for sale in California since the introduction of 1961 models. These voluntary actions have been taken by the auto industry because the devices reduce hydrocarbons, or unburned fuel vapor, emissions that are believed to contribute to the formation of photochemical smog.

Work With U.S.

Representatives of the auto makers' industry-wide research and development program have worked closely with federal, state and community officials and with private organizations in studying the effectiveness of blowby devices in relations to smog problems.

Data gathered by the U.S. Public Health Service indicated that installation of blowby devices on new cars and trucks nationally would be beneficial in reducing community air pollution.

Automobile engineers have found that the crankcase is the source of approximately 40 per cent of total hydrocarbon emissions from motor vehicles and that a blowby device will eliminate such emissions from the crankcase. "Blowby" is a term applied to gases containing gasoline vapor blown past the engine pistons into the crankcase.

A positive crankcase ventilation system recirculates crankcase gases through the engine where the hydrocarbon vapors are largely eliminated by combustion. The system replaces the conventional road draft tube which vents crankcase gases directly to the outside air.

During application in California, this method of crankcase ventilation has been undergoing constant study, test and improvement by the automobile manufacturers to assure good operating and maintenance characteristics under all climatic and driving conditions.

Positive crankcase ventilation previously has been used by motor vehicle manufacturers in some engines to meet special design or operating requirements. The system also has been applied to the sealed engines of military vehicles designed to operate through deep water.

Greater Power In Mercury's Monterey Line

Smaller Engines
Unavailable; Many
Changes in Styling

Increased power and performance and dramatic new styling highlight the Mercury Monterey for 1963.

Mercury's big car entry, the Monterey, features a unique reverse-sloped rear window and roof line that sets it apart from all other American cars.

The new rear window has important functional advantages as well as styling appeal. It slants inward and virtually eliminates visibility problems caused by rain, snow, frost or ice. The window is power operated, and provides excellent ventilation when opened. The new roof allows more than half an inch of additional rear seat headroom.

In addition to the new roof line, the exterior of the Monterey is completely restyled. All major sheet metal and ornamentation is new. The front features a new bumper and concave grille. Quarter panels, rear bumper, and triple tail lights are new. Cantilever blade-type fenders extend the length of the car, and add crispness to the styling.

Smaller Engines Gone

To give more power and performance, the 390-Marauder V-8 is now the standard engine on the Monterey. Six-cylinder and smaller V-8 engines are no longer available on Monterey. The standard 390 cubic-inch engine with two-barrel carburetor is rated at 250 horsepower and uses regular fuel. With four-barrel option, the engine is rated at 300 horsepower. Both 390 - engines may be equipped with dual range Merc-O-Matic transmission and the fully synchronized four-speed floor-mounted manual transmission. A newly designed fully synchronized three - speed manual transmission is available on the standard 390 engine.

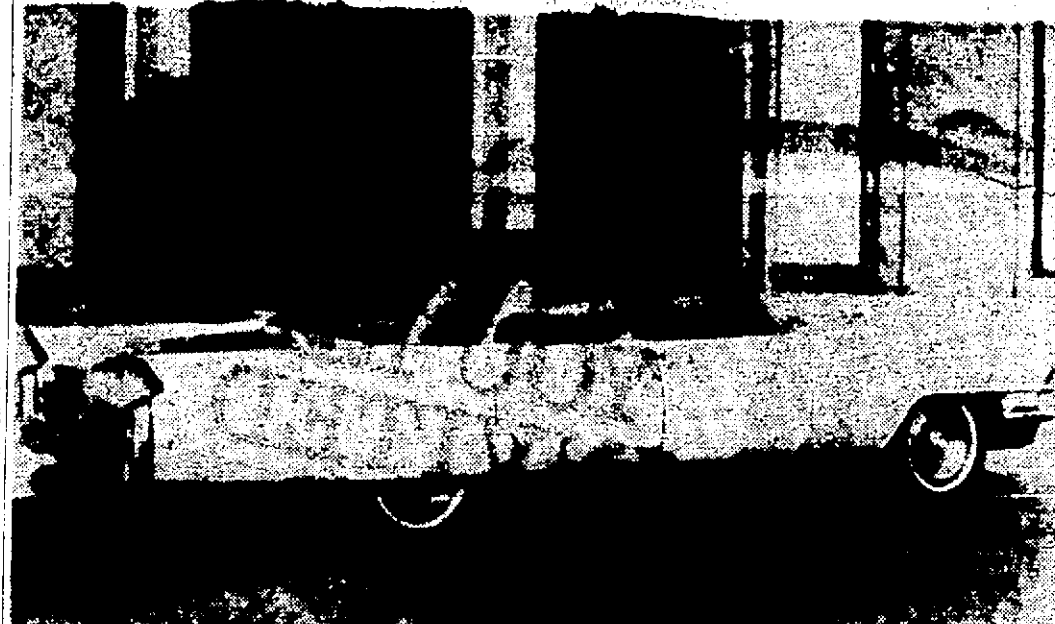

For those desiring even higher performance, a Mercury Marauder 406 V-8 engine is available as an option. The 406 cubic-inch engine is rated at 385 horsepower and at 406 horsepower with a six-barrel carburetor. The 406 engines are available only with the four-speed, floor-mounted manual transmission.

The decision to make the 390-Marauder engine standard on the 1963 Monterey was prompted by the large percentage of V-8 engines ordered on the 1962 models, according to Ben D. Mills, Ford Motor Company vice president and general manager of Lincoln-Mercury Division.

Alternator Now Standard

An alternator is standard equipment in place of the conventional DC generator, which will increase reliability of the electrical system and lengthen battery life.

Many engineering advances reduce the cost of car maintenance. In addition to the many service-saving features which have been introduced on the Monterey in

This 1963 Cadillac top-of-the-line Fleetwood Sixty Special sedan features a vinyl covered padded roof as an option. Also optional this year on this model are all leather interiors. The distinguishing characteristics of the Sixty Special are its stately roof design, stainless rocker moldings below the doors, a grille-type cove molding above the rear bumper and specially styled interiors with raised and contoured seat backs.

Cadillac Emphasizes Comfort, Convenience

Cadillac will have increased the two Series 75 models are 124.3 inches. Wheel base is unchanged on all models.

Fleetwood Sedan Tops

Traditionally the top of the Cadillac line is the Fleetwood Sixty Special sedan and 1963 is no exception. Its distinguishing characteristics are its stately roof, stainless rocker moldings along the lower edge of the body, grille treatment above the rear bumper and the specially styled interior.

Sharing the spotlight with the Sixty Special are the two-door models, the Coupe de Ville and the Series Sixty-Two coupe.

Their new appearance is accomplished by a shortened roof line, a back window that is 38 per cent smaller in over-all area maximum spray, improved safety door locks, relocation of dome lights to rear quarters in the 62 dow. With the shortened roof line, the rear deck becomes seven inches longer, contributing great changes eliminating interference with rear compartment passenger's foot room.

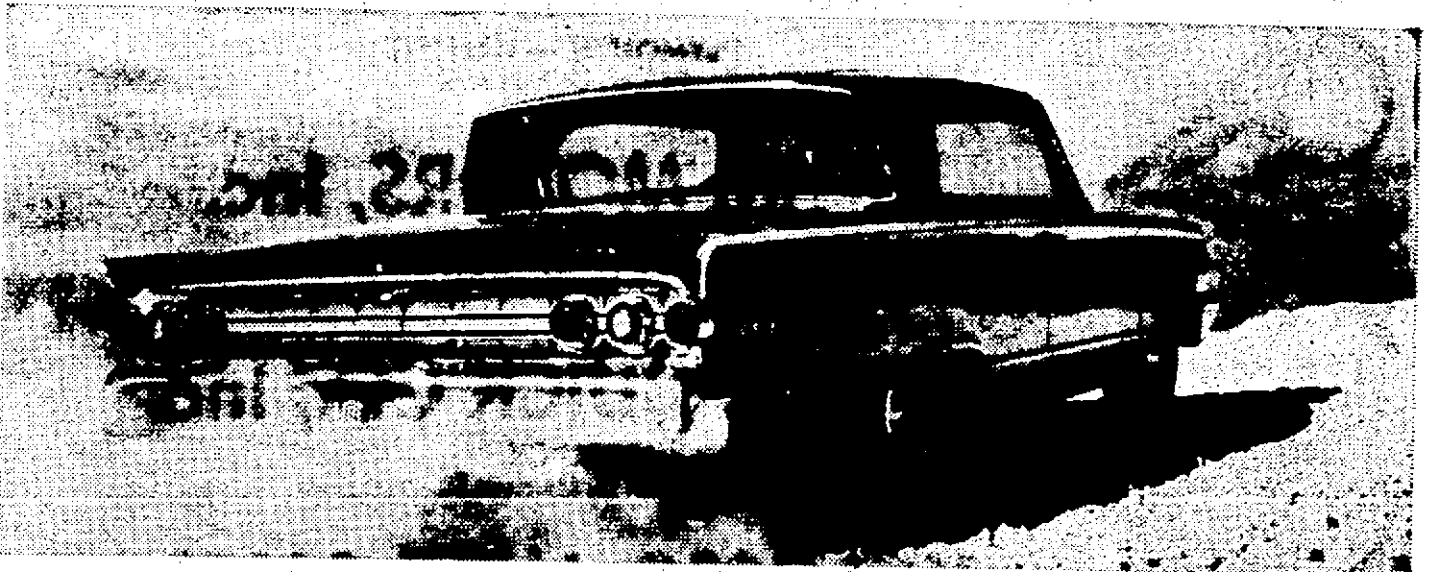

Elimination of the 1,000 mile inspection. Extension of the major chassis lubrication interval from 20,000 miles to 36,000 miles; Longer-life battery.

Increased Power and performance and dramatic new styling feature the Mercury Monterey for 1963. A unique, reverse-slope rear window which goes up and down, virtually eliminates visibility problems caused by ice, snow, rain or frost. The 390 Marauder V-8 engine now becomes standard. Pictured is the Monterey Custom two-door sedan.

Just pull this trigger and...

Feel the effortless performance that is now standard in every Mercury—a big Marauder 390 V-8! Team this engine with Mercury's optional, fully synchronized "4-on-the-floor" stick shift transmission and there's a new sense of oneness between you and your car. Effortless cornering, passing, mountaineering. Want the best? See your Mercury dealer. He's got the car you're interested in, and keeps his interest in the Mercury you get.

SWIFT, SILENT MOTION... the full command of the road that makes driving a joy again... these are the things that Continental owners love. Here is a brilliantly designed automobile that transports you swiftly, luxuriously to your destination.

No small wonder that Ward's Automotive Report, August 6, 1962 reported that "Lincoln Continental has increased its share of the \$3500-plus price field to 62.7% in the first half of 1962."

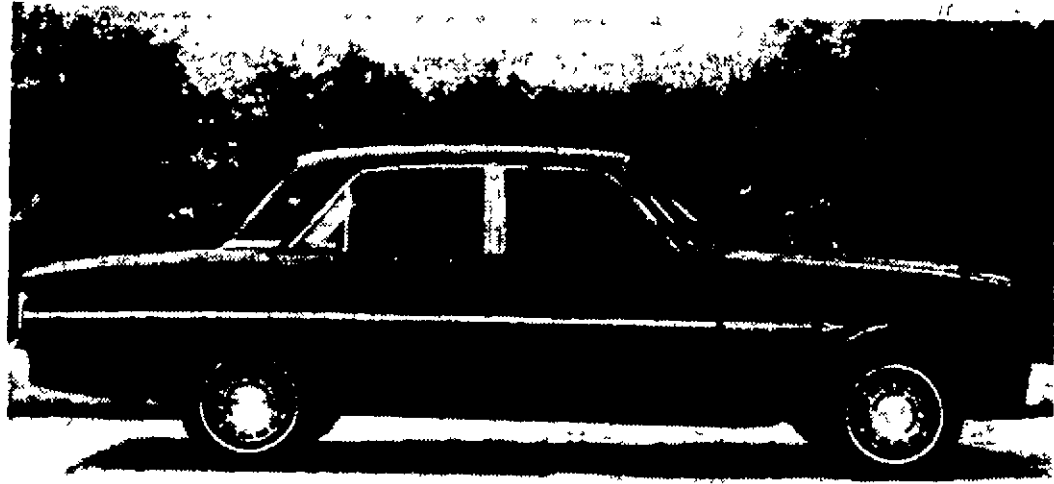

For 1963, you'll find that Continental offers even more value... increased passenger and luggage space... increased power... while retaining its classic beauty.

A New Addition to the Falcon line for 1963 is this four-door Futura sedan, which sports a deluxe interior and exterior. Shown to good advantage in this picture is the new Thunderbird-type roof that is standard on all Falcon sedans for 1963. The new roof, and all-around styling refinements, give the Ford compact a lower, speedier look. Exterior ornamentation below the roofline matches that of other Futura models (convertibles and two-door sedans) in all respects — bright-metal moldings, unique wheel covers, and distinctive Futura identification.

Sports Appeal Mark of New Ford Falcons

Power Steering and Manual Transmission Optional Features

The Ford Falcon for 1963 emphasizes sports appeal with five new models, new styling and a host of new features.

"The Falcon will offer 17 model choices for 1963 — more than any other compact line in the industry," O. F. Yando, Ford Division general sales manager, announced.

New Falcon models, all in the sporty Futura series, include a four-door sedan and two convertibles.

Sharply reduced maintenance features new for 1963 include 36,000-mile chassis lubrication interval (up from every 1,000 miles), elimination of the traditional 1,000-mile new car inspection and self-adjusting brakes.

Mr. Yando said that, coupled with a 6,000-mile oil change interval, "This means that from the time a Falcon rolls out of the dealership, no routine maintenance is required for 6,000 miles — about six months for the average driver."

Power Steering Optional

Power steering will be available as an option for the first time in 1963. Also available as an option is a fully-synchronized four-speed manual transmission.

The sports-flavor of the 1963

Falcon line is reflected in a new Thunderbird-type roof for all sedans and all-around styling refinements that give all models a lower, speedier look. Interior appointments are tailored with luxury-car plushness. Falcon offers 15 different performance levels through various engine transmission and rear axle combinations.

Two Convertibles

The Falcon Futura convertible and sports convertible models are designed to offer year-round, all-weather comfort with modern styling, luxurious appointments, high durability and economy of operation.

The electrically-powered top is styled to give a sleek silhouette, lower than other Falcons and rakish in appearance whether the top is up or down. Full width vinyl-upholstered front and rear seats are standard on the Futura Convertible with front bucket-type seats and a sports console standard on the Futura Sports Convertible.

Futura Four-Door Sedan

New for 1963 the Falcon Futura four-door sedan combines a sports flavor interior with the practicality of a family sedan. Like the other high-fashion Futura sedans, the four-door sedan offers cloth and vinyl interiors with color-keyed, nylon rayon carpeting.

The standard engine for all Falcon models, except convertibles, Station Bus and Club Wagons, is an improved version of the six-cylinder, 85-horsepower engine that in 1961 recorded the greatest gas mileage ever achieved for any "6" or "8" in the 25-year history of the Mobilgas Economy Run. Standard on the convertibles and van type vehicles is the 101-horsepower, 170-cubic-inch engine.

Ford Galaxie Called 'Most Service-Free'

Described as "the most service-free standard-size American car ever offered," the 1963 Ford Galaxie features completely new styling, a new high economy V8 engine, new 36,000-mile major lubrication interval and a new, \$10 million, soft-riding "cushion-link" suspension.

"The 1963 Galaxie represents an all-out effort by our stylists, engineers and product planners to capture an even greater share of the volume standard-size market," said E. F. Laux, Ford Division general marketing manager. "This consumer trend to sporty and luxurious cars keynotes both the styling and the many comfort and convenience features offered in all 1963 Galaxies," Mr. Laux explained.

Optional Features

Those features include an optional Thunderbird-type swing-away steering column for convenience of entry. Vent windows are crank-operated seat cushions feature three inches of foam rubber, interior door handles are

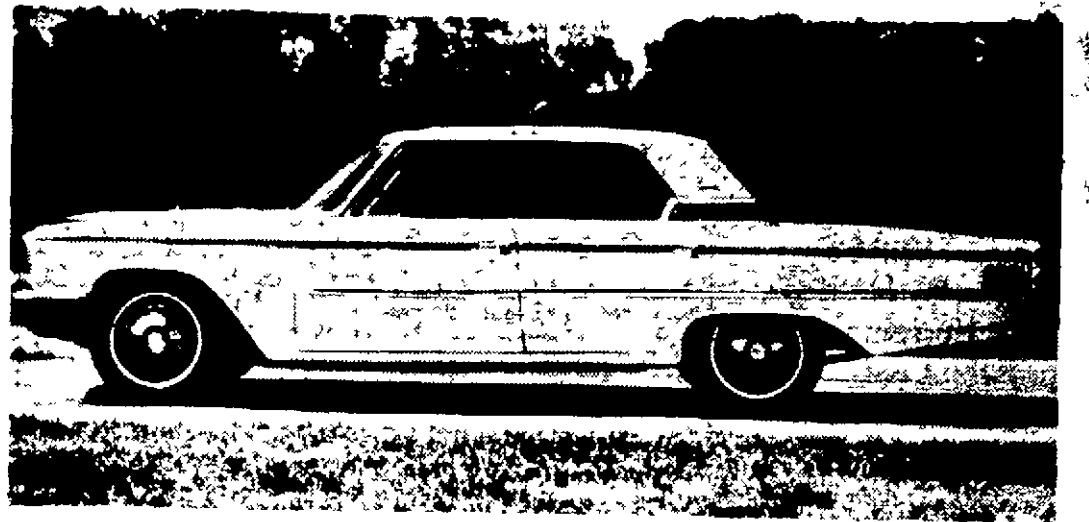

luxurious paddle-type and a new AM-FM radio is optional.

An all-new, three-speed manual shift, synchromesh transmission is standard on all 1963 Galaxie models. The new transmission, first of its type ever offered on U.S.-built passenger cars, is synchronized in all forward gears to minimize hard shifting, gear clash and tooth wear.

The 260 cubic-inch Challenger engine is designed to operate on regular fuel, offering good performance and high fuel economy. Custom performance is available in 35 different levels through various combinations of 6 engines, 5 transmissions and 9 rear axle ratios. Two-, four- and six-barrel carburetion for selected blends of performance and economy are offered on several of the engines.

Four-Door Hardtop

A new four-door hardtop model in the Galaxie "500 XL" series heads the list of 14 new Galaxies in three series for 1963. The

Described As "the Most service free standard-size American car ever produced," the 1963 Ford Galaxie features complete re-styling, a new 260-cubic-inch Challenger V-8 engine 36,000-mile major lubrication intervals, and 6,000-mile minor lubrication intervals and a "cushion link" suspension. Shown above is the 4-door hardtop, one of 14 models in the 1963 Galaxie line.

Galaxie series includes two- and four-door sedans, the Galaxie 500 to meet the comfort and handling requirements of modern high speed turnpike driving — is standard on all 1963 Galaxies. Because conventional suspensions absorb road shock vertically, a disturbance is felt and heard when the car is driven over irregularities in the pavement. Completing the new suspension is a rear suspension horizontal component so that each rear wheel also can absorb disturbances horizontally as well as vertically.

SPEND JUST 10 MINUTES TO DISCOVER THE RIDE FORD SPENT \$10 MILLION TO DEVELOP!

FORD SPENT \$10 MILLION TO GIVE THE '63 FORD GALAXIE ITS NEW VELVET RIDE. UNTIL YOU SPEND 10 MINUTES BEHIND THE WHEEL, YOU CAN'T POSSIBLY KNOW HOW GREAT THIS NEW RIDE IS . . . AND SHERRY MOTORS INVITES YOU TO DO JUST THAT! BUT BEFORE YOU GO, READ THESE FACTS:

Until now, the wheels of most cars simply moved up and down as they hit bumps, ruts, holes. But not with the '63 Ford Galaxie! Each wheel can now move back and forth too. As the wheel meets a bump, it can move back like a fighter to soften the blow. Result: Our big and lively Ford Galaxie has the newest ride on the road today—a smooth ride borrowed from the Thunderbird, and a way with

corners that until now was a Thunderbird secret! Add to this the comfort of deep-foam front seat cushions, new body mounts, hundreds of other refinements, and you know why the road turns to velvet. Yes, this year Ford Galaxie has the look, the power—and now the feel of the Thunderbird! You won't believe it until you try it! So come in and discover this new \$10 million ride—today!

Pontiac Makes Catalina Series In 7 Models

Tempest Will be Longer, Wider, Have More Horsepower

Styling and engineering developments found in the new 1963 Pontiacs are more impressive than ever before. The wide track models in the four all-new series, reflect the highest standards in body styling, performance, ride and handling, dependability, and serviceability.

Retaining a strong Pontiac identity, the 1963 cars have a split grille that features sunken air scoops flanked by an exclusive "over and under" vertical headlight arrangement which vividly extends the wide track theme. Rear end styling is expansively wide and distinctively Pontiac. Gracefully formed rear bumpers sweep upward at the ends to blend smoothly with sculptured side panels, thus enhancing the long, low, wide appearance.

Pontiac's high volume production series, the Catalina, is available in seven models; two and four-door sedans, two and four-door hardtops, six and nine passenger Safaris and a convertible. The Star Chief is offered in a four-door hardtop Vista and four-door sedan models. The luxurious Bonneville is available in four models; two and four-door hardtops, a six-passenger Safari and a convertible.

Pontiac's 1963 Catalina series is represented here by the convertible model. Its new styling is graceful, massive, elegant and distinctively Pontiac. There are six other Catalina models; a sports coupe, a four-door hardtop, two and four-door sedans and six and nine-passenger Safari station wagons. Convertible interiors are of solid Morrokide and there is a choice of six top colors. All Catalina models have full floor carpeting and cowl panels are solid plastic. The 1963 Pontiacs offer self adjusting brakes, increased engine performance, less owner maintenance and significant developments in new accessories and safety features.

7.9 Million U. S. Families Have 2 or More Cars

More than three and one-half million U.S. families moved into the two-or-more car ranks during the past eight years.

A recent national survey showed that the number of multi-car households in the country increased from 4.1 million in 1954 to 7.9 million in 1962—a rise of 90 per cent.

The eight year period saw a 23 per cent gain in the number of single-car households in the nation.

Households with three or more cars rose from 411,000 in 1954 to 750,000 in 1962.

Passenger cars are now owned by 42 million households, or 77 per cent of all families. This is a rise from the 34.3 million households owning cars in 1954 which totaled 72.9 per cent of all households.

spent for production facilities.

Expenditures for new facilities by the motor vehicle and parts industry in 1962 are estimated at \$810 million according to an AMA report prepared from U.S. Dept. of Commerce data. This expenditure is 16 per cent above 1961 and 36 per cent higher than 1959.

New plant and equipment expenditures in motor vehicle and parts manufacturing industry in millions of dollars: 1946, \$591; 1947, \$594; 1948, \$474; 1949, \$349; 1950, \$510; 1951, \$851; 1952, \$855; 1953, \$889; 1954, 1,295; 1955, \$1,128; 1956, \$1,689; 1957, \$1,058; 1958, \$558; 1959, \$640; 1960, \$890; 1961, \$750, and 1962, (Prelim.) \$870. Total, 1946 through 1962, \$14,001.

Valiant Offers Power Top Convertible

Extensive Testing Brings Numerous Engineering Changes

Valiant, the low priced compact of Chrysler Corporation, has completely new styling for 1963.

It is 2.2 inches longer and is sleeker in appearance than previous models. For the first time this year Valiant offers a convertible with either a power or manually operated top.

"The 1963 Valiant re-emphasizes its reputation as the value leader in the low-price compact field," says C. E. Briggs, vice president of Chrysler Motors Corporation and general manager of the Chrysler-Plymouth Division.

Valiant for 1963 has a new warranty for five years or 50,000 miles, whichever comes first, on the major power train components including engine, transmission, propeller shaft and universal joint and rear axle.

To bring about the many significant engineering advances in the 1963 Valiant, the car was subjected to one of the most comprehensive testing programs in the history of the automobile industry. During its development, the Valiant was put through more than a half million miles of engineering road testing to establish its high degree of durability and reliability.

As in 1962, the new Valiant offers two engines. Its 170-cu. in.

Two New Convertibles, the V-200 and the Signet 200, are added to the Valiant line in 1963, giving Chrysler Corporation's lowest priced economy compact entry a complete range of compact models and body styles. Shown is the Valiant Signet 200 convertible, which features bucket seats and a manually or automatically operated top.

inclined six is the biggest standard engine in its field. The peppy Super 225-cu. in. six is optional.

Overall length has been increased 2.2 inches, while width at the rear bumper is reduced 1.6 inches.

The new Valiant look is highlighted by a broad front-end treatment featuring, for the first time since 1957 on Chrysler Corporation cars, single headlights.

Distinctive Lines
The side profile of the 1963 Valiant has distinctive, clean lines.

The new Valiant has a broad flat hood with an identifying medallion in the center of the hood brow.

From the rear, Valiant has an all-new look characterized by a lower belt line beneath the rear window and a sloping deck, flanked by sharp-ridged quarter panels.

Inside, Valiant introduces a new keystone shaped instrument cluster which affords better visibility.

There are a number of significant quality improvements in 1963 Valiant interiors. Reinforced rubber mats with greater puncture resistance are being introduced. Loop carpeting of 80 per cent rayon and 20 per cent nylon gives better wear resistance and longer life. Molded carpets are polyethylene-backed for improved fit and durability. Body cloth war resistance has been improved, improved vinyl headliners are used and front armrests on the Signet are four inches longer.

The 1963 Valiant retains its full-unitized construction in an improved structural design that is stronger and more durable and less susceptible to corrosion. Underbody components have been redesigned to give improved mois-

Amber Front Turn Signals New for 1963

Amber colored front turn signals will be one of the features on 1963 U.S. motor vehicles.

The change from the white lights in present usage results from an industry-wide project started in 1958 to re-evaluate all motor vehicle lighting and signaling components.

Engineers from lamp and vehicle manufacturers taking part in the project found that amber turn signals were more easily seen than white against glaring reflections and provided greater contrast against headlights at night. Tests were conducted in different parts of the country under a variety of light and weather conditions.

Findings were reported to state motor vehicle officials in 1959 with the suggestion that laws in 25 states restricting the use of amber front turn signals be amended. The necessary action was taken by state legislatures during the past three sessions making the change possible on 1963 models.

ture drainage and prevent rusting.

The 1963 Valiant offers an entirely new heater and fresh air ventilation system for all-weather comfort. For warm weather driving the ventilation system has approximately 40 per cent higher fresh-air capacity than the previous system and distributes the air more effectively for passenger cooling.

Thursday, Feb. 21, 1963 Appleton Post-Crescent B4

Many Station Wagons

The growth in station wagon popularity is shown by the fact that at present 14 per cent of

automobile output is made up of such units. In 1955, wagons were six per cent of total production, and in 1949, less than one per cent.

74.5% vote Valiant best in nationwide consumer survey

"Like to test-drive the 1963 compacts?" That's what Nationwide Consumer Testing Institute—a completely independent company—recently asked 3600 typical drivers in 18 cities across the country.

The people were asked to test-drive two compacts. Some picked Corvair and Valiant. Some picked Falcon and Valiant. Some wanted to try Rambler or Chevy II. The course included all kinds of normal driving.

Drivers circled the course twice (once in each car) with N.C.T.I.'s trained interviewers firing questions all the way. Which of these cars do you prefer for acceleration? Ride? Steering? Styling? Finally, which is the best all-around value?

The surprising results:

Compact preference	Rambler	Valiant	Chevy II	Valiant	Corvair	Valiant	Falcon	Valiant	Average four compacts	Valiant
Interior styling	25%	75%	30%	70%	27%	73%	44%	56%	33%	67%
Exterior styling	24	76	48	52	39	61	41	59	38	62
Quality of workmanship	38	62	40	60	36	64	44	56	40	60
Acceleration	17	83	48	52	21	79	25	75	28	72
Passing power	17	83	45	55	21	79	24	76	27	73
Roominess	35	65	56	44	30	70	44	56	41	59
Steering	26	74	31	69	37	63	29	71	31	69
Ride	27	73	33	67	29	71	26	74	29	71
BEST ALL-AROUND VALUE	17	83	34	66	24	76	27	73	25.5	74.5%

Two things were not tested—price and warranty. But remember that Valiant is just about the lowest-priced car made in the U.S.A. today. And that Valiant carries America's longest and best new-car warranty—5 years or 50,000 miles.* Ask your Plymouth-Valiant Dealer for your own independent test drive in The New Valiant.

*Your Authorized Plymouth-Valiant Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair, without charge for required parts or labor, for 5 years or 50,000 miles, whichever comes first, on the engine block, head and internal parts (excluding manual clutch); torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential, and rear wheel bearings, provided the vehicle has been serviced at reasonable intervals according to the Plymouth-Valiant Certified Car Care schedule.

Best all-around compact anybody has come up with yet...VALIANT!

In Dallas, 74% voted Valiant best value.

In Syracuse, 78% voted Valiant best value.

In Los Angeles, 77% voted Valiant best value.

Safety Inspired Models Offered By Studebaker

Avanti Combines High Fashion and Top Performance

"The most safety inspired, high performance cars on the market today are being offered by the American car-buying public by Studebaker," according to Sherwood H. Egbert, president of Studebaker Corporation.

"And with the luxurious interior appointments built into this year's models," Egbert said, "the American public can look to Studebaker for the most of their buying dollar."

While the biggest star of every Studebaker show exhibit to date has been the sports-themed Avanti, at least three other models in the 1963 lineup bear the dual distinction of being industry "firsts." A fourth fills a special niche in the field of special purpose vehicles.

It's High Fashion

The Avanti combines high fashion with high performance and the greatest array of safety features on any American passenger car. The Avanti's caliper disc brakes marked a breakthrough in safety for Studebaker—an advancement that now has been

Studebaker's All New Avanti, the forerunner of a new direction in automotive design, has become America's most talked about 1963 automobile. The four-passenger Avanti brings numerous "firsts" in performance, safety and styling to the American scene. Outstanding features include the high-performance Jet Thrust engine (supercharger optional), caliper disc brakes, built-in roll bar, positive locking doors and complete safety padding.

parlayed across the entire line of Studebaker cars as an option pickup truck to be offered in the industry with a factory installed and factory guaranteed camper coach mounted on the pickup bed.

The second star in the Studebaker stable is the all new Wagoneer which represented a second "first" in the industry for 1963. This triple-purpose family sports carryall with a 40-inch section of sliding roof which converts the rear portion of the body into an open topped convertible and slides back to a perfectly weather tight station wagon also.

Continues to be a popular item with the American public. Third new star in the Studebaker line is the Conestoga, first adding to the strength of the camper unit. Another unique Conestoga feature concerns the entire rear panel, which can be quickly removed to allow use of the truck camper combination as a panel van with camper coach still mounted. Moreover, matching twin windows in both camper coach and truck cab slide aside to provide a talk through and pass through opening.

Fourth crowd stopper in the Studebaker lineup has been the classic Gran Turismo Hawk

Cars, Trucks Use 61.5 Billion Gallons Of Gas Annually

As an indicator of increased travel by cars and trucks in the U.S. total motor vehicle fuel consumption is expected to reach a record high of 61.5 billion gallons in 1962, up 3.8 per cent from the previous year. This includes 56.6 billion gallons of gasoline and 2.9 billion gallons of special fuels such as diesel and butane.

California leads the nation in highway motor fuel consumption with 6.2 billion gallons followed by Texas and New York with 4.0 billion each. Eight states—California, Texas, New York, Pennsylvania, Ohio, Illinois, Michigan and New Jersey—will account for 47 per cent of the total highway use fuel consumption.

which was the first sports four-five seater "personal" car to be offered by an American manufacturer—this appearing for the first time in the 1953-54 period and since copied by the industry.

Hawk Retains Lines

For 1963 the Hawk has retained every classic line built into it by designer Brooks Stevens in 1962 re-design and has been improved with minor changes in the grille and front air scoop.

In its Standard Series Studebaker offers the only American-made car in its price range with a fully padded and trimmed dash panel. In addition, no other car in its class is equipped with all direct reading instruments.

We chose the name Standard because this car measures up to the standards we have always maintained here at Studebaker. L. F. Minkel, vice president of marketing for Studebaker's automotive division said, "We feel it sets new standards for the industry, not only in quality but in value, performance and utility—and above all, in thrif." Add to this the Cruiser, the only

Louise offered the American public the Regal Custom and Daytona Lark series and you have a line of cars that offer the most outstanding engine performance, quality and reliability in Studebaker's history.

Auto Manufacturers Heavy Power Users

The vast amount of money spent annually by motor vehicle and equipment manufacturers is reflected in figures gathered from the U.S. Department of Commerce by the Automobile Manufacturers Association.

The figures show that in 1960 the motor vehicle and equipment manufacturers spent \$285 million for fuel and electrical energy. This breaks down the AMA said, to \$165 million for fuel and \$178 million for electrical energy. The latter amount representing the cost of 16 billion kilowatt hours of electricity.

The 1960 figure shows an increase of approximately \$12 million in the total cost of fuel and electrical energy purchased by motor vehicle and equipment manufacturers in 1960 over 1959, and about \$29 million over 1958.

200 Million Vehicles

Since the beginning of the automotive manufacturing industry in the United States in 1896 more than 200 million vehicles have been produced.

This is the economical Newport 4-door sedan

\$2964*?

Sounds unbelievable for a Chrysler. But it's true. And we're ready to prove it to you.

Considering the full-size value you get in a Newport 4-door sedan, we can appreciate why so many ask us to prove that a Chrysler can be priced so low.

We're always happy to.

Because we can talk about full-size comfort; big, booming V-8 power (fed by economical regular gas); rich fabrics; lush carpeting. Plus America's best and longest new-car warranty†—5 years or 50,000 miles.

So why not compare the facts, the figures, the features, with any car anywhere. We think you'll find the \$2964 Chrysler sizing up as the finest value in town.

Your Chrysler dealer's ready with the proof.

*Your authorized Chrysler Dealer's Warranty against defects in material and workmanship on 1963 cars has been expanded to include parts replacement or repair without charge for required parts or labor, for 5 years or 50,000 miles, whichever comes first on the engine block, head and internal parts, transmission case and internal parts (excluding manual clutch), torque converter, drive shaft, universal joints (excluding dust covers), rear axle and differential, and rear wheel bearings. Provided the vehicle has been serviced at reasonable intervals according to the Chrysler Certified Car Care schedules.

*Manufacturer's suggested retail price of Newport 4-door sedan, exclusive of state and local taxes, if any, and destination charges. Whichever is higher.

Asylum Predicted For FALN Hijackers

Venezuela Determined to Try To Extradite Opponents of President Romulo Betancourt

BY THEODORE A. EDIGER
BELEM, Brazil (AP)—The hijacked Venezuelan freighter Anzoategui and its pro-Communist captors headed for Belem separately today, in Brazilian custody. The ship is on its way back to Venezuela and the hijackers hope for political asylum in Brazil. A foreign office spokesman predicted asylum will be granted to the nine terrorists who seized the freighter at sea and sailed it to Brazil before surrendering. In Venezuela they would face trial and possible 10 to 15-year prison terms.

"There is no question but that this is a case purely of asylum," Jorge de Sa Almeida, foreign office spokesman told newsmen. "Such asylum is a deeply embedded traditional right in Latin America."

Daring Opponents
Venezuelan diplomats reaffirmed their determination to try to extradite the daring opponents of President Romulo Betancourt. The final decision may have to come from Brazil's supreme court.

Brazilian officials took charge of the freighter and the terrorist band Wednesday at Macapa, a steaming jungle port on the north side of the Amazon Delta 230 miles northwest of Belem.

The de-throver escort Solimoes drew up to the 3,127 ton Anzoategui and took the hijackers aboard for their trip to the Belem naval base.

Brazil's green and yellow flag was hoisted in token of custody and the Anzoategui headed for Belem en route back to La Guana, the port of Caracas.

The freighter left Caracas Feb. 12 for the United States. Shortly after she sailed stowaway terrorists led by the ship's second mate seized the Anzoategui in an effort to discredit Betancourt's anti-Communist government.

Brazilian forces took over the ship off Macapa Tuesday and disarmed the terrorists.

Brazilian officials said they received word that the Anzoategui's skipper Oscar Pereira and his 35 crewmen were unharmed and in good health.

Two Officers
Two Venezuelan naval officers were en route to Belem to take possession of the freighter. The ship is owned by the Venezuelan Government Shipping Company.

While the vessel lay at anchor at Macapa the hijackers appeared on deck wearing red and navy blue arm bands with the letters FALN—for Armed Forces for National Liberation, a pro-Castro Venezuelan terrorist group.

A radio operator aboard a Greek ship loading manganese ore at Macapa said crew members on the Anzoategui had been using the ship's radio to tell relatives in Venezuela they were well.

Although the hijackers failed to cancel Betancourt's trip to the United States, their associates continued the terrorist campaign at home.

Snipers trying to break up an opposition party political meeting exchanged gunfire with police, killing a bystander and wounding three others. Thefts by FALN terrorists were reported in northwest and southwest Venezuela.

Nehru Denies He Opposes Western Aid

Reds Say Leader Not Seeking Air Assistance From U. S.

NEW DELHI—Prime Minister Jawaharlal Nehru denied to Parliament today reports that India is not seeking air assistance from the United States and other friendly Western nations and that he opposed to India seeking such aid. The reports have been circulated in propaganda by Communists and fellow travelers.

Contrary to the subject arose when two Communist inspired delegations asked Nehru to present plans for an air umbrella over India that would involve establishing foreign air bases in India. The delegations later issued statements to the press indicating Nehru opposed the plan.

U. S. and British air missions are in India studying short term and long range requirements for air defenses.

Expressed Gratitude
Nehru told Parliament today that the missions were in India at India's invitation and expressed "gratitude for help from friendly nations."

Nehru's statement came after U. S. Ambassador John Kenneth Galbraith did some unusually frank talking in public yesterday.

He said the United States is not providing any military aid except that expressly requested by India. This applies with full force," he said, to the problem of air defense.

Even the act of exploring the problem of air defense does not constitute any commitment," he added.

Galbraith noted that the military relationship between India and the United States changed when American planes ferried Indian troops and munitions after the Chinese attack.

The United States he said has no interest in "extending our system of military alliances" but in the face of the threat from China India must be strong enough to "raise the threshold against aggressive adventure."

Executive Optimistic About Growth Potential of Paper

NEW YORK (AP)—Ten years ago you never would have imagined all the details you'd be recording today. Just look at the personal data you have to file with the government.

The speaker G. E. Veneman, a young executive with a Wisconsin Company was not complaining. He was in fact citing this as a reason for optimism.

To record data you need paper. Veneman is the newly elected president of the Writing Paper Manufacturers Association which represents among others the companies that make bond ledger duplicating and other office paper.

Executive Optimistic About Growth Potential of Paper

The growth potential of this industry is great," he said in an interview. "In the past two years it grew 14 per cent and we're talking about another 4 per cent this year."

Veneman executive vice president of the Nekeosa Edwards Paper Co., a big company in the small town of Port Edwards, Wisconsin, cites other reasons for optimism.

One of them is an overcapacity situation that had left many plants operating inefficiently is correcting itself, he said. He indicated that by the end of 1964 supply and demand should be in balance.

The overcapacity had caused a squeeze on profits beginning in 1957. It reached a peak in 1961 and began to ease last year.

Veneman athletic and young looking at 42 is the father of three children. He maintains he contributes to the use of writing paper as heavily as anyone especially around income tax time.

100 Children Faint
ADELAIDE, Australia (AP)—More than 100 children fainted or collapsed from the heat and excitement today while waiting two hours for the arrival of Queen Elizabeth II at Elizabeth Town ship.

The queen unveiled a fountain commemorating the naming of the township after her.

Western Allies Split on Berlin Talks

France Opposes Another Session With Soviets

BY ENDRÉ MARTON
WASHINGTON (AP)—The Western allies are reported split on pursuing a new round of exploratory talks with the Soviet Union on Berlin.

While the United States takes the view that Soviet overtures for a fresh start should not be rebuffed, high diplomatic informants said Wednesday night, France remains opposed to another session with the Soviets. Britain and West Germany, the sources said are supporting the U. S. position.

Talks between the United States and the Soviet Union on the divided German city have been stalled since last spring. Earlier this month the Soviets proposed a new attempt be made to try to find a solution to the Berlin problem. The United States immediately consulted with its three allies.

Still Going On
The consultations are still going on in Washington with Llewellyn Thompson, the State Department's ambassador at large, presiding.

At these discussions the French continue to stand apart from the other allies, insisting there is no need for further talks. Beyond the need to coordinate positions, informants said, a number of detailed questions have to be clarified including who should talk to the Soviets and where and what approach should be made.

If and when the talks resume the format will be likely the same as before, bilateral informal exchange of views between a high ranking American and Soviet with the United States filling in its allies after every stage.

Resolution Asks Ruling on Film Of State Governor

MADISON (AP)—The Republican controlled Senate passed a resolution Wednesday to ask attorney general to determine if Gov. John W. Reynolds' controversial budget film infringes on the rights of privacy of welfare institutions patients shown.

Sen. Clifford Krueger R-Merrill introduced the resolution and kicked off a two-hour debate with his request for immediate action on it. When the partisan argument was over the resolution was passed in a straight party vote of 21-11.

Krueger said he wanted to know if the parents of mentally retarded children shown in the film "have some protection against invasion of privacy."

"If they don't, maybe we need some new legislation," the senator added.

The 16-minute film taken on the governor's budget tour of state institutions shows the faces of some patients at Northern State Colony at Chippewa Falls. Despite objections raised by Krueger and other Republicans the Democratic governor has decided to make the film available for public showing.

Democratic floorleader Richard Zaborski of Milwaukee called the resolution "political tripe."

34-Year-Old Father Receives E. E. Degree

WASHINGTON (AP)—Robert R. Fontaine, 34 father of nine who found time to attend night classes over a 12½ year period, receives a degree in electrical engineering tonight from George Washington University.

How does a man with nine children concentrate on his homework?

"It's really no problem," Fontaine said. "You merely study in the daytime on weekends after sending them all out to play, or after 9 o'clock at night when they're all in bed."

Astronaut John H. Glenn, with Sen. Clinton Anderson, D-N.M., at his side, displays the American flag he carried through outer space exactly one year ago. Glenn's space suit is in the foreground. The astronaut presented the flag, suit and space capsule Friendship 7 to the Smithsonian Institute in Washington. (AP Wire-photo)

Sculpture Depicting Kennedy As Angel Found in Seminary

DETROIT (AP)—An altar sculpture depicting John F. Kennedy as an angel was found in the basement of a Roman Catholic seminary in Memphis, Mich.

The discovery was announced Wednesday by the Rev. Nicholas Maestrini, president of Marygrove College, and Benjamin Levinson, member of the board of trustees. It had been lying for three years safely packed away in the basement of the seminary.

The sculpture—for which President Kennedy posed when he was a Harvard student—will be used on the main altar of the seminary.

The Kennedy panel was found after one of the Marygrove missionaries Brother Ronald Doneda last month saw pictures and a story about the Kennedy connection in an Italian magazine. He recalled the 12 crates in the basement that had been shipped from Rome. He unpacked them, studied them carefully and found the Kennedy sculpture.

Author sculptor Mrs. John C. Wiley, wife of an American diplomat, and church officials confirmed the authenticity.

Origin in Latvia
The origin was in Riga, Latvia where the Wileys were stationed in 1939. Young Kennedy, on a vacation was visiting the Wileys.

"I needed a model for the angel in one of the panels," Mrs. Wiley recalled. "Jack with his curly hair and youthful serenity of expression was literally God sent."

The sculpture was intended for a new church in Antwerp, Belgium. But by the time it was completed the Nazis had overrun Belgium. It was shipped to Rome where it was assigned to a new church being built in a suburb.

When the new church was completed the architect said it did not fit in with the building's design. Later it was donated for a religious exhibit in 1959.

There the Rev. Felix Cazzaniga picked it up for the Pontifical Institute for Foreign Missions, Order of Father Maestrini, in Rome to

ed the entire sculpture for his new seminary.

So it was shipped to Michigan knowing that a young man who was to become president of the United States had posed for one of the panels.

Officials Optimistic Peak in U. S. Defense Spending Looks Near

BY FRED S. ROFFMAN
WASHINGTON (AP)—The peak in defense spending appears is sight.

But there are unknowns and uncertainties that could prevent any substantial downturn or even a leveling off in the years ahead.

Several key administration officials, including Budget Director Kenneth Gordon, have been speaking optimistically of late. Pentagon authorities agree there is a basis for such optimism.

Kennedy Budget
President Kennedy's proposed budget for the coming bookkeeping year contemplates record peacetime military spending of about \$51 billion—more than half the total federal budget.

This is about \$8 billion higher than the last military spending proposals submitted to Congress by President Dwight D. Eisenhower before he left the White House two years ago.

Much of the heavy increase grew from the Kennedy administration's urgent push to (1) build up the country's conventional land, sea and air forces and (2) speed construction of Polaris missile firing submarines and emplacement of quick firing Minuteman intercontinental missiles in protected bases underground.

A good bit of this already has been done. And the new budget contains money to pay for the balance of such expensive programs as a 41 boat Polaris fleet and a force of new jet tanker planes to give B52 bombers greater range and endurance.

The number of U. S. fighting men has been boosted by nearly 200,000 above the Eisenhower strength, to nearly 2.7 million.

The Pentagon has taken long strides toward re-equipping its forces with the latest and most potent in artillery, tanks, battle-field missiles, jet fighter planes, helicopters and armored troop carriers.

A dangerous deficiency in high speed jet transports to fly troops to danger spots overseas is well on its way to being overcome.

But the Defense Department has embarked on a \$2 billion program to buy Phantom jet fighters for the Air Force and Navy over the next five years. And beyond that, it is just getting started on development of a standard fighter to replace the Phantom. Ultimately, this advanced plane, now called the TFX, could cost \$5 billion or \$6 billion.

Election Supervisor Announces Retirement
MADISON (AP)—Gaige Roberts, supervisor of Wisconsin elections for 22 years and a member of the secretary of state's staff since 1921, announced Wednesday he will retire Feb. 28.

Roberts 65, said he will travel in Florida for a month and then "just take it easy."

A competitive Civil Service examination will be announced to fill the post.

The Oldsmobile Holiday Sports Coupe (pictured above) is one of six 98 models available in 1963. Fresh new exterior styling and distinctiveness from other Oldsmobile series is combined with luxurious interior design in Oldsmobile's most elegant automobiles. Making their first appearance this year will be two new 98 models—the luxury sedan and the custom sports coupe. The luxury sedan offers the ultimate in interior decor and passenger comfort and convenience, while the 98 Custom sports coupe blends the distinction of 98 exterior appearance with the excitement of bucket seats, center console and sparkling performance.

Oldsmobile Has Tilt-Type Steering Wheel

Optional Feature; 98 Custom Comes In Sports Coupe

Oldsmobile has designed its 1963 models for broader appeal through fresh, youthful styling, stronger model identification, many improvements for customer comfort and important engineering advances. These advances include a new adjustable tilt type steering wheel and another first for Oldsmobile—an exclusive positive crankcase ventilation system.

Jack F. Wolfram, Oldsmobile's general manager and a vice president of General Motors, said "To meet the varied wants and needs of today's individual buyers, Oldsmobile is offering 26 highly distinctive models for 1963 ranging from the crisply designed, longer-looking F-85 to the most elegant 98's we've ever built."

Add Two Models

"Styling distinctiveness, impressively apparent in each 1963 Oldsmobile series, has been gained

through sweeping changes in body and sheet metal, individualized grilles, rear quarter surfaces and tail lamps, bright metal accent trim and contemporary roof and upper structure design. New roof lines have been designed for the Dynamic and Super 88 Holiday Sedans and for the Starfire. Two new 98 models have been added.

"The Super 88," Wolfram said, "is more glamorous than ever with new luxury trim and fabrics inside and distinctive accent moldings outside. As an example, the edges of wheel openings and rocker panel in the 1963 Super 88 are outlined in stainless steel."

"Oldsmobile's Star fire for 1963 is a full size sports car with its own Starfire engine, Hydra-Matic, power brakes, power steering, bucket seats, power console and tachometer as standard equipment. In addition the fresh new styling of the Starfire coupe features a concave rear window complementing its highly individualized roofline."

Luxury Sedan

"The flagship of the Oldsmobile fleet," Wolfram said, "is the new 98 Luxury Sedan. It is of six-window design with a custom interior trim including built-in door arm rests containing controls for the electric windows (standard equipment). Assist grips on the back of the front seat aid entry and exit. Both front and rear seats contain center arm rests."

"Another new model is the 98 Custom Sports Coupe, a sophisticated sports car combining the distinction of 98 exterior appearance with the excitement of bucket seats, power console and the outstanding maneuverability of the famous Starfire engine," he added.

"Another important improvement is Oldsmobile's optional 'Tilt-Away' steering wheel," he said. "By operating a small lever at the base of the steering column, the driver may position the wheel to his most vertical position for easier entry and exit."

Standard on all Oldsmobiles for 1963 is a positive crankcase ventilation system which greatly diminishes crankcase fumes. "An exclusive Oldsmobile development," Wolfram explained, "this ventilation device contains a dual action valve. At idle and at low speeds, the valve remains closed and all the mixture is routed directly to the carburetor throttle body. At higher speeds, the valve opens and the fumes are divided with the major portion directed into the air cleaner snorkel intake air stream where it is mixed with outside air and refiltered before entering the carburetor."

A new generator, the Delcotron, improves charging at idle speeds, thus prolonging battery life. The Delcotron is a self contained unit and requires no further lubrication during normal life of the car.

Plymouth Warranty Good for 50,000 Miles

New styling, exceptional performance and fuel economy—plus a 50,000 mile or five year warranty on major power train components—are making the 1963 Plymouth a strong entry in the low price field this year.

The new Plymouth models have a wider, longer look to go with their widely acclaimed liveliness. All 1963 Plymouth automobiles carry a new warranty for five years or 50,000 miles, whichever comes first, on major power train components.

Standard Sizes Only

The length of all 1963 Plymouth sedans, hardtops and convertibles is the same—205 inches. There are no intermediate, in-between models, short wheelbase or small engine cars in the line.

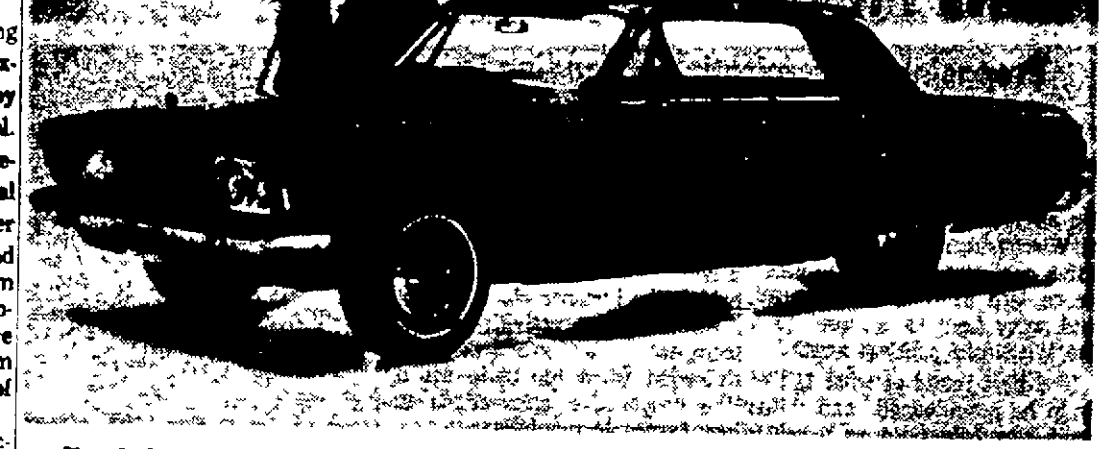

Standard power plants are the 225-cubic-inch inclined Six and the 318-cubic-inch Fury V-8. Both engines retain the economy features which have won for Plymouth victories in its class in the Mobil Economy Run the past six years in a row.

Plymouth offers 26 different models for 1963 in four series. In the Savoy series there is a 2 and 4-door sedan and a 5- and 9-passenger station wagon, both 6 and 8-cylinder. Belvedere offers 2- and 4-door sedans and a 2-door hardtop in both 6- and 8-cylinder models, and 6- and 9-passenger wagons with V-8 only. The Sport Fury series have a 2-door hardtop and convertible coupe with 8 cylinder engines only.

Corrosion Protection

All 1963 Plymouth cars have fully unitized bodies, made even better this year by means of additional corrosion protection, stronger structures and tighter sealing. The use of galvanized steel for sills, improved stainless steel for moldings, hub caps and parking lamp housings, plastic for a new improved type of molding junction against the placing in clip, plus deeper body dipping and new splash shield for wet weather protection, all add up to exceptional resistance to corrosion.

Underhood protection also is improved through the painting of engine mounts, exhaust pipes and front suspension parts, and the cards.

Fresh New Styling Appeal of the 1963 Plymouth is emphasized in the top-of-the-line Sport Fury 2-door hardtop. The long hood, attractive new roof line and longer rear deck combine to show off the car's increased length, accentuated by the lower belt line and simple bright trim strip along the side. The Plymouth grille is completely new for 1963.

Automobile, Drivers Being Heavily Taxed

When the average motorist signs the purchase agreement for his new 1963 automobile he probably will find small comfort in the knowledge that he is buying one of the most heavily taxed products on the market.

According to figures compiled by the Automobile Manufacturers Association, federal, state and local taxes account for 26 cents of every retail automobile sales dollar. For example, taxes on a \$2,500 automobile delivered to a Michigan resident currently exceed \$650. The total includes such levies as federal taxes on the radio and tires, state sales tax and taxes on materials before they are received by the manufacturer.

One of the biggest bites is taken by the 10 per cent federal

excise tax on new car purchases, amounting to \$11 billion in 1961 and due to increase by more than \$100 million in 1962 according to the AMA's preliminary estimates of year-end totals.

After the proud owner takes the wheel of his new car, he becomes subject to all manner of other special motor vehicle user taxes. The cost of his driver's license, for instance, is a tax levied by nearly all states. Federal and state taxes on motor vehicle fuel sometimes range as high as 60 per cent of the retail price of a gallon of gasoline.

In all, according to the AMA, special state automotive taxes on the motoring public account for more than 26 per cent of all state tax revenues in 1961, this amounting to \$5.5 billion. Federal and state motor vehicle taxes combined amounted to \$10.6 billion last year, including \$3.1 billion in motor truck taxes.

The AMA estimates that the federal state special automotive tax total will reach \$11.2 billion for 1962, an increase of \$600 million over last year.

Motorists in 1961 paid \$2 billion in auto registration fees, \$3.5 billion in state gasoline taxes, \$560 million in tolls and \$220 million in special city and county taxes. Federal automotive excise taxes totaled an additional \$4.2 billion and covered items such as gasoline (\$2.3 billion), new cars (\$1.1 billion), trucks (\$280 million) and tires and accessories (\$180 million). Most of these tax receipts have been or will be returned to motorists in the form of new or improved highways and other road maintenance benefits. However, an estimated seven per cent is annually diverted to non-highway purposes.

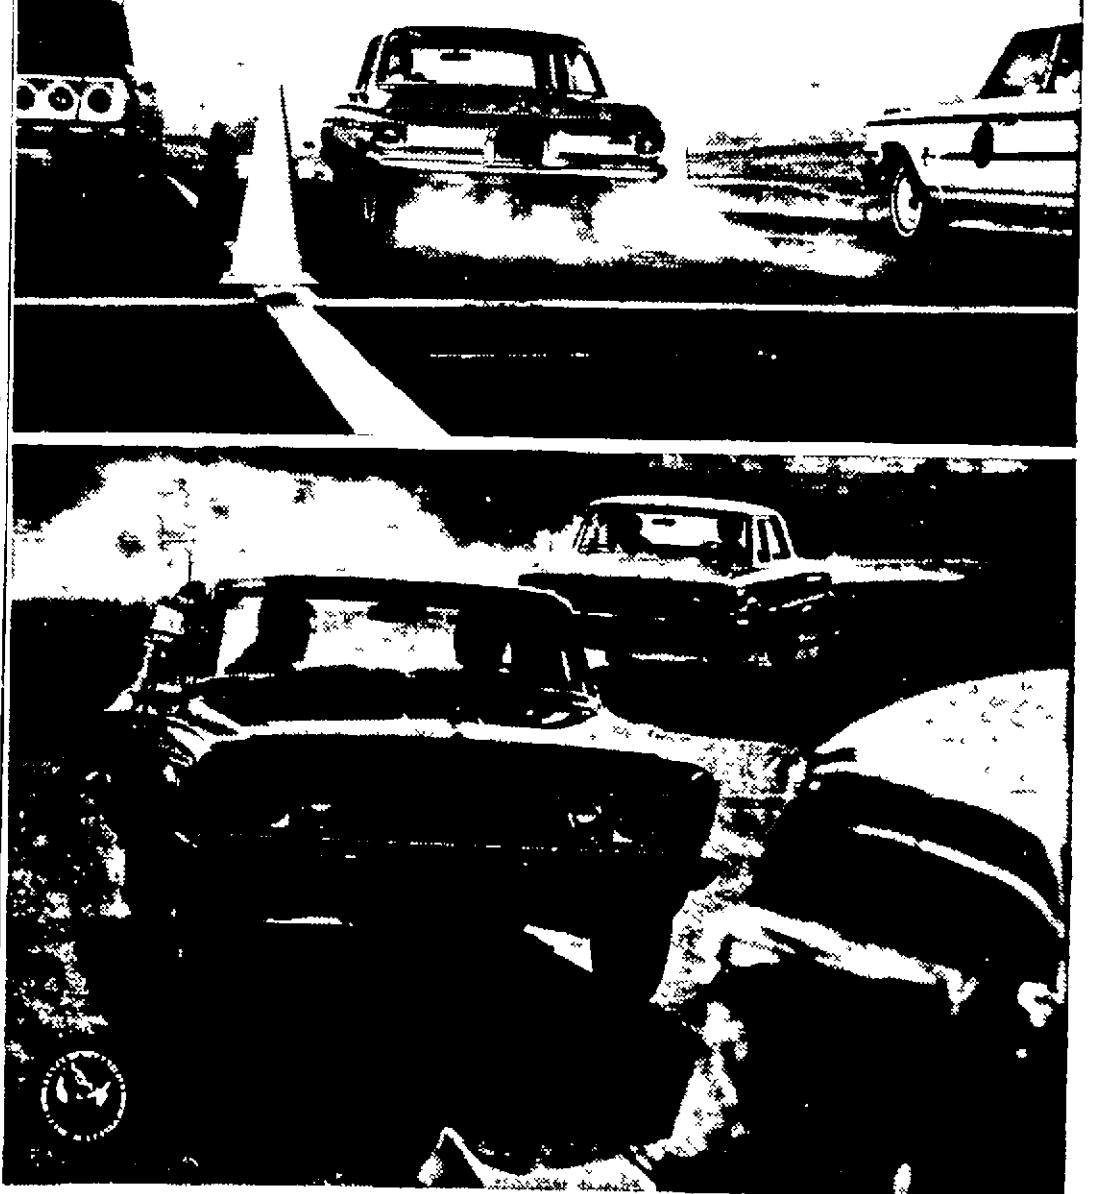

Official Nationwide Consumer Testing Institute Reports:

PLYMOUTH WINS PERFORMANCE TEST. PLYMOUTH WINS GAS ECONOMY TEST.

It happened in the second big meeting of Ford Galaxie "500", Chevrolet Impala and Plymouth Fury at Riverside, Cal.—in a "Shakedown" Plymouth asked for. The cars were all V-8's, comparably equipped. And Nationwide Consumer Testing Institute was there to conduct the competition and see to it that its strict rules were followed. When it was over, Plymouth had victories in almost every performance test, plus victory in the all-important economy run. Plymouth for '63 also has the only 5-year/50,000-mile warranty* in the tough Plymouth-Ford-Chevrolet league. See your dealer. Plymouth's on the move.

Banks, Savings-Loan Firms Head for Clash

Proposing Modernization of Lending Laws Senate Committee Hears Views on Bill

Post-Press Staff Bureau
MADISON — The banks and the savings and loan associations of Wisconsin, increasingly competitive commercial rivals in recent years, are heading for an angry and noisy fight for supremacy in the Wisconsin political arena.

The first round of what is likely to be a prolonged and bitter fight was held here as a senate committee heard bankers de-

nounce and savings and loan spokesmen ardently defend a bill that was introduced as a modernization of the laws governing the savings and loan companies, but which the bankers claim will expand the lending activities of their competitors far beyond the limits intended when the state set up the cooperative associations under favorable regulations.

The heart of the savings and loan measure would permit them to expand their operations into a 100-mile zone rather than the 50-mile limit of present law, into loans for equipment and furnishings as well as for homes, and into loans on apartment houses as well as single family dwellings.

The savings and loan spokesmen said their demand for changes in the law reflect the demand of borrowers upon them, and the need to make the laws governing state-chartered associations uniform with the more liberal controls of the national government to which federally chartered associations are subject.

The Wisconsin Bankers Association complained that their cooperative competitors want to retain all of the special privileges that have been granted to them as mutual thrift organizations, while desiring at the same time to enter the general installment sales financing field in competition with the banks.

William F. Double, lobbyist for the savings and loan league, said much of the bankers' criticism was "vicious," but on the claim that his clients want to get into the installment financing market he replied:

"What's wrong with that? Let's face it." He said a typical borrower wants to consolidate his obligations in a single agency, for his house, as well as his furniture and appliances.

The bankers association maintained also that the proposal "would completely demolish the concept of mutuality for savings and loan associations. There would be nothing left of their traditional role as cooperative institutions run by and for their members to assist each other in the financing of their homes."

There are more than 500 banks in the state, and about 150 savings and loan associations.

4-Door Popular

Most popular passenger car body type is the four-door sedan, currently 38 per cent of total production.

The 1963 Volkswagen seems unchanged from years past but that isn't true. This year's model has interior changes that make for a cleaner car and a change in the heating system which warms the interior much sooner than in previous models.

Nason on Education

Superior Child Must Learn How To Develop All of His Skills

BY LESLIE J. NASON, ED. D.

Dear Dr. Nason:

Our seven-year-old son has been reading since two years of age and has a very large vocabulary. He is self-taught and loves reading and memorizing. He thought kindergarten was silly, would not join in games of skipping, jump rope, etc. He loved puzzles and numbers but did not like drawing and painting which he could not do very well.

In first grade he was excellent on numbers. He did several demonstrations for teachers and club groups, but hated writing. The teacher told us not to push him in it.

This year he is in a different school and in a first-second grade combination which he resents, as children chide him by saying he is a first grader.

The teacher says she can not put him in another class until he can show her what she knows he is capable of doing.

His written assignments are never finished because of poor coordination; his marks are down in math not because he doesn't know the answers, but because of having to write the problems. So it ends up with her keeping him from 15 to 30 minutes each day after the class is dismissed.

Please help us if you can.

Mrs. C. S., Sacramento, Calif.

Answer:

Unless your son develops the skills of writing for his school work and the coordination necessary to play the games of his grade level, he will be unsuccessful and unhappy throughout his

school life. This often happens to superior children who are left to develop in their own way.

Someone must take time and patiently, but firmly, show him how to improve his handwriting skills. A good discussion of this will be found in my book, "You Can Get Better Grades."

He will develop coordination for play if some adult, or perhaps another child, helps him get the necessary practice in throwing,

catching and batting a ball, climbing jungle gyms or jumping rope.

Dear Dr. Nason:

Our children (fifth and sixth graders) have come to dislike homework. Their schools' policy from the earliest grades is to give extra homework assignments on weekends to pupils who have misbehaved during the week. And when the class in general is unruly they all get an extra assignment.

This seems very unfair to our children. What is your opinion?

G. A., San Jose, Calif.

Answer:

School work should not be associated with punishment.

When a history teacher assigns a theme or written exercise to punish students for misbehaving, he is making the work of the English teacher very difficult.

I suggest that you discuss this with your principal or counselor.

In hopes that the offending teachers can be influenced without bringing still more punishment on your children.

Model Says Actor Burned Her Ankles

SAN FRANCISCO (AP)—A model says actor Gary Merrill burned her ankles with a cigar nine days ago.

Shannon Wolf, 23, sued Merrill, ex-husband of actress Bette Davis, for \$30,000 and said the under-attack on her ankles Feb. 11 was enacted in a "manner in which only savage and sadistic human beings had acted during the history of mankind."

Miss Wolf said she was chatting with friends at 3 a.m. in Mike's Pool Hall, a Bohemian night spot in San Francisco's North Beach area when the actor, whom she hadn't seen before, touched an ankle with a cigar and then repeatedly jabbed both ankles with the burning stogie despite her screams.

Her attorney, Vasilios Choulous, said Merrill finally retreated to another table laughing uproariously.

Merrill couldn't be reached for comment.

Volkswagens Have Several Changes Inside

Heat Exchangers Decrease Time of Heating Interior

Volkswagens for 1963 hold to the company's long-time policy — improve them if you can, but don't change them just to make them look different. That's why the 1963 VWs look so much like their predecessors of more than a dozen years back.

In the sedan, a washable plastic headliner has replaced the fleecy cloth "ceiling." The use of a vinyl plastic now makes the VW sedan's interior fully washable.

Other changes in the VW for 1963 include the addition of added insulation — ½-inch mats of foam rubber — between the steel floor of the car and the rubber floor mats and a redesigned fresh-air heating system.

Heat Exchangers
Basically, the new heating system consists of two large heat exchangers by which fresh air is heated quickly and ducted directly into the passenger compartment. The new method increases the "warm-up" speed of the heater system and also the amount of warm air. Previously, the air used to cool the engine was channeled inside the body, but now the air for heating passes only over the completely sealed heat exchanger system and is not part of the air that cools the engine.

In other changes in the VW heating system, additional insulation was added to the ducts and sliding shutters were added to the rear compartment's heater outlets located near the floor under the rear seat. Similar shutters have been used in the front passenger compartment since 1962.

Larger Window
New for the sunroof sedan this year is a "fold-away" semi-recessed control handle for the sunroof. The rear window on the

Thursday, Feb. 21, 1963 Appleton Post-Crescent B10

Beating Fatal to Milwaukee Man

MILWAUKEE (AP)—A 60-year-old Milwaukee man, one of three victims of a strong-arm robbery Monday night, died Wednesday from the effects of a beating.

Roman Schatzkowski had suffered critical injuries in a scuffle with his assailant, said by police to have been an 18-year-old youth intoxicated from drinking wine.

The youth, Edward Werschowski, has been charged with three counts of robbery, and placed under \$5,000 bond.

Schatzkowski was robbed of \$19, but his companion, Anthony Isapienza, also beaten but less seriously hurt, was robbed of \$508.

A third victim James Doherty, 19, attacked and robbed of \$8 and a pocket watch only five minutes after the first assault, remained in critical condition to day.

The Volkswagen Theory of Evolution.

Can you spot the Volkswagen with the fins? Or the one that's bigger? Or smaller? Or the one with the fancy chrome work?

You can't?

The reason you can't see any revolutionary design changes on our car is simple: there aren't any.

Now, can you spot the Volkswagen with the synchromesh first gear? Or the one with the more efficient heater? How about the one with the anti-sway bar? Or the more powerful engine?

You can't?

The reason you can't see most of our evolutionary changes is because we've made them deep down inside the car.

And that's our theory: never change the Volkswagen for the sake of change, only to make it better.

That's what keeps our car ahead of its time. And never out of style.

Even if you aren't driving the most evolved VW of all.

Our '63.

BEHM MOTORS, INC.

730 East Northland Avenue
Appleton, Wisconsin

BEHM MOTORS, INC.

This Chevrolet Bel-Aire 4-door sedan for 1963 has wide door openings, plenty of head, hip, leg and shoulder room. Beautiful exterior styling with touches of bright trim promises lasting value. Inside there is deep-twist carpeting and vinyl headlining.

Chevrolet Has Model For Every Type Buyer

Offering 33 models in four separate categories—each aimed at a specific segment of the market—the 1963 Chevrolets represent faith in a continued strong national economy.

There are significant styling changes in the regular Chevrolets, a continuation of their unique automotive personalities by the Chevy II and the Corvair, and two entirely new bodies and chassis for the Corvette sports car. All models have significant mechanical improvements.

Taking the four members of the Chevrolet family one at a time:

13 Regular Models

Regular Chevrolets—the traditional big car emphasis upon luxurious transportation is continued in the 1963 regular Chevrolets, offered in 13 models in the Impala, Bel Air and Biscayne series.

There is a sleek, longer look with all new styling. Straight windshield pillars improve access for driver and passengers. The new front grille of anodized aluminum extends the full width of the vehicle, while a depressed center area adds new interest to the broad rear deck lid.

The Impala sport sedan has a fleet, new roofline and an optional vinyl top is available for the Impala sport coupe. Fifteen solid colors and 11 two-tone combinations are available in the regular Chevrolets. Interiors of the cars are entirely new and more luxurious for 1963.

Mechanically, there are the following new features:

- A new six-cylinder 140-horsepower engine, higher in horsepower and yet 23 per cent lighter than its 1962 counterpart, teams with a revised 238 cubic inch V8 and five other V8 engines to offer engines ranging from 140 to 425 horsepower.
- Brakes are self-adjusting, mufflers will have longer life, and the lightweight Powerglide transmission used with the 327 cubic inch engine option in 1962 is exclusive but also wishes to retain the torsion bar.

Auto Lobby Wants Change

Claims Sales Tax Unfair to Dealers In Border Cities

Post-Crescent Madison Bureau

MADISON—The automobile dealer lobby is giving a major push to legislation it claims would remove an unfair discrimination in the state sales tax law against dealers in border communities who sell vehicles to residents of neighboring states.

The Wisconsin Automotive Trades Association explains that the 1961 sales tax intended to exempt non-resident buyers from the three per cent tax levied upon automobiles in Wisconsin, but complains that the requirements to qualify for the exemption are imposing an unfair financial burden upon the seniors.

Need Proof

The Association said the state tax department has refused to accept proof that a purchaser is a legal resident of another state, in allowing a tax exemption, and insists that the dealer actually deliver the vehicle outside Wisconsin and obtain a notarized proof of such delivery in the presence of the buyer.

Such requirements result in "ridiculous situations" and "enormous waste of time and money" for dealers in such border communities as Marinette, LaCrosse, Beloit, Hudson, Superior, Prairie du Chien and others, said the WATA.

Costs More

Louis Milan of the Association told the legislature that the cost in time and money for dealers within the state, including those driving conveniences to which he has become accustomed.

Mechanically, there are a host of improvements, including a completely new chassis, four-wheel independent suspension, self-adjusting brakes, improved steering and Delcotron generator.

Dodge Offers Choice Of 42 Models for '63

Dodge offers automobile buyers a choice of 42 models for 1963, ranging from low-price compact to medium-price luxury cars. There are three separate lines of Dodge passenger cars, each distinctly different in styling, size and price. They are the new, family-size compact Dart; the standard-size, popular-price Dodge; and the luxurious, medium-price Dodge 880 and Custom 880.

Dart Is Longer

The new Dart is built on a 111-inch wheelbase and is seven inches longer than the 1962 Dodge compact. It's offered in nine attractive models, including two convertibles.

The newly styled Dodge, which has a wheelbase of 119 inches, is six inches longer than last year's standard-size models. The Dodge line has 24 models, including two special high-performance Polara V-8's and two models with bucket seats.

Three Series

The Dodge line-up also includes nine medium-price 880 and Custom 880 models. These big, new cars have a 123-inch wheelbase and an over-all length of 17 feet, 9 inches.

The nine Dart models are in three series: 170, 270 and GT. The Dodge also has three series: 330, 440 and Polara. The medium-price Dodge is offered in two series: the deluxe Custom 880 and the lower-priced 880 series.

Dart buyers have a choice of two six-cylinder engines, one with a 170-cubic-inch displacement, the other with 225.

Dodge offers a selection of six engines: a 225-cubic-inch six, a 325-cubic-inch V-8, two 383-cubic-inch V-8's and two 425-cubic-inch V-8's. The 425 engines are special maximum performance powerplants available to a limited number of car enthusiasts.

Buyers of Dodge 880's have a choice of two engines: the standard 361-cubic-inch V-8 with two-barrel carburetor and an optional

The 1963 Dodge line-up provides a choice of 24 standard-size, popular-price models. Sedans, hardtops and convertibles have a 119-inch wheelbase and an over-all length of 17 feet, 4 inches. Pictured above is the deluxe Dodge Polara four-door hardtop.

Four different ways to make going more fun than getting there

You can see why one of America's favorite outdoor sports is driving Chevrolets, with four entirely different kinds of cars like these to choose from. There's the Jet-smooth Chevrolet, about as luxurious as you can go without going overboard in price (has lots of new lower upkeep features, too, like a flush-and-dry rocker panel ventilating system that helps remove rust-causing salt and slush); the new low-cost Chevy II, a good-looking, fun-loving car that would send any family packing; another perennial family favorite, the sporty Corvair, whose rear-engine traction will make you think that ice and snow are kid stuff; and for pure driving adventure, America's only homegrown sports car, Corvette—now in two all-new versions with looks that can stop traffic like a rush-hour blizzard. Chances are you've already picked your favorite. The next thing is to take the wheel at your Chevrolet dealer's. If that doesn't have you thinking of places to go, maybe you'd rather just have a ball around town!

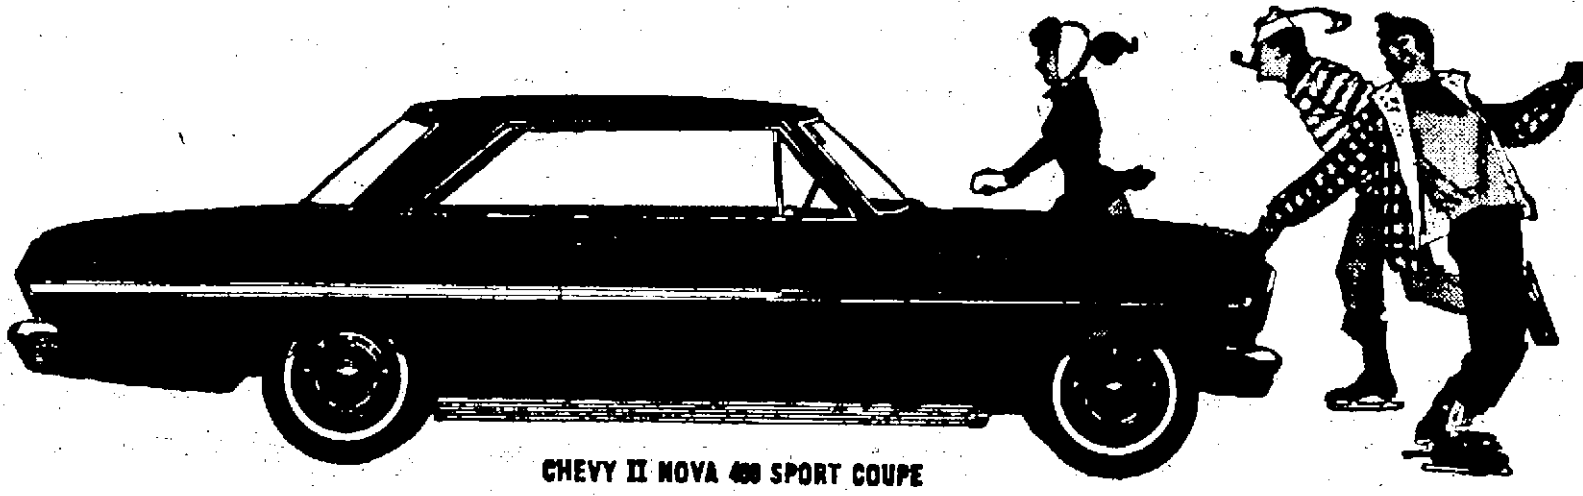

ennial family favorite, the sporty Corvair, whose rear-engine traction will make you think that ice and snow are kid stuff; and for pure driving adventure, America's only homegrown sports car, Corvette—now in two all-new versions with looks that can stop traffic like a rush-hour blizzard. GO FOR THE BIG, STRONG, SILENT TYPE?

TRY THIS ONE

Most people think of Dodge as a medium-price car. Because it has been for many years. Because it's big. Almost 18 ft. long. But in spite of its bigness and tradition, the 1963 Dodge is a low-price automobile. This year, for instance, if you can afford a Chevy, you can afford a Dodge. Understand, we are not talking about a special model. There are 24 models, in 3 series, all in the low-price field, all with a five-year/50,000-mile warranty.

"Four Dodge Dealer's Warranty" against defects in material and workmanship in 1963 cars has been expanded to include parts replacement or repair without charge for the first year or labor for five years or 50,000 miles, whichever comes first; on the engine block, head and internal parts (excluding timing chain); on the front, rear, and intermediate shafts (excluding joints); on the rear axle and differential; and rear wheel bearings—provided the vehicle has been serviced at an authorized dealer according to the Dodge Certified Car Care schedule.

Mardi Gras Pancakes as Prelude to Lent

BY LILLIAN MACKESY

Post-Crescent Food Editor

The days just before lent, particularly Shrove Tuesday, traditionally mark the season for pancakes. In many lands it's the time when the versatile cakes reach beyond the breakfast table and appear at both luncheon and dinner. As a matter of fact, pancakes have been "growing up" all over the world for centuries.

In Germany the large, thick pancake called pffanekuchen is served with sugar, apple puree, preserved fruit or with fried apples in the batter. In Vienna pancakes are made from a slightly richer batter usually made of cream and melted butter. The Russians prefer their blinis, small yeast-raised cakes, unsweetened and served with hot caviar. French pancakes are called fan-kouque after the German pffanekuchen and pannequet from the English pancake. These are small, thin and lightly browned on both sides. The French crepe is the well-known very thin and wrinkled pancake that's rolled around an assortment of fillings... fine minces or purees... then are cut into small rolls.

The pancake recipes offered today are American versions easy to make, yet dressed up enough for a party. Some have interesting batters such as the Rice Pancakes from Creole country. Others feature unusual sauces to make them delicious fare for luncheon, supper or company snacks.

Many cooks prefer making their pancakes from scratch, but there also are many fine pancake and biscuit mixes which give fine results. Using the mixes, of course, cuts the preparation time and makes it

easier on the cook who finds it necessary to whip up a meal in a few minutes.

Some of the recipes suggest pancake mixes, others have batters that must be prepared. Each and every one is an unusual pancake recipe. There's sure to be at least one favorite in this collection.

Austrian Vegetable Pancakes

- 2 cups prepared pancake mix
- 2 1/2 cups milk
- 3 eggs
- 2 tablespoons cooking oil
- 1 can cream of mushroom soup
- 6 tablespoons butter
- 1 pound ground beef
- 2 1/2 cup chopped onion
- 1/2 cup water
- 10-ounce pkg. frozen green peas, partially defrosted, separated
- 1 cup cooked sliced cauliflower
- 1/2 pound mushrooms, sliced
- 1/2 cup sour cream

Combine pancake mix, two cups milk, two eggs and oil; stir until ingredients moistened. Make six pancakes in graduated sizes using a half-cup of pancake batter for largest cake and quarter-cup for smallest size.

Combine remaining three-fourths cup milk and soup; heat. Melt two tablespoons butter in skillet; saute ground beef and chopped onion. Add one-half cup of soup mixture and quarter-cup water to beef and onion, blending well.

Cook peas in as little water as

Turn to Page 4, Col. 1

Having a Mardi Gras party? Here the traditional pancake is served with three different Tabasco-seasoned sauces. The pancake wedges have a delightful chicken-celery-wine sauce. Mushroom-cheese sauce tops the stacks of pancakes and the Pancake-Ham Rolls are served with a delicious ginger-pineapple sauce.

Two Light-as-a-Feather pancakes with a filling of well-browned fresh pork sausage meat and a topping of butter and maple syrup make a wonderful luncheon or supper sandwich. For variation add fruit to the batter, a half cup of well-drained crushed pineapple, frozen or canned blueberries, chopped raw apple, thinly sliced banana. Any of these go well with the sausage filling. Toppings also may vary to include warmed honey, melted currant jelly or a sugar and cinnamon mixture.

This Modern Version of Austrian Vegetable Pancakes has layers of green peas and cauliflower, sauteed mushrooms and a spicy mixture of ground beef tucked between golden brown cakes of varying sizes. Glazed with a sour cream and egg mixture and served piping hot, this is a pancake specialty that's both hearty and delectable.

Apples for Salads Are Abundant

For salad variety at this time of year, look at fruit counter offerings. Red Rome, Jonathan and Winesap apples are plentiful. Delicious apples are coming to markets from Wisconsin, Michigan and Washington.

This is the season to enjoy D'Anjou pears. Anjous are quite green when you buy them; they ripen in a few days to a whitish-green color. You'll also find the russeted Bosc in some markets. Both white and pink grapefruit are plentiful. Bananas are reasonably priced.

Your best grape selection this weekend is Red Emperor. Other fruits to add to your market basket are avocados and coconuts.

Canned fruits to include in your menu plans are water-packed tart cherries, clingstone peaches, fruit cocktail and apple products. Because of last year's large crop, a large supply of canned cherries is available at reasonable prices. Some dessert packs and frozen cherries also are available in fair supply.

Protein Choices

Broilers, stewers and eggs continue to be economical protein choices. If you have a freezer, you might have your meat man saw a large-size turkey into quarters or halves. Use part now and store part in your freezer for meals later in the year.

Best meat buys this weekend include pork chops, loin roasts, Boston butts, bacon and smoked ham. Consider lamb shoulder roasts this week. You'll find good values in ground beef, beef steak, chuck and rump roasts.

Cheese Muffins

Ever add grated cheddar cheese to cornmeal muffin batter? If you want to try this, use a minimum of sugar in the batter.

The Recipe for Rice Pancakes comes from New Orleans where rice is a staple food in all Creole households. There these cakes are served for breakfast throughout the year, but at Mardi Gras time they are featured as a luncheon dish and are served with a creamy cheese sauce and tangy apples slices. Being meatless, Rice Pancakes make an ideal lenten dish.

Mortar Can Be Fixed On Blocks

BY ROGER C. WHITMAN

Q I own a 10-year-old frame duplex. The basement walls are of concrete blocks. The mortar between almost every block got loose and there is a little crack about one-sixty-fourth of an inch wide going up and down, in the mortar. What caused it and what can I do to correct it?

A The mortar could shrink and crack if the concrete blocks were not kept damp while the original mortar work was curing. The dry, surrounding blocks exert a blotting action on the wet mortar.

The loosened, cracked mortar should be scratched out and replaced with fresh, being sure to keep the surrounding blocks damp for a week or so to allow slow, proper curing of the mortar.

Cracked Paint Over Woodwork
Q We painted over our old varnished woodwork with a latex paint. Even though we followed the instructions carefully the paint has cracked badly. What is the best method of removing this latex paint? Could another paint be applied over the cracked surface?

A If the old varnished surface was absolutely clean and the gloss dulled before applying the new paint the cracking is probably due to the surface not having been thoroughly dry when the paint was applied. For best results I don't recommend applying another paint over the cracked surface. To remove the latex paint the easiest method is to use a container

Alumnae and Members of the active Kappa Alpha Theta chapter visited at the Founders Day banquet Monday evening at Alex's Manor House. Seated above are Mrs. Robert Rector, Neenah, alumnae president, Mrs. C. Edward Brandriff, Hinsdale, Ill., the guest of

honor, and Miss Anne Peterson, Minneapolis, Minn., president of the Lawrence College active chapter. Standing are Mrs. Donald Loflin, Neenah, a past alumnae president, and Miss Paula Presba, Barrington, Ill., social chairman of the chapter. (Post-Crescent Photo)

Broiler Sandwiches

BY MARY BETH KUESTER
Home Economist,
Wisconsin Michigan Power Co.

Sandwiches can be something special at your house when served from the broiler.

Hamburgers get a new twist when blue cheese crackers are mixed with ground beef. Shape the burgers like hot dogs, wrap with bacon and broil. Corned beef lovers will appreciate Miss Kuester's Open-Face Reuben Sandwiches. Sauerkraut, Swiss cheese and corned beef, (on pumpernickel or rye), make a tasty broiled sandwich.

When broiling these and other sandwiches, the top of the food should be about five inches from the broiler unit. Remember to leave oven door partly open when broiling.

Hamburger- Hot-Dogs
1/4 cup coarsely crushed blue cheese crackers
1/2 cup milk
1 pound chuck beef, ground
1 small onion, grated (about 2 tablespoons)
1 teaspoon salt
Dash of pepper
8 slices bacon
Soak crackers in milk until

softened. Add beef, onion salt and pepper. Blend thoroughly. Turn mixture out onto wax paper and form into an 8 by 8 inch square. Divide into eight equal portions. Shape each portion into shape of a hot-dog. Wrap each hot-dog with bacon and secure at each end with toothpick.

Place on broiler rack in broiler pan. Broil nine to 10 minutes on first side, or until bacon is done. Turn broil second side three to five minutes or until bacon is done. Recipe makes eight servings.

Open-Face Reuben Sandwiches
8 slices pumpernickel bread
1/2 cup mayonnaise
8 ounces thinly sliced cooked corned beef
2 cups sauerkraut, drained (1-pound can)
2 slices Swiss cheese (cut in fourths)

Place bread slices on cookie sheet. Spread mayonnaise on one side of sliced bread. Lay corned beef slices on top of mayonnaise. Put about one-fourth cup sauerkraut on top each corned beef sandwich. Broil in oven for five minutes. Put cheese on each sandwich. Broil one to two minutes or until cheese bubbles. Serve hot. Recipe makes eight servings.

Founders Day Celebrated by KAT Sorority

Kappa Alpha Theta's Founders Day Banquet took place Monday evening at Alex's Manor House. Approximately 80 members of the Lawrence College Chapter and alumnae members from the Fox Valley area attended the event.

Mrs. C. Edward Brandriff, Hinsdale, Ill., past grand vice president, was guest of honor and speaker. New sorority pledges presented the entertainment, and officers of the active chapter officiated at the Founders Memorial Service.

The sorority was founded in 1870 at Greencastle, Ind. There are now 89 college and university chapters, 60 alumnae chapters and more than 200 alumnae clubs. Mrs. Robert Rector, Neenah is president of the Fox Valley Alumnae Chapter and Miss Anne Peterson, Minneapolis is Minn. heads the Alpha Psi chapter at Lawrence.

Mrs. Alfred Oliver Neenah was chairman of arrangements for the affair. Mrs. Charles Henderson 711 E. John St., will be hostess when the alumnae hold a party for the Lawrence pledges March 30.

Say Vows in Double Ring Nuptial Rite

KAUKAUNA — The Rev. Edward Kilsdonk officiated at the 11 a.m. double ring ceremony Saturday uniting in marriage Miss Karen Hermesen and George Broeren at St. Francis Catholic Church, Tollandtown.

Mr. and Mrs. Joseph Hermesen, route 3, Kaukauna, and Mr. and Mrs. William Broeren, route 1, Greenleaf, are parents of the couple.

Mrs. Sheldon Haase, Kimberly, served as her cousin's matron of honor. Bridesmaids were the bridegroom's sister, Miss Katherine Broeren, and a cousin of the bride, Miss Sharon Leitzke.

The bridegroom's brother, Edward Broeren, acted as best man. Ronald Hermesen, the bride's brother, was groomsmen. Ushering duties were shared by the bride's cousin, Raymond Haase, Kimberly, and a cousin of the bridegroom, Robert Broeren. Van Abel's Restaurant, Hollandtown, was the setting for a dinner, supper, reception and dance.

Pachman Photo

Mrs. Broeren

After a northern honeymoon, the newlyweds will reside in Kaukauna. The bride attended Kaukauna High School. The bridegroom, a graduate of Wrightstown High School, is employed at Thilmany Pulp and Paper Co.

Stracciatella

If soups can be related, this one might be a step-child of Chicken egg drop soup as it contains practically the same ingredients. The recipe calls for a quart of chicken broth. Bring it to a boil over a high heat. Add a cup of fresh spinach, chopped fine. Cook for two minutes and lower the heat. Beat 1 egg with 1 1/2 tablespoons of finely-grated parmesan cheese and stir into the hot broth. Cook for a minute, then serve at once.

Marriage Promises Repeated

MARION — William Lee Bork Jr. claimed Miss Judy Ann Morrison as his bride in a 2:30 p.m. double ring ceremony Saturday at St. John Lutheran Church. The Rev. Fred Ohlrogge officiated.

The bride is the daughter of Mr. and Mrs. Daney Morrison, route 1, Marion. Mr. and Mrs. William Bork, route 1, Marion, are parents of the bridegroom.

Matron of honor was Mrs. Kenneth Much, Waupaca, a sister of the bride. Miss Donna Bork, the bridegroom's sister, and Mrs. Arlyn Bork, Manawa, served as bridesmaids.

Arlyn Bork attended his brother as best man. James Morrison, the bride's brother, and Kenneth Much, Waupaca, acted as groomsmen. Stanley Miller, Big Falls, the bride's cousin, and Jerome Begrow shared ushering duties.

Tigerton Dells was the setting for a dinner, reception and dance. The couple will live in Waupaca.

Mr. and Mrs. Bork attended Marion High School. He is employed at the Waupaca Foundry.

A Pair of First Ladies laughed together Tuesday evening as they posed at the White House. Mrs. Romulo Betancourt, left, wife of the visiting Venezuelan President, attended a black tie dinner, at which the Kennedys were hosts. Standing behind Mrs. Betancourt and Mrs. Kennedy is Mrs. Lyndon B. Johnson, wife of the vice president. (AP Wirephoto)

A Lovelier You

By Mary Sue Miller

At the diaphragm, a little excess weight seems like a lot. This is particularly true when the bony structure of the rib cage is large to begin with. Then an extra ounce appears a pound. But even if the rib cage is small, it will not take kindly to inroads of flesh.

Other than being unattractive of itself, an overpadded diaphragm distorts the silhouette of the bosom and waist—and whether or not those areas are well-proportioned. Should they be in need of trimming, however, the whole topside of the figure would look top-heavy. Topsy turvy!

Consequently, a figure project with top priority is stripping unwanted flesh from the rib cage. The following routines do the job most quickly for the least effort.

- 1 Sit erect on the floor, place the legs together and stiffen the knees, extend the ankles and point the toes forward, reach for the ceiling with the arms and pull in the stomach. Keeping the back straight, touch the fingertips to the toes and immediately return to starting position. Work briskly, but rhythmically. Repeat twenty times.
- 2 Lie on the floor, back down. Draw the knees up until the soles of the feet rest flat on the floor,

Alumnae Club Holds Meeting

Mrs. Thomas Dietrich and Mrs. Harrison Robinson presented the program at the Monday evening meeting of Kappa Delta Alumnae Chapter at the home of Mrs. John Bates, 1624 W. Brewster St.

Members entertained 19 pledges from the chapter at Lawrence College. Miss Lynda Raasch and Miss Judy Thoreson are pledge trainers.

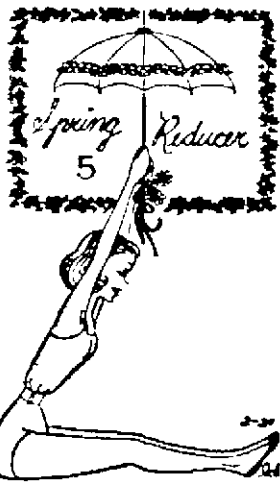

Mrs. William Beson, Mrs. Earl Verkins and Mrs. W. Sloane Culver were named to the nominating committee.

Mrs. George Miotke has been named chairman of the advisory board. Mrs. Al Kneepkins, rush advisor, Mrs. Robinson, scholarship, Mrs. Beson, social, and Mrs. Ben Kluba, finance.

and gently lower the head. Repeat ten times, aiming for increased resistance by the diaphragm to the pressure of the hands.

To solve the riddle of extra inches around your middle, send today for my leaflet, *Midriff Slimmers*. It contains quick, easy reducing exercises for slimming diaphragm, waist and abdomen. Write Mary Sue Miller in care of this newspaper enclosing a stamped, self-addressed envelope and 5 cents in coin to cover handling.

Pancake Recipes For Lenten Meals

CONTINUED FROM PAGE 1

possible; add cooked cauliflower; heat together and keep warm.

Saute mushrooms in remaining two tablespoons butter. Mix sour cream and remaining egg, blending well.

Stack layers of pancakes in a nine- or 10-inch pie pan, placing largest pancake down first. Half the peas and cauliflower mixture tops this pancake. Half the meat mixture goes on top of the second pancake; all the mushrooms go on the third cake; the rest of the meat mixture on the fourth cake, and the rest of the vegetable mixture on the sixth pancake.

Spread the sour cream-egg mixture on top of stack. Heat in 300-degree oven for about 25 min-

utes. Serve with remaining mushroom soup mixture as sauce. Recipe makes four servings.

Chicken-Wine Sautéed Pancakes

2 tablespoons butter
2 tablespoons flour
1½ teaspoons salt
2 cups milk
¼ teaspoon Tabasco
1 egg yolk
½ cup celery, diced
1 cup cooked, diced chicken
¼ cup white wine
12 pancakes

Melt butter in top of double boiler; blend in flour and salt. Add milk and Tabasco sauce slowly, a little at a time, stirring constantly until smooth. Cook over boiling water until sauce is thickened and smooth, stirring constantly. Blend a little of sauce into beaten egg yolk; blend

this mixture into remaining sauce in double boiler. Stir in celery and chicken; blend well, then add wine and keep sauce warm.

Prepare 12 pancakes using favorite recipe, stacking in warm oven until ready to serve. Serve chicken sauce over stacks of six pancakes each. Slice stacks to serve. Recipe makes about three cups of sauce for serving four to six persons.

Ham Pancake Rolls
1 tablespoon cornstarch
1 teaspoon sugar
¼ teaspoon salt
¼ teaspoon ginger
1 can (1-pound, 4 ounces) pineapple chunks
1 tablespoon butter
¼ teaspoon Tabasco
12 pancakes

Combine cornstarch, sugar, salt and ginger in saucepan. Drain pineapple juice into saucepan, stirring mixture to blend. Reserve fruit chunks. Add butter and Tabasco sauce to ingredients in pan; heat sauce to boiling point, stirring constantly. Sauce should become clear. Add pineapple chunks; keep mixture hot until ready to serve.

Prepare 12 pancakes according to favorite recipe; keep warm in oven at low heat until serving time.

Roll one slice of ham with each pancake; place rolls on platter. Pour pineapple sauce over pancake-ham rolls. Recipe makes four to six servings.

Pancakes With Mushroom-Cheese Sauce

¼ cup butter
¼ cup flour
¼ teaspoon salt
¼ teaspoon Tabasco sauce
2 cups milk
1 cup shredded sharp American cheese
1 cup sliced mushrooms, canned or sautéed
12 pancakes

Melt butter in saucepan over low heat. Blend in flour, salt and Tabasco sauce; slowly add milk, stirring constantly to keep smooth. Cook over low heat, stirring constantly, until sauce is smooth and thickened. Add cheese, stirring until melted. Add mushrooms to hot sauce. Keep sauce hot over hot water.

Prepare 12 pancakes using favorite recipe. Pour hot cheese sauce over pancakes in stacks for serving. Recipe makes approximately two and one-half cups of sauce for four to six servings.

Rice Pancakes

1 cup sifted flour
¼ teaspoon salt
2 eggs, beaten
1 cup milk
¼ cup light corn syrup
2 cups cooked rice
½ cup raisins
1/3 cup margarine or corn oil
Sift flour and salt together into mixing bowl. Add eggs, milk and corn syrup; blend until batter is smooth. Mix in cooked rice and raisins.

Melt two tablespoons margarine in large skillet (cooking oil also may be used). Pour in batter for several pancakes, using about one-fourth cup batter for each. Spread rice kernels if necessary. Cook, turning once, until pancakes are golden brown on both sides and edges are crisp.

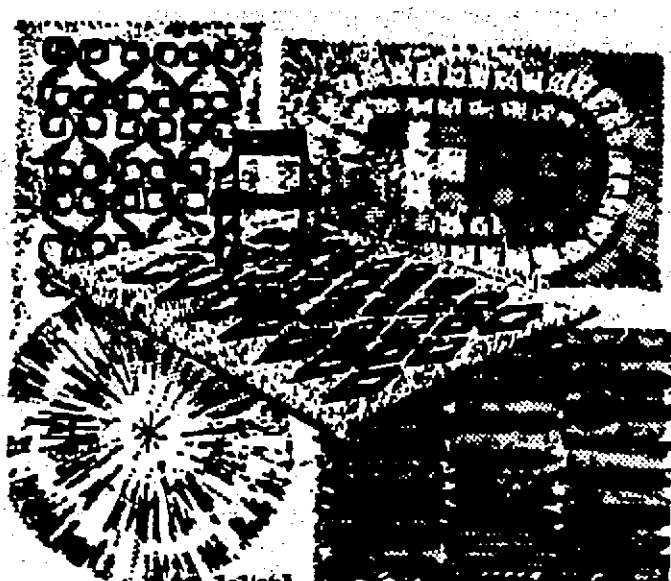

Continue frying pancakes, adding margarine or oil as needed. Recipe makes about 16 pancakes.

Flank Steak

Stuff flank steak with bread dressing, roll and tie. Braise in a tightly covered casserole in a moderate oven for a couple of hours. Make gravy from the drippings.

Designing Woman

BY ELIZABETH HILLYER

Rya Rugs From Scandinavia

BY ELIZABETH HILLYER

Fascinating shaggy rugs, called rya, hang on walls in the Scandinavian countries as often as they lie on floors. As more and more of them are imported, they're beginning to be seen on walls here, too. A weaver in Scandinavia, particularly in Finland, may seek such special qualities for a rya rug that she chooses the wool on the hoof. Sheep provide wools of less uniform characteristics than they do here, and the weaver may look for and find a wanted wool before it's sheared, then spin the rug yarn on an old-fashioned spinning wheel.

The spinning may sometimes be old-fashioned, but design for the rugs isn't, and color is nothing short of wonderful for every one. Typically, Finland's rya rugs combine subtle, very dark and fiery colors, Norway's and Sweden's are sunnier, and Denmark's are brilliant, with more contrasting dark than the second two. Sketched are newest offerings by several importers, all from the Scandinavian countries, but some power-tooled translations of hand-made rugs. Among them are larger than usual sizes, but still plenty that are big picture-size to hang on walls.

The most help you ever had with furnishing and decorating—Elizabeth Hillyer's booklet, "What's Wrong with That Room?" It's a quick check list of room faults that spots the trouble immediately, and starts you off confidently on the road to improvement. Covering 16 big questions, this booklet is actually a short course in practical decorating. This booklet is yours for 15 cents and a stamped, self-addressed envelope sent to Miss Hillyer.

Sheinwold Let Your Partner Help Too

BY ALFRED SHEINWOLD

It goes without saying that you're far better player than your partner, but don't make it too obvious. If you let the poor beast win a trick now and then he will be pathetically grateful.

West, interested in his own tricks rather than in his partner, opened the singleton heart. Declarer put up dummy's ace of hearts, drew trumps, and led a club to dummy's king.

South continued with dummy's queen of clubs, and West ducked again in the hope of embarrassing declarer. South got to his hand by ruffing a heart and led another club toward dummy.

West took the ace of clubs and

got out with a club, hoping to escape the end play but he was not agile enough. Declarer led a diamond from dummy and played the 10 from his hand to make West win the trick.

Now West had nothing but diamonds and had to yield a trick to South's king of diamonds. Declarer thus lost only one club and two diamonds.

West's opening lead would produce a ruffing trick only if East had the ace of hearts or the ace of spades. Otherwise South would surely draw trumps before West could ruff.

West could defeat the contract by thinking of his partner's ruffing tricks. West should open the ace of clubs, give his partner a ruff, get back with the ace of diamonds and give East another club ruff.

The principle to remember is that your partner's tricks count just as much as yours. And just think how much pleasure you bring into his life when you let him defeat an opponent's contract.

Sauce for Veal

Cook chopped onion, celery and green pepper in a little butter and add it to a can of tomato sauce; heat and serve with breaded veal chops.

Don't be fooled...

by claims of "Duras" or "100% Duras" when you buy macaroni. Duras wheat, just like the best you buy, has many grades of quality—with the top grades costing 30% more! I buy nothing but Creamettes macaroni because it's made only from Semolina, the choice grind, milled from No. 1 Hard Amber Duras... the best!

Clintonville Setting for Ceremony

CLINTONVILLE — St. Martin Lutheran Church was the setting Saturday for the marriage of Miss Adaline Pietz, daughter of Mr. and Mrs. Robert Pietz, 56 Wau-paca St., and Marvin L. A. Marotz, son of Mr. and Mrs. Raymond Marotz, 111 15th St.

The double ring ceremony was performed by the Rev. William Christian. The bridegroom's sister, Miss Loretta Marotz, was maid of honor. Bridesmaids were Miss Carol Marotz, another sister of the bridegroom, and Miss Sally Pietz, Marion, the bride's cousin. Leon Pietz, a brother of the bride, attended as best man. Sherwin Beyer, Milwaukee, and James Tesch, Bear Creek, served as groomsmen. Ushering duties were shared by Roger Koeller, Keil, and Donald Harke.

A dinner and reception were

Mrs. M. L. Marotz

held at Fischer's Riviera Grill. The couple was graduated from Clintonville High School. The bride is employed at Four Wheel Drive Corp. The bridegroom is employed at Kuehl's Enterprise Electrician. Mr. and Mrs. Marotz will reside at route 3, Clintonville.

John Bartman To Speak on Fitness Topic

John Bartman will be guest speaker at the C.A.C. Ladies Health Through Physical Fitness Program at 8 p.m. today at St. Joseph School gym. Men as well as

as women have been invited to attend the special program, at which Mrs. Bartman will lead a class of exercises. The group meets each Thursday evening at the school for a session of sports and exercises. Volleyball, badminton, table tennis and horse shoes are played. A bar and trampoline are also available.

Today's Etiquette

BY LOUISE DAVIS

ADDRESSING STEPMOTHER:

Dear Louise: I am very fond of my brand new stepmother and I am sure she is equally fond of me. She and father, along with my husband and me, are driving to another city where we will be seeing friends. What do I say when introducing father's wife? I don't like the word stepmother people with top priority.

Davis

and I can't say mother.

Louise Davis Answers:

I suggest that you use the word stepmother anyway. It is the manner in which you say it that counts. It can be friendly and affectionate with a smile and with an inflection in your voice that is convincing. How could such an introduction offend anyone? I can understand why you don't wish to say mother and if you can use the phrase, "My father's wife" it might indicate remoteness, even a little resentment or animosity.

TOP PRIORITY GUESTS:

Dear Louise: We, the uncle and aunt of the bride, are giving the rehearsal dinner and are inviting all the out of town guests. Is it required that we invite the bridegroom's parents. Louise Davis Answers: Yes. They are very important.

Thursday, Feb. 21, 1963 Appleton Post-Crescent C5

Excellent Topping

For an extra-good topping for your favorite apple dessert or pie, sift together one and one-half cups sifted enriched self-rising flour, one-half cup sugar and one teaspoon cinnamon. Thoroughly mix in one slightly beaten egg and stir in one cup shredded cheddar cheese. Sprinkle topping over your

apple filling and pour one-half cup melted butter or margarine over all before baking.

Thicken Sauce

When you are making a dessert sauce thickened with cornstarch, be sure to mix the starch with the sugar before adding the liquid. Sprinkle topping over your

Rich Yeast Batter in Pearadise Coffee Cake

This breakfast coffee cake brings even the Johnny-come-latelys to the table on time, for it features canned pears in a cinnamon crispy topping. The easy beaten batter is rich with all the flavor so characteristic of a yeast bread.

The rich levulose sugars in pears give them high energy values, and at the same time canned pears are relatively low in calories. For a quick mid-day snack, nothing could be as simple as opening a can of pears.

Canned pears have amazing versatility. They are good for desserts, salads and as meat accompaniments.

- Pearadise Coffee Cake**
- 1 can (1 pound) Bartlett pear halves
 - 1/2 cup milk
 - 1/2 cup sugar
 - 1/2 teaspoon salt
 - 2 tablespoons butter
 - 1 package yeast, active dry or compressed
 - 1/2 cup warm water

ALL ABOUT FOOD
By Tested Recipe Institute

GET ACQUAINTED WITH WATER CRESS

Water cress was first cultivated in the 16th century but its popularity dates back more than 2000 years.

Use the tender leaves and stems as an ingredient in salads, soups, sandwiches and as a garnish.

Does parsley have any food value?

CZ, Columbus, Ohio

Yes, parsley is high in vitamin A; so is water cress. These greens should be used for eating as well as for garnishing.

Your Problems

Dimples Not Gifts; Some Are Product of Plastic Surgeons

BY ANN LANDERS

DEAR ANN LANDERS: You recently said in your column you have never heard of dimples being produced surgically and that you got yours for a birthday present.

Well, yours may have been a gift but some women have to pay for theirs.

The Orientals consider the dimple a symbol of good luck. The poets of ancient China frequently associated this anatomical endowment with a pretty and happy face. The dimpled wife, they believe, brought contentment and good fortune to the family.

Many Malayan Chinese women insist that plastic surgeons create dimples in their faces. It has been done with considerable success.

I volunteer this information because I know you want to give your readers correct advice.

Dear Singapore: Thank you

Women Seeking Blood Donors

SHERWOOD — 75 blood donors are being solicited from the Town of Harrison by Mrs. Clarence Mueller and Mrs. Delmar Wittman for the Calumet County Bloodmobile visit March 20 at Brillion High School.

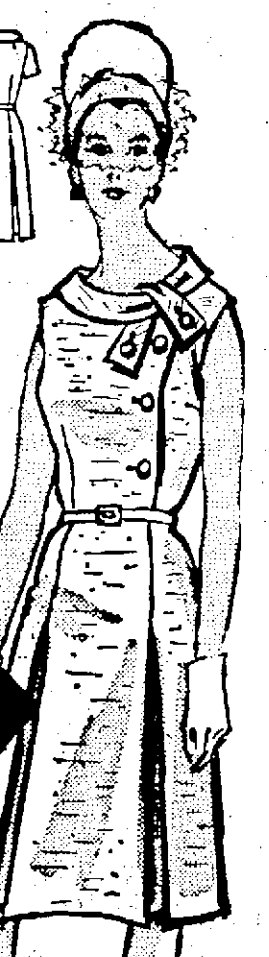

Pledges must be sent to the Red Cross Chairman, Mrs. William Stauss, Chilton, by March 10.

The solicitors said they have difficulty securing enough donors because of the outlying territory of the township, and because it borders on Winnebago and Outagamie counties.

Onion Flavor

An onion-flavored white sauce is delicious over green peas or snap beans. Just cook the onion in the butter or margarine to be used in the sauce before stirring in the flour and milk.

THE EASIEST-TO-USE AUTOMATIC WASHER!

NEW **NORGE**

Touch 'n Wash

BACKED BY 2 YEAR SERVICE WARRANTY

The newest touch in automatic washing!

One touch of your finger gives you perfect washing for practically every load. And, for your delicate or lightly soiled fabrics, a finger flick pre-selects correct washing speed and water temperature—then one touch does it again. All washing is simplified. There are no complicated dials to set. Just Touch 'n Wash.

BACKED BY FULL 2-YEAR WARRANTY

Offered by Norge dealer to original owner of Norge Automatic Washer. Provides labor and repair or replacement of functional parts required to maintain machine in normal operating condition, except when damage is due to misuse, accident or work by unauthorized persons. A nominal charge is made by dealer for second year's protection.

Model No. 232-390

AND YOU GET THESE TOP QUALITY NORGE CONVENIENCE FEATURES

- 2-speed wash-spin flexibility
- 3-temp. water selection
- Family size wash tub for better washing results
- Line-filter Agitator gets clothes cleaner
- 5 Fresh Water Rinses — complete detergent and soil removal
- Super-spin Dry gives better extraction without tangling

Staging Wins Praise In Sartre's 'Flies'

BY JAY JOELYN
Post-Crescent Staff Writer

Don't be fooled... by claims of "Durum" or "100% Durum" when you buy macaroni. Durum wheat, just like the beef you buy, has many grades of quality—with the top grades costing 30% more! I buy nothing but Creamettes macaroni because it's made only from Semolina, the choice grind, milled from No. 1 Hard Amber Durum... the best!

Wednesday night's opening audience brought the cast back for numerous curtain calls; but, perhaps, the biggest stars of the evening weren't seen on the stage. Taking nothing away from the actors, the thing that marked the evening was the directorial crew's use of the stage: the most successfully imaginative use the stage has seen in its short life. Joseph Hoptensperger devised an impressive unit set of risers that gave added scope to the playing area which even included the orchestra pit and aisles.

Set Brilliant
Setting off this set were the brilliant, special cyclorama effects executed by Karon Ellgroth. She used the backdrop as a canvas to create the burning impression of searing sunlight and, with the aid of a projectionist, the very heart of the swirling universe. Mrs. Trudi Dubsky Zipper's considerable skill and talent as a choreographer moved the mob and the Furies in ritualistic patterns that raised their episodes to the ultimate of dramatic effect. Original music was composed and directed by Alfred Lerdahl. However, the technique of piping the sound rather than producing

it in person hampered its appreciation. The opening night audience's restlessness would not, it is assumed, have competed with the instrumental conversation of the musicians had been on the scene.

Above all, of course, is the major director David Mayer, who set the course and tone through which the integrity of his fellow directors and his cast flowed. The play is a retelling of the Electra legend written by Sartre and produced in Occupied France during World War II. The history of its original production adds to its symbolism and colors it with the courageous call for free men to shake off the shackles of tyranny. It is a talk piece and the Lawrence actors gain added credit for being able to sustain the excitement through the heavy lines.

Appropriately, Stephen Jolin in the role of Zeus wins top kudos with his portrayal of an Olympian con man and pompous poser. Jolin's Zeus is the best thing he's done on Fox Cities stages. Orestes, Zeus' earthenly antagonist, is limned with fine shading by Philip Allen while Virginia Allen makes Electra an appealing characterization of vacillation. Miss Allen also adds to the beauty of the production with a graceful dance. Once again Whitney Dodge displays his flair for comedy as Orestes' tutor and Jonathan LaFarge and Betty Jane Bradford achieve complete control of the roles of the remorse-filled Aegisthus and Clytemnestra.

The young ladies of the title role in their all too brief appearance prove commendably fearless as well as eye-filling. It would be remiss to pass over one other stage effect—the explosive response to Zeus' miracles. They too marked the evening well.

There is something for everyone

3 Sentenced As Delinquents

Police Had Taken Juveniles Into Custody After Party

Three juveniles who participated in a beer party in January at 720 N. Clark St. where an 18-year-old youth lived alone were declared delinquent after juvenile hearings in Outagamie County Court, Branch 3 Wednesday. One of the juveniles, a 16-year-old boy, was placed under supervision of the county welfare department. Another 16-year-old boy was placed under supervision of the county welfare department temporarily until a report on his background is completed. A 15-year-old junior high school girl who said she is pregnant will be sent to Oregon School for Girls under supervision of the state department of public welfare.

A fourth boy, 14, was ordered to seek guidance from a church agency. He was not declared delinquent.

The four were taken into custody Jan. 10 by Appleton police who were investigating a complaint that two 15-year-old girls had run away. Acting on a tip that at least one of the girls was at the Clark Street home, police went to the home and found the girls and two of the boys.

Later, police returned to the home and found the 14-year-old. The youths had all participated in a beer party the night before. Police described the house as "quite a mess." The refrigerator was stocked with several dozen cans of beer. There was no food. Trash, bottles and cans were scattered throughout the house. The walls were covered with names written in lipstick and crayon. Police said the home has been padlocked. The owner lives in Minnesota. The 18-year-old youth who lived there is serving a six-month term in the Outagamie County jail for buying beer and giving it to minors.

Laird Wanted U.S. Projects For Madison

Republican Objects To Research Labs Being Put Elsewhere

Post-Crescent Washington Bureau
WASHINGTON — The Kennedy administration has dealt Wisconsin a severe blow by refusing to recommend Madison as the site for three major research projects, Rep. Melvin R. Laird, R., Marshfield, charged today.

A member of the Health, Education and Welfare Appropriations Subcommittee Laird said first that HEW Secretary Anthony J. Celebrezze had sent the recommendation to his appropriations group that a mammoth water pollution project, much sought after by the University of Wisconsin, be located in Michigan.

The second blow, according to Laird, came when the administration again requested that the National Environmental Health Laboratory be located in Washington, D.C. He recalled that last year his subcommittee deleted this item because it did not believe the laboratory should be located in the nation's capital.

Third Blow
The third blow dealt Wisconsin, the Marshfield legislator said, was the elimination in the budget of a request for funds to construct a \$10 million forest products utilization laboratory, which had been slated to go to Madison.

Laird said he would ask Celebrezze to justify the administration's designation of Washington, D.C. as the site for the environmental Health Laboratory, in view of the recommendations by a group of independent scientists called the "situation visitation committee" that the laboratory be placed in Madison.

Laird last week requested the Interior Appropriations Subcommittee to approve \$4 million to commence construction on expansion of the Forest Products Laboratory. Usually well informed, sources

Sherwood Bar Owner Fined \$40 In Calumet Court

CHILTON — Sherwood Bar and bowling alley proprietor Walter Michels was fined \$40 by Judge D. H. Sebor in Calumet County Court Wednesday after Michels pleaded guilty of remaining open after hours.

Michels had pleaded innocent of the offense when he was first arraigned in court and requested a trial. He was arrested Jan. 1, New Year's Day, by Sheriff C. J. Kosmosky.

Although more liberal closing hours apply to taverns on that day—they are allowed to remain open until 3 a.m.—Michels was charged with remaining open until 5:47 a.m.

Woman Bruised In 2-Car Mishap

KIMBERLY — Mrs. Patrick Landerman, 21, 407 1/2 Railroad St., Kimberly, suffered a bruised head and arm when the car in which she was a passenger collided with a car driven by Mrs. Kenneth Van Dyke, 3354 E. Wisconsin Road, Appleton, about 7:45 a.m. Wednesday.

According to village police, Mrs. Landerman was in a car driven by her husband, 24. It was traveling east on W. Third Street. Mrs. Van Dyke was driving south on S. Sidney. Over \$850 damage was reported to the cars. There are no traffic controls at the intersection.

About \$400 damage resulted to three cars at the 200 block of S. Maple Street about 11 p.m. Tuesday. A car driven by Geno Frassetto, 59, 110 Second St., Kimberly, was traveling south on Maple and struck a legally parked car owned by Anthony J. Wynyard, 44, 111 W. Thirteenth St., Kaukauna, pushing it into another legally parked car owned by Joseph Wynyard, 70, 215 E. Third St., Kimberly.

Big Treat in Store for Fox Cities Music Lovers

King's Daughters Circle Sponsoring
Kansas City Symphony Concert March 13

BY JINGO

Mt. Everest is a term that needs no other expansion for full meaning. It's the tops. The Friendship 7 holds a world of meaning in its few characters.

The equivalent term in the music world is "symphony," the ultimate for composer, musician and listener.

On March 13, the Fox Cities will observe the 15th anniversary of the first visit to the area of a major symphonic orchestra. The occasion will be marked appropriately. The Kansas City Symphony will take the stage at Appleton High School under the sponsorship of the Benefit Circle of King's Daughters.

It was the King's Daughters — or rather a handful of them — who broke the symphonic ice back in 1948 when they contracted for the great Chicago Symphony. The conductor at the time was Tanno Hannikainen.

The superb treat was repeated through Iowa, Illinois, Missouri and Kansas as well as Wisconsin. The tour will touch 15 cities.

Next year, the orchestra will tour 6,000 miles to the West Coast for performances at 25 cities in 29 days.

Hans Schwieger is the orchestra's third conductor. He's been on the Kansas City podium for 15 years and is credited with bringing the orchestra to top rank in the nation.

The program will include three favorites and a new piece getting its first Fox Cities performance. It is a dance overture composed by Creston on commission by the St. Louis Symphony.

The rest of the program consists of Strauss' tone poem "Death and Transfiguration," Wagner's Prelude from "Die Meistersinger" and Brahms' First Symphony.

There's a program that spells the ultimate in enjoyment. Mark your calendar carefully on your calendar. The trip ends on your calendar. The trip ends on your calendar. The trip ends on your calendar.

As historic as its appearance at AHS will be for the Fox Cities, the trip north will be equally historic for the symphony. The 30-year-old organization is making its first extended tour. The trip ends on your calendar. The trip ends on your calendar. The trip ends on your calendar.

That will bring the Kansas City missing this treat. You can bet Symphony here will carry it Jingo won't.

Jingo

Elaine Malbin Plays Lill in the Broadway musical hit, "Carnival," coming to the Appleton High School stage Wednesday, Feb. 27. The Variety Theater stage show is being sponsored by Appleton Gallery of Arts. Curtain time is 8:15 p.m.

Bernstein Again Airs Japan Show

7-8 (Channel 2)—Leonard Bernstein and the New York Philharmonic in Japan, a repeat, worth seeing again, is about halfway between a concert and a travelogue. There are three concert pieces filmed when the orchestra toured Japan in the spring of '61. Most fascinating, however, is Bernstein's discussion of Japanese music and, through the cooperation of "Gagaku" musicians, his demonstration of how the Japanese instruments sound.

7:30-8:30 (Channel 4-5)—There's a small mishap at Blair General Hospital, and John Larch, a physician, is faced with the chief witness to this accident, but Larch urges him to keep quiet about it. It seems he's about to go on a long-delayed honeymoon, and would like to see Niagara Falls before his sight vanishes. But along comes Irene Dailey, who needs his professional help, and Larch is faced with a dilemma—the vacation or the operation.

8-9 (Channel 2)—Twilight Zone centers around a shy, retiring man (Robert Duvall) who falls in love with a doll. The doll, a four-inch model, is part of a museum exhibit of an 1890s home. When ever he visits his lady love, Duvall sees her in action playing a spinet, running from a villainous intruder, petting her dog. Nobody else, of course, sees the figure move, but nothing will convince Duvall—not even psychiatry.

8:30-9 (Channel 11)—More fun on McHale's Navy. The native

chief's portly daughter gets a crush on Ensign Parker (Tim Conway) and it looks like either wedding bells or curtains for Conway.

9-10 (Channel 11)—For the fourth straight week, Premiere has a pilot for another series. This one would star Ralph Bellamy and Bradford Dillman, as the head of a research institute, with Dillman as the bright but hard-to-control young genius. In this show, a distinguished scientist comes visiting and Dillman cracks up a car in which the older man is riding. Some other complications make Dillman a very unpopular figure.

9-10 (Channel 2)—The Nurses' plot was concocted to show off Zina Bethune's dancing ability. In this story, she is torn between her love of nursing and her love of dancing. The latter interest is buttressed when she is accepted as a pupil by a great teacher, played by Lili Darvas.

9-10 (Channel 4-5)—The staff of The Andy Williams Show consider this one their best variety program. And it is fun. Carol Channing and Fred MacMurray contribute most of the variety. They do an old vaudeville show, with dancing and MacMurray's saxophone and Carol's one-line gags. (Color)

10:10-12 (Channel 4-5)—Tonight's guests are Wally Cox, Don Ameche, Lon Rawls and Mindy Carson. (Color)

IT JUST DIDN'T FIGURE...
that they would...that they could...that they did!

JERRY...a strange and wonderful guy, lonesome to his toes, Omaha to his teeth, and quite a man on the way down. Yet he couldn't find himself until he found the girl...an off-beatnik from Greenwich Village.

This is his story...with a gal, a gamin, named Gittel. It's an off-beat love-and-laughter story with a heartbeat all its own. On the Broadway stage, it was a big hit—and it broke 'em up! On the screen, it becomes a very great-in-a-very-special-way motion picture.

GITTEL...a gal, a gamin. She wasn't glamorous, she wasn't rich, she wasn't sexy, she wasn't chic. But she was... Gittel. And nobody in the whole world made talk, made love, made laughter, or made a man happy...quite the way she did.

This is her story...with a wonderful guy named Jerry. It's the first picture by director Robert Wise since his ten academy award winning West Side Story...and it adds a new dimension of intimacy to the screen.

Warriors Accept NIT Bid, Shade Louisville, 77 to 76

Nixon Scores 6 of Final 9 Points to Spark Victory

LOUISVILLE (AP) — Marquette's basketball Warriors rallied under Capt. Dick Nixon's leadership for a 77-76 victory over Louisville Wednesday night in celebration of a bid to the National Invitation Tournament.

Mays Becomes Highest Paid In Game Today

Willie Signs for Around \$100,000, Giants Announce

PHOENIX, Ariz. (AP)—Willie Mays, the Say Hey veteran of the San Francisco Giants, has said hello to a \$100,000 salary for the 1963 baseball season.

Charles (Chub) Feeney, vice president of the National League champions, made the announcement in San Francisco Wednesday that made Mays unquestionably the highest paid performer in the game.

Feeney didn't disclose terms of the new contract, but it was reliably reported that the 31-year-old center fielder would draw in the neighborhood of \$100,000-\$110,000.

Mays thus joins an exclusive

Lourdes '5' Beats St. Gregory, Plays Zephyrs Saturday

BY RALPH MUELLER

Post-Crescent Staff Writer

Oshkosh Lourdes scored the first nine points and walked into the semi-finals of the Xavier WCIAA (Region Five) Regional Basketball Tournament with an easy 73-31 victory over St. Gregory, of

St. Nazianz, here Wednesday night.

Lourdes tangled with Menasha St. Mary at 7 p. m. Saturday with the Xavier-Fond du Lac St. Mary Springs clash immediately following at approximately 8:45 p. m. The championship tilt is slated for 7 p. m. Sunday.

The Oshkosh team ballooned the 9-0 advantage to 15-4 at the end of the first eight minutes. St. Gregory was held scoreless from the field in the first period, missing on 11 shots.

They finally broke the net with 7:35 of the second quarter remaining on Mike Augustine's shot. Mike immediately followed with another bucket and Jim Steffera hit from the side to close the margin to 17-10.

The St. Nazianz Knights were still in the game, at 23-14, before baskets by Mike Murphy, Tom Baum, and Chuck Grable ran the count to 20-14. After Paul Scherl hit a free toss for St. Gregory, Lourdes tallied four straight charity tosses (two by Grable and another pair by Baum) to increase the gap to 33-15. Baum tallied a two-pointer before the halftime buzzer to make the count 35-17, Lourdes.

The third period found Lourdes outscoring St. Gregory, 19-7, with Joe Suda leading the Oshkosh Knights with four swishers in four attempts.

Oshkosh duplicated the 19-7 scoring pace in the final period with Tim Purcell leading the way with three field goals.

Suda and Baum capped game point honors for Lourdes with 12 points each. Mike Augustine and Ed Twoght tallied nine points apiece to lead St. Gregory.

Lourdes hit at a 41.6 per cent pace with 27 baskets on 65 shots. The red-clad Knights had one of their better nights from the free throw line as they converted 19 of 23 tosses into points.

St. Gregory rung 11 of 48 tosses from the field, for a 22.9 per cent mark. The blue Knights could sink only nine of 23 free throw attempts.

Both teams were hot in the second quarter with Lourdes heating up to eight buckets on 13 shots and St. Gregory firing in five of 11 floor attempts.

Kimberly Rises To 11th Place In Cage Ratings

Milwaukee North Still Leads; GBW Fourth

MADISON (AP) — Undefeated Milwaukee North remained atop the Big Sixteen while Frederic jumped from fourth to first in the Little Sixteen in the weekly basketball ratings announced Wednesday by the Wisconsin Interscholastic Athletic Association.

North extended its winning streak to 17 games with victories over Milwaukee West and Milwaukee East, while Frederic pushed its unbeaten string in moving to the top in the small school rankings.

Waterloo, last week's Little Sixteen leader, dropped to third after a 67-58 upset by DeForest. Waterloo's defeat left only North, Frederic and Weyerhaeuser in the unbeaten ranks. Weyerhaeuser ended its regular season with an 18-0 record and a seventh place rating in the Little Sixteen.

The ratings, with won-lost records:

Big 16

1, Milwaukee North 17-0 2, Superior Central 15-2 3, Watertown 14-1 4, Green Bay West 15-2 5, Eau Claire Memorial 15-2 6, Baraboo 14-2 7, Manitowish 13-3 8, Antigo 14-2 9, Whitefish Bay 13-2 10, Racine Park 14-3 11, Kimberly 14-3 12, La Crosse Central 13-5 13, Barron 16-1 Keweenaw 16-1 15, Waukesha 11-5 16, Wausau 13-4

Little 16

1, Frederic 16-0 2, Shell Lake 16-1 3, Waterloo 17-1 4, Gale-Ettrick 16-1 5, Hillsboro 17-1 6, Wautoma 15-1 7, Weyerhaeuser 18-0 8, East Troy 14-3 9, Lena 16-1 10, Barneveld 15-1 11, Thorp 16-2 12, Grafton 15-2 13, Reedsville 15-2 14, Drummond 16-2 15, Rio 16-1 16, DeForest 15-3

Neenah (14-3) and Shawano (12-5) are accorded special mention among high schools Hilbert (15-2) is given special mention among small schools.

French Basketball Spectators Banished

PARIS (AP)—Officials of the French Basketball Federation have found a foolproof method of controlling spectators at basketball games. They eliminated them.

When Charleville beat Bagnollet 74-73 recently, the players and officials were booed and threatened by an unruly crowd. As a result, the federation ordered Charleville, the home team, to play its next four games in private.

points, including a clutch field goal that broke a tie and a free throw with nine seconds to play. Nixon scored only four points in the first half and Marquette trailed 41-39. However, he found the range after the intermission and finished with 18 points, one more than teammate Dave Erickson, who was held scoreless in the final 20 minutes.

The lead was exchanged six times and the score tied on seven occasions in the second half before Nixon put Marquette in front to stay with a field goal that made the count 70-68 with 3:44 remaining.

The victory was Marquette's 14th against seven defeats and assured Coach Eddie Hickey of his fifth straight winning season. The Warriors have five games left on the regular schedule.

Earlier Wednesday, Marquette accepted an invitation to the NIT opening March 14 at Madison Square Garden in New York. It will mark the Warriors' fifth appearance in post-season competition.

"This is particularly gratifying to the boys because they've played particularly hard this year," Hickey said.

Chuters Will Launch Tourney Play Friday Against Premontre

Pennings Duels Marinette '5' In First Game

BY JIM HARP

Post-Crescent Staff Writer

LITTLE CHUTE — Ordinarily, four consecutive losses by a combined total of 102 points would be a cause for any basketball coach to be very disheartened. Not so with Coach Bill Fitzpatrick of the St. John High School Dutchmen.

Fitzpatrick is brimming with pride over his cagers late-season comeback which, although it did not result in a string of victories, showed that the Dutchmen are capable of solid performances.

"Maybe Friday night things will click and we'll be able to stand up and speak our piece," the veteran Chuter mentor said.

Final Sunday

Fitzpatrick was referring to the Green Bay Catholic Regional Tournament in which St. John's opens play Friday night. In the first game, Abbot Pennings of De Pere will clash with Marinette Central at 7 p. m., and the Chuters face host Premontre in the 8:30 p. m. tilt. The two winners meet in the finale at 7:30 p. m. Sunday.

In the last five conference games of the season the Dutchmen came up with a win over Marinette and then lost successive heart-breakers to St. Mary's Menasha, Premontre, Lourdes Oshkosh and St. Mary Springs of Fond du Lac.

Premontre and St. Mary of Menasha finished as runnerup to undefeated Xavier in the league race while Springs was fourth with a 4-6 league mark. The Chuters lost to the Zephyrs by three points and Premontre and Springs by two each. The loss to Lourdes, by five points, was a bitter pill to swallow since St. John had beaten the Knights once during the regular season and had a comfortable lead going into the final quarter.

St. John finished with a 2-12 conference record and 3-15 mark overall. Premontre was 10-4 in the league and a pair of non-conference victories came against a tough Preble team.

Sixth Starter

Five regulars and a six "starter" have been carrying the brunt of the load for the Chuters. In the usual starting roles have been Bill Jansen and Dennis Diederik at guards, Gib Hietpas at center

7 OSC Students Claim They Hiked 73 Miles

STEVENS POINT (AP)—Five Oshkosh State students attended the Oshkosh-Stevens Point basketball game Wednesday night after claiming they had walked 73 miles from their fraternity house in about 26 hours and 15 minutes.

The students arrived in Stevens Point in mid-afternoon and immediately went to a beer tavern where they said they felt good—"but not good enough to go dancing." They intended to hitch a ride back to Oshkosh.

The youths identified themselves as Dick Hendrickson, 21, of Waupaca; Russ Sernaw, 21, of Junction City; Ross Koester, 22, of Two Rivers; Larry Miltz, 22, of Oshkosh; and Mike Reinsch, 21, of Ripon.

They said another student, Ed Stodola of Denmark, started the hike from Oshkosh, but had to drop out in Waupaca County late Tuesday night because of blistered feet.

Nebraska Cage Coach Resigns

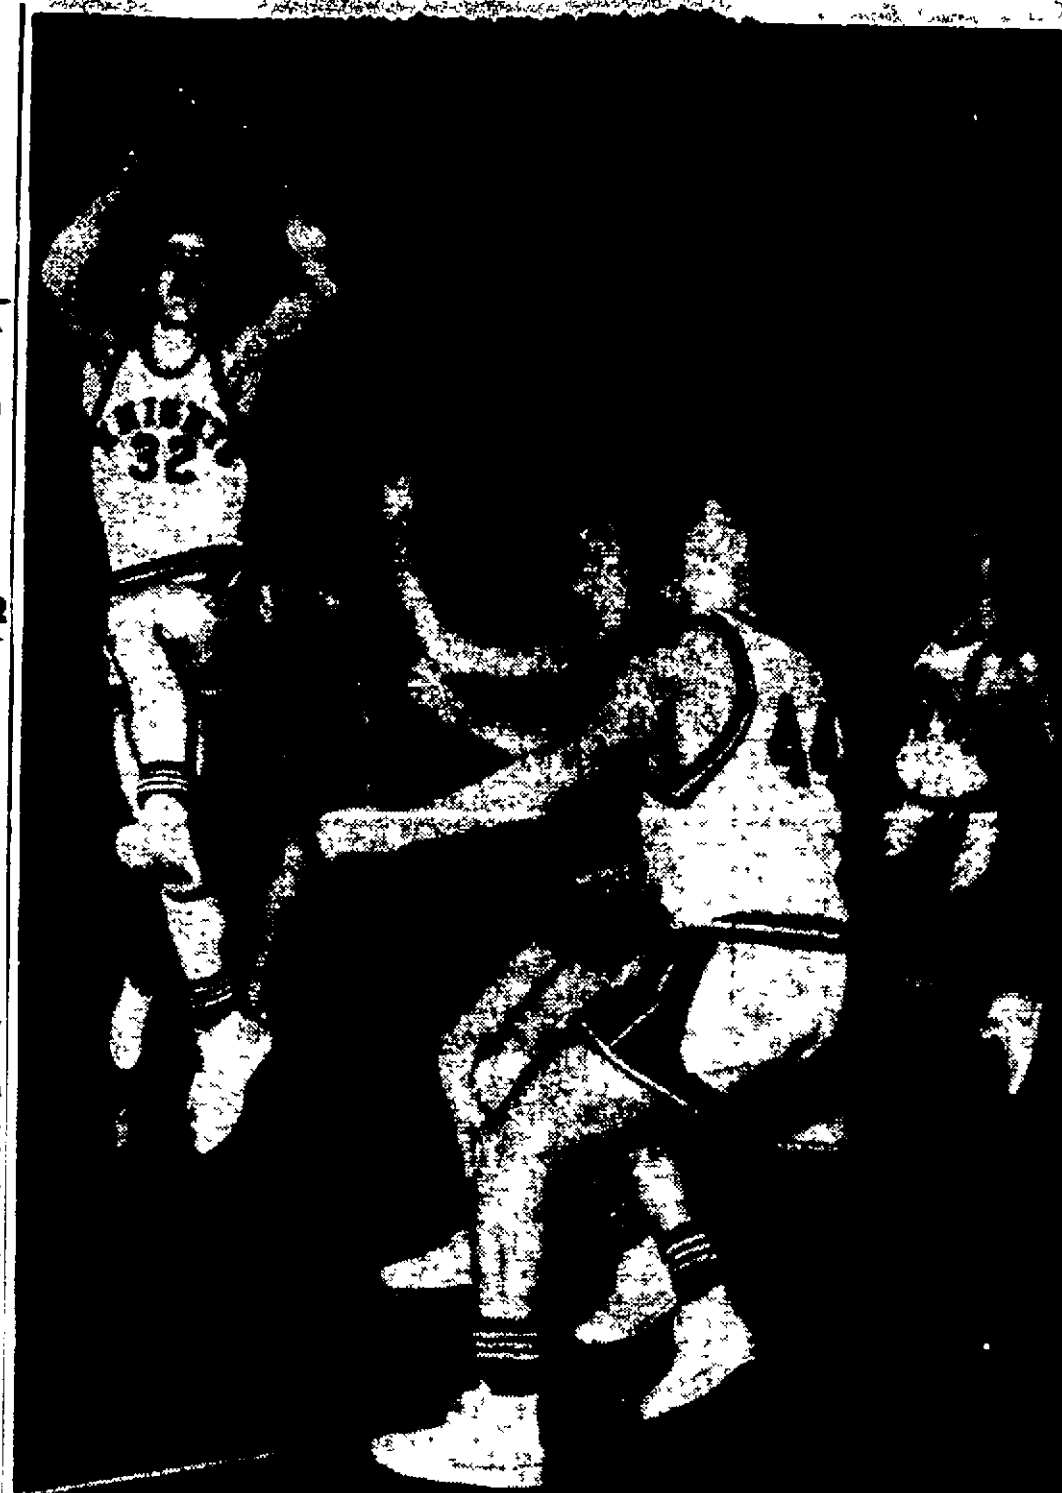

LINCOLN, Neb. (AP) — Jerry Bush resigned Wednesday as University of Nebraska basketball coach. His resignation is effective July 1.

Athletic Director Tippy Dye said a search would begin immediately for a successor to Bush. Dye said, "We are sorry to lose Jerry, who has made a fine contribution to our community and has made many friends."

Post-Crescent Sports Editor

Appleton High School's first-division aspirations will be squarely on the line in the Fox River Valley Conference finale here Friday night.

The Terrors, currently sharing fourth place with Oshkosh, take on a Fond du Lac quiet, which is more dangerous than its 3-10 league record suggests.

A first-division finish and a 7-7 conference mark would be an admirable achievement for the Terrors, who went to the post with the youngest starting lineup in the circuit. Last season, the Terrors finished sixth — for one of the rare second-division showings in Dick Emanuel's coaching career.

Most Improved

AHS could claim a share of third place with a victory — providing Sheboygan South is upset.

Hugh McElhenny Will Undergo Knee Surgery

ST. PAUL-MINNEAPOLIS (AP) — Hugh McElhenny, Minnesota Vikings halfback, will undergo surgery, probably next week, for removal of cartilage accumulation from his left knee.

Vikings headquarters said Wednesday the veteran National Football League player is submitting to surgery as soon as possible to have time for recovery before next season's training starts.

McElhenny said earlier that the coming season would be his last as a player. He suffered rib cage injuries last season and missed several games. He was used sparingly in late season at fullback.

Titans Catch Fire, Defeat Stevens Point

Over 3,000 See OSC Win, 70-57; Take League Lead

STEVENS POINT — Oshkosh State caught fire in the second half and moved into first place in the Wisconsin State College Basketball Conference with a 70-57 victory over Stevens Point here Wednesday night before an overflow crowd of better than 3,000.

The Titans, trailing 35-28 at halftime, hit 53 per cent of their field goals in the second half to win going away. It was the ninth victory in 10 league games for the Titans and dropped the Pointers to second place with a 9-3 record. OSC winds up conference activity next week by entertaining University of Wisconsin - Milwaukee Monday night and traveling to Whitewater Saturday.

The first 10 minutes of the game saw the teams hooked up in a saw-saw battle with the lead changing hands frequently. Jack Uwell, former Appleton High star, hit a pair of buckets to push Stevens Point into the lead and the Pointers kept a four to eight-point lead the rest of the way. At the intermission it was 35-28 with Stevens Point leading.

OSC had a meager 29 per cent shooting average in the first half but caught fire just after second half play started. The Titans held the Pointers to two markers in the first five minutes of action while going in front by two themselves.

Jim Jaeger, Dean Austin and Al Schmidt paced the Titan second half attack. Jerry Peterson and Mike Dieters did an outstanding job on the boards when Schmidt and Ron Lindemann got into foul trouble for Oshkosh.

Austin was the leading scorer for OSC with 26 points while Jaeger was close behind with 25. Dick Ritzenthaler paced the Pointers with 16, and Uwell added 15.

St. Bonaventure '5' Replaces Canisius In Catholic Tourney

LOUISVILLE, Ky. (AP) — St. Bonaventure has replaced Canisius in the National Catholic College Championship basketball tournament, scheduled here March 8-9.

Canisius withdrew from the tournament to accept an invitation to the National Invitation Tournament in New York.

The field now includes St. Joseph, Pa., Creighton and Regis. If St. Joseph wins an NCAA tournament berth by defeating La Salle Saturday, Niagara is being considered as a replacement.

Chisox Buy 62 Acres For Summer Camp

Lake Winnebago Operation Will Start in 1964

CHICAGO (AP)—The Chicago White Sox announced today the purchase of 62 acres of land bordering Lake Winnebago in Brotherhood, Wis., where a summer baseball camp will be opened in 1964.

The camp will handle 300 boys between the ages of 8-16. It will operate for a nine week period with three separate sessions of three weeks each.

A lodge, with a dining room accommodating 250 and a large indoor recreation area, is being planned. There also will be a swimming pool and cabins.

Arthur Allen, president of the White Sox, said the project will include a well-rounded athletic

program of baseball, basketball, boating, fishing, horseback riding, soccer, volleyball, water skiing and the crafts.

Also on the drawing boards is construction of three baseball fields for Little League, Pony League and regulation play, a soccer field and basketball and tennis courts.

There's Nothing Like a pet in the household. In the Frank Cacka Jr., home, San Bernadino, Calif., the pet happens to be an 18-pound bobcat named Checkers. Six-month-old Lisa Cacka and Checkers seem to be trying to get better acquainted. The bobcat was given to the family by a state trooper. (AP Wirephoto)

New Tension As Result of Attack on Boat

CONTINUED FROM PAGE 1

Norfolk, Va. The tanker was carrying 15,000 tons of molten sulphur. Wednesday ships searching for the vessel found flotsam littered Sulphur Queen.

However, a Defense Department spokesman said he was not aware of any evidence that the Sulphur Queen had been attacked.

The reason for the MIG rocket firing on the shrimp boat was not clear but some officials thought it might be related to the fact that U.S. aircraft a few days ago fired rockets across the bow of the Venezuelan freighter, Anzoategui, after it had been seized by a Communist revolutionary group, and while it was being taken to Brazil.

Soviet Troops Issue

Whatever the reason, the incident injected fresh tensions into the Cuban situation at a time when they were relaxing somewhat because of a belief here that some Soviet troops, perhaps as many as 8,000, might be leaving the island within days.

This prospect, or hope, was based partly on the arrival in Cuban waters of four empty or lightly loaded Soviet ships.

The ship movement were disclosed barely a day after word circulated from congressional and diplomatic sources that the Soviet government had promised Monday to withdraw several thousand of its troops from Cuba by March 15.

Could Transport 8,000

The soldiers arrived there last fall with the offensive missiles and bombers which set off the Cuban crisis.

Experts estimated the four vessels were of a size that could handle as many as 8,000 men—almost half the 17,000 Soviet military personnel President Kennedy said he believed were still on the island. But the potential removal of some of the troops could raise a new problem—that of the Soviet weapons on Fidel Castro's island bastion.

Administration officials do not regard the weapons as an offensive threat to the United States. If put in Cuban hands, however, they would give Castro a new capacity to provoke the United States and stir up more troubles.

Causing the most concern are 24 antiaircraft missile bases capable of shooting down U.S. reconnaissance planes and relatively short-range antiship missiles.

These weapons are understood to be still completely within Soviet control.

The Soviet-built MIGs were not the latest models based in Cuba. There has never been any word from U.S. government sources as to whether Soviet or Cuban pilots are flying the MIGs based in Cuba.

The U.S. interceptors were Marine-piloted F4B Phantoms. The F4B is one of the fastest fighter planes in the world.

The Marine planes came from Fighter Squadron 513 based at Boca Chica Naval Air Station at Key West.

The destroyer escort which rescued Jackson and Washington was identified as the Ketchikan.

Green Bay Hotel Burns

CONTINUED FROM PAGE 1

about 1909 and has been in continuous operation since. The present owner is Isadore Mednikow.

He purchased the building for about \$25,250. The hotel had three stories with 10 rooms on the second floor and 14 on the third.

The city had the hotel property assessed at \$36,500.

The adjoining buildings are owned by James Sarkies and the property has a land value of \$4,100 and improvements of \$18,900.

In addition to the hotel, Mednikow reportedly owned the barber shop, Blackstone Bar and restaurant in the hotel. Sarkies owned the Tradewinds Shop and the boat business.

Hebard to Get Mental Exam, Court Decides

CONTINUED FROM PAGE 1

to be some question of sanity and, in view of the magnitude of the alleged crimes, a mental examination is ordered by two competent psychiatrists.

The judge said he would name the two doctors later.

Arraignment of Hebard on four formal counts of first degree murder will be held open indefinitely pending filing of the psychiatric report in writing with the court. Hebard was ordered returned to a jail cell without bond.

The young man appeared in court today for the second time.

Rather than jail coveralls and a car coat, he wore a pair of small checked, olive drab trousers and black and green striped bulky sweater.

In his first court appearance Wednesday, four charges of murder were leveled against Hebard, who was arrested Tuesday noon near Pulaski. He is accused in the gunshot deaths of father, Jack, 37, his stepmother, Joyce, 35, and twin stepisters, Judy and Janice Rudell Hebard, 11, at the family home, 2636 Hazelwood Lane, at about 5:30 p.m. Monday. A fifth murder charge in the death of his stepbrother, John Rudell, 15, is being held in abeyance by the district attorney pending outcome of the trial on the other four counts.

Funeral services for the five members of the Hebard family will be at 10 a.m. Saturday at the Schauer and Schumacher Funeral Home here. The Rev. Overt Lowe, pastor of Calvary Lutheran Church, will officiate. Burial will be in the Mosinee Cemetery.

Citizens Seek Stamp Vending Machines

WASHINGTON (AP)—A citizens advisory group feels the Post Office Department should consider replacing its sales-window clerks with vending machines.

At the same time, the advisory board told Postmaster General J. Edward Day in a report Wednesday, it endorses the Post Office Department policy of trying to assure that "no full-time career employee need fear becoming unemployed because of the introduction of mechanized equipment."

Byrnes Wants Public Help in Spending Cuts

CONTINUED FROM PAGE 1

cluding a \$5 billion federal aid to education program, the "so-called Youth Conservation Corps,

the Domestic Peace Corps, mass transit programs, and others.

"Putting backdoor spending under appropriations control could save at least a quarter of a billion dollars," he asserted. "Foreign Assistance can be trimmed. And cutting the funds for the Emergency Public Works program, which has turned into a boondoggle and should never have been authorized in the first place, could net us a savings of \$400 million."

The congressman emphasized, however, that the public would

have to cooperate in a crusade for prudence if it is to be effective.

Like the majority of legislators in Washington, Byrnes often receives letters from "people who want spending cut, but who add a footnote inquiring about some special item they think should be protected or increased."

If the Congress is going to cut federal spending, it must be done all down the line, with no holds barred, the Wisconsin legislator concluded.

State Department Will Seek Help Of Computers

WASHINGTON (AP)—The State Department is going to try to get background help on foreign affairs questions by push button.

Given a go-ahead by Secretary Dean Rusk after a visit to a Pentagon computer center last summer, the department's electronic answering system is slated to swing into operation on an experimental basis during the fiscal year that begins July 1.

So reports the latest State Department newsletter, a publication distributed to U.S. diplomats.

Successful demonstrations by the new information storing and retrieving machine, the newsletter said, points toward creation of "a system of mechanized support for researchers, desk officers, policy planners and decision makers who daily depend on substantive information and who frequently need it in a hurry."

WERB to Set Date For Vote on Union

AFL-CIO Unit May Represent Waupaca County Highway Group

WAUPACA — The Wisconsin Employment Relations Board will set the date for an election to accept or reject Local No. 1756 of the American Federation of State, County and Municipal Employees, AFL-CIO, as the bargaining unit for Waupaca County Highway Department employees. The decision was made Wednesday afternoon at a public hearing at the courthouse.

County officials and representatives of the newly organized county union agreed on the employees who are eligible to vote on the issue.

James L. Greenwald, Madison, examiner with the WERB, said the election will be within one

month from the date of the hearing, on a weekday afternoon from 2 to 5 p.m. at the county highway office at Manawa.

Fred Grunwald, county highway commissioner, and Supv. Carl Sturm, Manawa, chairman of the county board, agreed the workers will be given the afternoon off to vote. It will be similar to a paid holiday.

Greenwald said a representative from his office, a representative of the county and a representative of the union will supervise the election.

Robert W. Swanson, Appleton, representative of the Wisconsin Council of County and Municipal Employees, AFSCME, AFL-CIO, and officers of the local took part in determining which of the employees will be eligible to vote.

District Atty. Gerald K. Anderson, Grunwald and Sturm represented the county in determining voter eligibility.

Voter List

A list of 111 county highway department employees was selected. The list excludes the highway commissioner, supervisory personnel and confidential clerical personnel.

Notices of the election date will be sent to all of the county highway department offices at Clintonville, Marion, New London, Manawa, Iowa and Waupaca.

Greenwald said a majority will decide the outcome of the election. Officers of the local also attended the hearing. They are John Prinson, New London, president; Gordon Klug, Weyauwega, vice president; Delfred Larsen, Scandinavia, secretary; and Corrin Flaata, Iowa, treasurer.

Leland A. Wells, DePere Business Leader Succumbs

Post-Crescent News Service

DE PERE—Leland A. Wells, 70, De Pere business and civic leader, died early this morning at his home, 1024 S. Broadway.

Head of the Wells Coal and Dock Co. until his retirement last year, he was also president of the Bank of West De Pere and the De Pere Federal Savings and Loan Association.

Mr. Wells was the first president of the De Pere Civic Association, and an organizer and the first president of that group's successor, the De Pere Chamber of Commerce.

He was a charter member of De Pere Rotary and served as president in 1937-38. In 1921 he was an organizer and first commander of Heesaker-Brown Post, American Legion. He was a former president of the board of trustees of First Presbyterian Church. During World War II, he was appointed to the original three-man war rationing board for Brown County. An avid sports fan, he served on the board of directors for the former Green Bay Bluejays baseball team.

Friends may call at the Coffey-Cotter Funeral Home after 2 p.m. Friday. Funeral services will be at 2 p.m. Saturday in First Presbyterian Church, 606 N. Webster Ave. The Rev. Leland G. Rubesh will officiate and burial will be in Greenwood Cemetery.

The family has asked that friends designate a favorite charity as a memorial.

Active Worker

She was an early worker for woman suffrage, seeking equal pay and equality in the professions for women. In the summer of 1913 she was in Washington, D. C., and worked with Alice Paul in the Congressional Union and participated in the first automobile parade of the women when the Senate held open house for them. That fall she helped organize the first women's suffrage club in South Carolina at Spartanburg.

She suffered a stroke in 1957 but recovered and wrote many articles and poems. She prepared a long article on education in Wisconsin for the State Historical Society, planned the series, "Who in the Bible," and prepared other manuscripts for future publication. In her travels she had several interviews with Pope Pius XII.

A sister, Mrs. John G. Groeschel, Hammond, Ind., is the only immediate survivor.

Funeral arrangements are pending at the Kessler Funeral Home.

Emma Jaeck, Noted Teacher, Dies in Berlin

Omro Resident Had Been Widely Known As Poet, Traveler

NEENAH — Dr. Emma Gertrude Jaeck, 87, a college professor, writer, poet, historian, lecturer, world traveler, and native of Neenah, died Wednesday night at Berlin after a lingering illness. She had lived at Omro, for the last 32 years.

She was listed in Who's Who in American Education, Principal Women of America, Principal Poets of the World, the Biographical Dictionary of Contemporary Poets, Who's Who in the Wisconsin, Who's Who in the Mid-West and Who's Who of American Women.

Neenah Native

She was born at Neenah Oct. 25, 1875 and was graduated from Neenah High School. Dr. John Chapin, an early pastor of the First Presbyterian Church in Neenah, interested her in seeking higher education.

She attended Oshkosh Normal and then transferred to the University of Wisconsin where she earned Phi Beta Kappa honors. She did graduate work at the University of Wisconsin, universities of Illinois, Minnesota, Chicago, California, and attended schools in Berlin and Strasbourg in Germany and Madrid in Spain.

She studied 15 languages and taught five. She taught in the Neenah fourth grade from 1892 to 1894 and also taught in several high schools in Wisconsin, Michigan and Illinois.

She earned many scholarships and received her master and doctor degrees from the University of Illinois. She was a college instructor for 20 years and was head of the modern language department at Russell Sage College, Troy, N. Y., resigning in 1926 and returning to Omro in 1930 after determining to devote the rest of her life to writing, lecturing and travel. During the 1930's she circled the globe twice.

She was an early worker for woman suffrage, seeking equal pay and equality in the professions for women. In the summer of 1913 she was in Washington, D. C., and worked with Alice Paul in the Congressional Union and participated in the first automobile parade of the women when the Senate held open house for them. That fall she helped organize the first women's suffrage club in South Carolina at Spartanburg.

She suffered a stroke in 1957 but recovered and wrote many articles and poems. She prepared a long article on education in Wisconsin for the State Historical Society, planned the series, "Who in the Bible," and prepared other manuscripts for future publication. In her travels she had several interviews with Pope Pius XII.

A sister, Mrs. John G. Groeschel, Hammond, Ind., is the only immediate survivor.

Funeral arrangements are pending at the Kessler Funeral Home.

Grant Probation on Horse Theft Charge

OSHKOSH — Gary Lee, 22, Milwaukee, was given a stayed sentence of two years in the state Reformatory at Green Bay by County Judge James Sitter Wednesday and placed on probation for two years to the state department of public welfare.

Lee was found guilty earlier this month by Judge Sitter of theft of a horse owned by Arleigh Rogers, Omro, which was valued at \$350.

Pleads Guilty of Theft

OSHKOSH — Carlton N. Gossett, 33, 1335 1/2 S. Oneida St., Appleton, this morning was placed on probation by County Judge James Sitter for two years.

Gossett pleaded guilty Feb. 6 of stealing \$130 from a fellow employee on Feb. 5. The money was taken from a pair of trousers which his co-worker had placed in a locker at the Neenah Foundry Co., Neenah.

Green Bay Firemen battle a blaze on the city's west side which destroyed seven business places this morning. The fire still was out of control at noon as firemen worked in 8 degrees below zero temperatures. (Story on Page 1.) (AP Wirephoto)

Harry Had Unhappy Life

Hebard Home Had Been Fun-Filled Gathering Spot for Neighborhood

Post-Crescent News Service

GREEN BAY—The newly remodeled home on Hazelwood Lane which Monday became a scene of horror and death had been known as a place of fun and frolic to the children of neighbors of the Jack Hebard family.

The Hebard home had a spacious recreation room in the basement. The 11-year-old twin Hebard girls were favorites amongst the youngsters — they owned a horse of their own, as well as several dogs and cats.

The older boys in the area looked to Harry Hebard, the confessed killer of five, and John Rudell, one of his victims, as athletic leaders of the neighborhood. The boys had laid out a ball diamond, a football field and a practice track.

Young Harry, who had played junior varsity football at West High, even organized and captained a grid team composed of neighborhood players.

What could have caused a youngster provided with such opportunities to turn on his family with a vengeance that resulted in five violent and well-planned deaths? Some light was shed on this puzzling question by Mrs. Emil Tress of Wausau, the mother of Harry's step-mother, Joyce.

"Not Happy"

Mrs. Tress, who arrived in Green Bay to make funeral arrangements, told reporters that young Harry's life had not always been a happy one. A bizarre mixture of divorce and family tensions had left a boy who

was moody in the midst of an otherwise happy and active family.

Harry's blood mother and Jack Hebard had been divorced when the boy was barely a year old. The mother took the boy to California, where she eventually remarried.

When "Butch", as the family

Piano Playing Youths Found Inside Church

Four young people found playing a piano and drinking wine in an Appleton church early this morning were reprimanded and released by Appleton police. There are no charges.

A patrolman reported he heard a piano as he patrolled his beat near the Presbyterian Church on E. College Avenue about 12:30 a.m.

The patrolman investigated and found the four around the piano. They were taken to the police station. Two of the youths, both over 21, admitted they bought the wine and were later joined in the church by the other two.

2-Car Accident Injures Driver

One person was hospitalized as a result of a two-car accident Wednesday night on E. Wisconsin Avenue and N. Owalissa Street.

Taken to St. Elizabeth Hospital by Lindy's Ambulance Service, where he is being treated for head injuries, is Duane Petznick, 25, 430 W. Foster St.

Petznick's taxicab, being driven east on E. Wisconsin Avenue was involved in a collision with a car being driven west by Peter VanderHeyden, 1999 E. Wisconsin Ave. VanderHeyden was uninjured. The collision occurred about 7 p.m.

Post Office to be Closed on Friday

The Appleton Post Office and all other federal agencies will be closed Friday on Washington's birthday anniversary, which is a legal holiday.

The post office will have no window service and will make no mail deliveries on Friday. The box section will be open.

Contracts Let For New Parking Ramp

Pioneer Unit Meets Friday

Outagamie Group Plans Dinner, Public Program

The 91st annual meeting of the Outagamie County Pioneer and Historical Society will be held Friday at the Appleton Elks Club.

The society, which follows the annual custom of meeting on Washington's birthday that dates back to the village days of Appleton, officially organized under its present name in 1872. The earlier organizations of the 1850s and 1860s were known as the Old Settlers Association and the Pioneer Society.

The membership meeting will be open at 10:30 a.m. with reports from officers, a election of directors. The board of directors for 1963 will elect officers at 11:30 a.m.

The customary dinner is scheduled at noon and will be followed by the afternoon program.

Emil A. Walther, president of the society for many years, will present the welcoming address and introduce the guest speakers, Arthur P. Stapel, who will talk on "Russia As I Saw It," and James Miller, who will discuss a trip through South America.

The Rev. Frank Dauner, pastor of Evangelical United Brethren Church, will give the opening prayer and benediction. Mrs. M. J. Fose will present musical selections on the organ and the community singing of the two traditional songs of the society Kuehl to advertise for the emmenting, "America" and "Till We Meet Again," will be accompanied by Mrs. M. S. Trough.

Didn't Fit

While the family did their best to make Harry happy, he never seemed to fit into the circle of activities too well. Mrs. Tress revealed that Harry was a likable lad, but that he became very moody in the presence of other members of the family.

Indications are that Harry Hebard felt a closeness to his stunt-car driving father, that he didn't hold for the other four members of the family. Dist. Atty. Robert Warren said Wednesday afternoon that the youth showed some remorse for placing a bullet in his father's forehead. No such remorse was indicated over the slayings of Joyce Hebard and her three children.

Whatever the tensions of the family situation were, it was obvious that Harry had been brooding about them for a long time. With the meticulous care of the draftsman-architect he hoped one day to be, the boy wrote out notes planning the quintuple killing. Police later found these notes, one in the pocket of a pair of pants in the Hebard home, the other in the boy's locker at West High.

Harry's closest friend, 19-year-old Norbert Hansen of Pulaski, also revealed indications of unrest in the Hebard home. He told police that Harry was not getting along with his mother.

When young Hebard called Hansen Monday noon and asked to be picked up that evening, Hansen merely thought he was helping Hebard run away from an unhappy family. In reality, it was a dead end.

Happy voices of youngsters no longer sound around the Jack Hebard residence. The atmosphere of fun and frolic has been replaced with a pall of horror and dread.

Omro Youth Sentenced To Reformatory on Statutory Rape Charge

OSHKOSH — County Judge Herbert A. Mueller this morning sentenced Joseph R. Oesterreich, 18, Omro, to 12 months in the state reformatory at Green Bay. Oesterreich was found guilty by a county court jury last week of statutory rape of a 14-year-old girl last September. Sentence had been postponed until today.

Oesterreich's brother, Charles, 24, also of Omro, this morning asked for a jury trial on two charges of statutory rape pending against him, allegedly involving a 15-year-old girl.

Trial was set for April 18. Charles Oesterreich also asked the court to appoint an attorney to represent him since he is without funds.

Received by Three In Neenah Accident

NEENAH — Three Neenah residents received minor injuries in a two car accident on Nicolet Boulevard Tuesday, according to Neenah police. The accident was reported to the police Wednesday afternoon.

Drivers of the two cars involved were Mary J. VanLieshout, 804 Nicolet Blvd., Menasha, and Bernice C. Hauser, 325 Twelfth St., Neenah.

Bernice Hauser complained of a sore neck after the accident. The others injured were passengers in the Hauser auto. They were Patricia Miller, 11, 314 Twelfth St., Neenah, and Gail J. Hauser, 10, 325 Twelfth St., Neenah.

Feb. 4 Meeting

Mueller was referring to stories concerning the Feb. 4 meeting when an unanticipated letter of resignation and request for reinstatement were received from the superintendent of municipal equipment, who was hired last fall.

Expect Construction to Begin in Spring on New Downtown Appleton Facility

Contracts totaling \$467,885 for approved previously by the construction of a new tri-level parking structure in Appleton's downtown district were awarded Wednesday night by the common council.

They went to the low bidders: Fluor Brothers Construction Co., general construction, \$419,587; Langstadt's Inc., electrical, \$34,990; T. Wenzel Co., plumbing, \$21,433; and Bassett Refrigeration, heating and ventilating, \$1,375.

Construction of the structure, to be known as the East Ramp, is scheduled to start this spring and represents the city's second venture. The West Ramp was completed last year.

The common council also appropriated \$76,500 for purchase of property to be the site of the new fire department headquarters station on the near north-east side.

Sell School

Agreed to sell the old Whispering Pines school property on E. Wisconsin Avenue to the Appleton Coated Paper Co. for \$40,000.

Increased the city's share of the Outagamie County Humane Society operation from \$250 to \$291 per month.

Referred to the fire chief and board of insurance underwriters a resolution calling for future construction of a combined fire-police precinct station on the city's far southeast side.

Named Joseph Kneice, a member of the park department staff, golf course superintendent.

Authorized Fire Chief Roland Kuehl to advertise for the employment of six new men as reduced work week which has been

Dr. John C. Wollwage, 1712 N. Drews St., Appleton, a vice president of Kimberly-Clark Corp., talks with newsmen in New York after being named president of the Technical Association of the Pulp and Paper Industry at the annual convention of the American Paper and Pulp Association. (AP Wirephoto)

Concurred in the state's appointment of Chief Kuehl as first deputy director of fire and rescue services for the Northeast Area Civil Defense.

Rezoned from two family to multiple family the property at 331 S. Memorial Dr. and 332 S. Badger Ave.

Confirmed the reappointment of Otto Bytof to a three-year term on the board of appeals.

Also, okayed the appointment of Walter Jan, retired building inspector, as an alternate member of the board for three years.

New London Firm, Union Agree to Terms

Barn-o-Matic, UAW Sign 2-Year Pact With Pay Increase

NEW LONDON — Negotiations were completed and a two-year contract signed Wednesday between Barn-O-Matic and the United Auto Workers, according to a joint statement of H. W. Lacey, director of industrial relations for Barn-O-Matic and Harvey Kitzman, director, region 10, International Union of United Automobile, Aerospace and Agricultural Workers of America and William Thoma, president of Local 1025.

While complete details of the settlement were not disclosed, both company and union expressed satisfaction that the settlement was fair and equitable.

The new agreement provides for an immediate wage increase and additional increases on the 12th and 18th months' anniversaries of the agreement. The contract also provided for improved vacations, holidays and group insurance coverage.

Lacey added, the general atmosphere which prevailed throughout our negotiations were both wholesome and productive.

Certified Agent

The UAW was certified as bargaining agent for the production and maintenance employees at Barn-O-Matic Inc. on Nov. 28, 1962. Negotiations got under way in the latter part of December. Agreements were reached Feb. 7.

Barn-O-Matic, Inc. manufactures a complete line of Barn cleaner, silo unloaders and bunk feeders. The company began operation at Iowa in January, 1958 and moved to its present New London location in January, 1960.

In February, 1962, the company became a subsidiary of Avco Corp., with Gordon Carew, one of the founders, as president.

At present, the company has 44 employees with 32 of them on the production staff.

Works Committee To Advertise For Sewer Bids

NEENAH — The Common Council authorized the public works committee to advertise for bids for storm sewers in the Southview Plat at its Wednesday night meeting.

Included in the bid specifications, according to council action, is to be an extension of the storm sewer to the south to enable Marathon, a division of American Can Co., to tie into the storm sewer.

In other action Wednesday night, the council authorized a change in two street names. One of his car stolen from a parking lot on Second Street. He discovered the theft when he left work at Badger Northland about 10:10 p.m. Wednesday.

Stolen Car

KAUKAUNA — Maynard Morse, 204 Island St., Kaukauna, reported his car stolen from a parking lot on Second Street. He discovered the theft when he left work at Badger Northland about 10:10 p.m. Wednesday.

Manager Gets Petition on Removal of Library Books

OSHKOSH — A petition to have five books removed from the Oshkosh Public Library on the contention these books are obscene was referred to the city manager by the Oshkosh Council Wednesday for a report at the Council's workshop meeting next Wednesday.

Construction bids totaling \$37,328 for the new Lincoln Elementary School were approved for signature by city officials. These bids were \$367,000 to Charles D. Smith and Sons, Inc., Fond du Lac, for general construction, \$26,800 to John F. Ahern Co., Fond du Lac, for plumbing, \$87,751 to E. C. Merrill, Inc., Oshkosh, for heating and ventilating and \$64,977 to Mayer Electric, Sheboygan, for electrical work.

Appleton Council to Meet With County Officials on Building

Addition to Courthouse May be Shelved In Favor of Constructing Joint Facility

Future building needs problems confronting the city of Appleton and Outagamie County will be thrown into one hopper Monday night.

Representatives of the city and county will explore the possibility of finding a single solution to the problems. A joint city - county municipal building is a possible answer.

Supv. Walter Fredericks, New London, chairman of the county's public property and insurance committee, said today he has invited Appleton Mayor Clarence Mitchell to attend the meeting at the courthouse at 7 p.m. Monday.

Mitchell told the Post-Crescent today that he will send out notices to all members of the city council asking them to attend also.

Hold Discussion
The joint meeting grew out of a discussion held at last week's county board meeting when the proposed \$1.25 million addition to the county courthouse was discussed.

The five-floor addition, planned by George Narovec, Appleton architect, would provide for additional office space, new sheriff's quarters, jail facilities and courtrooms.

During the meeting the county

board approved a resolution by Supv. Al Fischer (Appleton 15th) empowering the public property and insurance committee to meet with Mitchell.

Fischer suggested that the committee and Mitchell discuss the possibility of a joint municipal building.

The resolution empowered the committee to make further studies of possible future sites for county building purposes and to hire a consultant for not more than \$5,000 to come up with a plan on what the needs may be.

Representatives of the McMahon Engineering Co., Menasha, met with the public property and insurance committee Monday. They made a tour of the courthouse with the committee and discussed the county's building needs.

Consider Firm
Fredericks said the McMahon firm and others will be considered for the consulting job.

Fredericks suggested to Mitchell that the city's board of public works attend Monday night's meeting.

However, Mitchell said today, "Because of the significance of the subject matter, I think every city council member should be invited to attend."

"It certainly won't hurt to sit

Statement of Schuster Read Into Record

Differs Little From Previous Account of Activities

OSHKOSH — The controversial confession statement made by George Schuster in the death of Mrs. May Gokey was read into the court record late this morning by Winnebago County Patrolman Wilbur Fuller, who took the statement from Schuster on April 29, 1962.

The statement is similar to two down and talk about a city-county building. Maybe we can find out once and for all just how far apart we are on this issue."

Fredericks said he asked County Board Chairman Alvin Fulcer of Kimberly to attend the meeting, but other business will prevent Fulcer from being there.

However, Supv. Joseph J. Weyers of Freedom, vice chairman of the county board, will attend.

During a special order of business at the March 12 meeting the board will hear Fredericks' report on Monday's talks and vote on the proposed \$1.25 million courthouse addition.

If the board votes down the plan to build a new addition, other possible alternatives which will be considered include selling the existing courthouse building to Appleton for use as a city hall and building new county building facilities on the property presently occupied by the airport at Ballard Road and County Trunk OO or on county hospital property between W. Wisconsin Avenue and County Trunk OO.

others read into the record except for his account of finding Mrs. Gokey on the floor.

Fuller was the last witness planned by the state in its case. Cross examination was to start after the noon recess.

In the three-page statement, Schuster again related going to the Vice President Bar from work on the day Mrs. Gokey died and consuming "about 18 or 19" small bottles of beer.

He again told of becoming sick outside of Mrs. Gokey's house and going in the back door and again becoming sick in the kitchen.

He said she made him a cup of soup and then was going to help him to the couch. "We staggered at this time and lost our balance, falling down. I remember that she was lying next to the stair case."

He then said he tried to lift her but she was too heavy, so he dragged her into the living room and then back to the bedroom. He said he tried to lift her onto the bed but couldn't so he tried to make her comfortable. He said he did not know she was dead.

He said he could not remember which door he left by, but the next thing he remembers was waking up on the front porch. He said he did not remember being in the house and did not know Mrs. Gokey was dead until his neighbor told him the next day.

The statement was written by Patrolman Fuller and read to Schuster, who then signed all three pages.

Former Neenah Man Dies in Minneapolis

Norman Kaffe, 77, a former Neenah restaurant owner who retired five years ago, died Sunday in Minneapolis, where he had been living since his retirement. He ran Kaffe's Restaurant on Lake Street.

Survivors include his wife, one brother and three sisters and a grandson. He was buried Tuesday in Minneapolis.

Impressed With Manners

Hebard Wanted to Buy Gun From Shop Owner

BY CHARLES HOUSE

Post-Crescent Staff Writer

GREEN BAY—Harry Hebard, 16-year-old confessed slayer of five members of his family Monday evening, was out gun shopping in at least one Green Bay store perhaps hours before the crime.

James Palmer, proprietor of Palmer's Collectors Corner, reported Thursday that Hebard entered his store and asked if he could purchase a .22 calibre pistol. Palmer did not recall the exact day of the boy's visit, but as he said, either Friday, Saturday or Monday.

"He was such a nice looking, well-mannered boy," said Palmer, "that I talked with him at some length. He first came in the store and looked around, just as a lot of people do. Then he asked me if I had a .22. I told him that I did not have one in stock."

No Sale
"Well," Palmer quoted Hebard as saying, "you wouldn't sell me one anyhow, would you?"

Palmer described the manner of the young man as "strange." "He seemed almost not to want a gun," Palmer said, "but I told him that I wouldn't sell a gun to him until he was 21 years of age."

"I told him that if he brought his father in with him for the purchase, I could do it but I couldn't and wouldn't sell a gun to a person under 21 years."

Hebard then asked the proprietor if it could be worked out that Palmer could buy the gun from himself and then sell it to Hebard, but Palmer declined to do this.

Hebard persisted in his attempt to purchase a gun, Palmer said. "He asked me then if I could sell him the gun but not report it, and to lie about it if I was asked."

Bring Father
Palmer declined to do this, but he again instructed Hebard to bring his father in with him if he wished to purchase a weapon.

Hebard informed Palmer that his father had quite a few guns, some of them from wartime. Palmer then suggested that if the father wished to trade any one of his weapons for a .22, he would be willing to make such a trade. Hebard, however, appeared to think that his father would not be interested.

After spending about a half hour in the shop, Hebard walked to the door and Palmer said, "Will I be seeing you?"

"No," said Hebard.

Couple Divorced in Outagamie Court

Karen Baeten, 23, 1714 N. Elinor St., was divorced Wednesday from Howard Baeten, 28, route 2, Hilbert. The case was heard in Outagamie County Court, Branch 3.

Mrs. Baeten charged cruel and inhuman treatment and was awarded custody of two minor children. Baeten was ordered to pay \$25 a week support. A property settlement was made.

The couple married April 7, 1959, and separated April 12, 1962.

Gambles HOME guard INSULATION

Reg. \$1.39 Bag **99c** Bag

One Bag Covers 20 sq. ft. 4 Inches Thick

Blower Available Free!

• Light in Weight—Non Settling
• Cuts fuel costs from 25 to 50%—keeps home 10 to 15 degrees cooler in summer
• Easily & quickly installed—Meets all standards set for FHA financing.

INSULATION

- CUTS FUEL COSTS—SAVES 25% TO 50%
- 10" TO 15" COOLER IN SUMMER
- NON-SETTLING—LIGHT IN WEIGHT
- FIRE AND VERMIN RESISTANT
- ECONOMICAL AND EASY TO INSTALL
- ACCEPTED FOR FHA FINANCING
- BACTERIOLOGICAL TESTS SHOW NEGATIVE
- NON-CONDUCTOR OF ELECTRICITY

GREATER SAVINGS
Homeguard is more efficient, lessens heat losses.

LOWER IN COST
Homeguard leads the way in better low cost insulation.

FIRE RESISTANT
Even the heat of a blowtorch can't melt Homeguard insulation.

Start today to pocket the money that is being wasted away from heat losses. Why pay for heat you don't use. Without proper insulation that valuable heat goes right through the roof. The cost of insulating with Homeguard is so low that it pays for itself in just a few years. So stop burning your money, start saving it now with Homeguard insulation. Do it yourself! It's easy!

VALLEY FAIR GAMBLES—FAMOUS for DISCOUNT SAVINGS!! OPEN 10 to 9 DAILY

Marinette Man To Open Forum

Ansul President to
Speak in YMCA
Business Series

Robert C. Hood, president of the Ansul Chemical Co., Marinette, will be the first speaker in the annual YMCA Business and Industry Forum at 6:15 p.m. Monday at the YMCA.

Hood's topic will be "The Or-

Robert C. Hood

ganizational Side of Enterprise: a Cross Product of Purpose and Environment." The over-all theme for the four-session forum is "A Look at Some of the Varied Sides of Enterprise."

Hood, a native of Marinette, attended the University of Wisconsin and served as a gunner of five in the U. S. Coast Guard during World War II. He joined the Ansul Chemical Co. in 1939, and held various positions before he was elected president in 1949 at the age of 32.

As president of Ansul, Hood has worked closely with the academic community in the application of organizational theory and the findings of social science research to the solution of common business problems. His work in such areas as cost control, supervisor selection, management development, executive training and corporate identity have led to many speaking engagements and his involvement in a number of management and educational organizations.

As an official government representative, Hood has visited many European countries, including Russia, to study and instruct in the field of organizational practice. In recent years he has been active in the educational and training work of the Young Presidents' Organization, and has served as a director of the organization.

\$2.5 Million Loan for FWD

Clintonville Firm
To Use Funds for
Future Expansion

CLINTONVILLE — Louis A. DePolis, President of FWD Corp., manufacturers of heavy duty equipment for industry and government and ground support equipment for aircraft and missiles, announced today the completion of a \$2,500,000 loan to further expand operations at FWD.

FWD sales at the end of the 1962 fiscal year were in excess of \$23 million.

Sees Increase

DePolis predicted a substantial increase in sales at the end of the 1963 fiscal year by the combined operations of FWD.

FWD is listed on the Mid-West Stock Exchange and is a subsidiary of Mount Clemens Industries, Inc., which is listed on the American Stock Exchange.

As a diversified manufacturing company, Mount Clemens Industries operates subsidiaries and divisions with annual sales in excess of \$40 million. Included among these are: Chester Tricot Mills of Kennett Square, Pa., manufacturers of knitted tricot materials; Mount Clemens Metal Products Co., operating three plants in Michigan producing fabricated metal components used by the automotive industry; Andover Industries, Inc., Andover, Ohio, manufacturers of custom-molded plastics for the automotive and appliance industry.

Committee Okays State Man for Customs Post

WASHINGTON (AP)—John G. Green of Superior, Wis., whose nomination to be a customs collector was blocked last year by the then Sen. Alexander Wiley, R-Wis., won the Senate Finance Committee's approval Wednesday for the post.

Chairman Harry F. Byrd, D-Va., announced the committee had approved the nomination unanimously at a closed door meeting, this time with no sign of opposition.

Wiley himself had told the committee in last year's fight that "everything I have heard about him (Green) is good." But Wiley said he nevertheless must oppose the nomination on political

Post-Crescent Paper Rack Reported Stolen

A Post-Crescent newspaper rack valued at \$4 with about \$2 in change was taken from the post office. Appleton police were told Wednesday.
The rack theft occurred sometime Monday or Tuesday. Post-Crescent officials told police.

It Will Be Colder Tonight in the eastern two-thirds of the nation. There will be snow flurries over the Lakes and Ohio valley while the gulf coast will have local showers (AP Wirephoto Map)

15 Below Today

-12 Friday, Warmer Weekend Predicted

To repeat a familiar phrase this winter it'll be cold again Friday. But the weatherman has decided also to be surprisingly generous, predicting moderating temperatures and warmer weather for the weekend.

The U.S. Weather Bureau in Green Bay temperatures will remain very cold tonight with a low of 12 below but begin climbing Friday reaching a high of 10 above, compared to today's predicted high plus 3.

The weather bureau also said there is a good possibility of snow flurries Friday.

Appleton's cooperative observer for the U.S. Weather Bureau at Wisconsin Michigan Power Co. recorded a low of 15 below at 7 a.m. today. The mercury had climbed to only a minus 13 by 10 a.m. The power company recorded a 16 mile-an-hour winds from the northwest this morning.

Neenah Reading
In Neenah, WNAM Radio's weather scope listed 11 below at 5 a.m. 14 below the low at 7 a.m. and a rise to 11 below at 9 a.m. The device also recorded westerly winds averaging 20 miles an hour today.
Unofficial temperature reports include 24 below at Winchester 14 below in downtown Menasha and 24 below at Jefferson School in Menasha.
Appleton observer Ralph Dorn

Girls Beaten, Buried Alive

Dishwasher Admits Crime; Doesn't Know Why He Did It

TOOELE, Utah (AP)—Two Salt Lake City girls were battered with a hammer and buried alive under desert brush Wednesday. Officers say a 19-year-old part-time dishwasher has admitted the crime.
The girls, Carol Annette Clayton and Drinda Jane Atnes, both 18, were rescued after a companion, Tony Robertson, 19, ran and walked 14 miles to the nearest telephone and got help. The girls

were hospitalized and both were in critical condition.

Sheriff Faye Gillette said Rex Hintze of Salt Lake City admitted beating the girls after his car became stuck on a muddy road near the Great Salt Lake and the girls started walking toward home. He was booked on a charge of assault with a deadly weapon.

He Was Mad
"He didn't seem to know why he did it," the sheriff said, "he just said he was mad at them for leaving."

Robertson, a friend of Hintze's, said he was in the car and didn't know about the beatings "until he (Hintze) asked me to help him hide the bodies."

Robertson also of Salt Lake City, said he thought the girls were dead. He said he edged away from Hintze saying he wanted to see if anybody was watching, then started running.

Daughters Get Bulk Of Gruenwald Estate

OSHKOSH — Two daughters will share the bulk of the \$23,079 estate of the late Arthur H. Gruenwald, Oshkosh attorney who died Nov. 12, 1961, according to the inheritance tax notice filed with County Judge Herbert J. Mueller.

They are Arlin G. Stoll, Oshkosh, who will receive \$71,115, and Gail G. Pennau, Oshkosh, who will receive \$71,084. Their husbands each will receive \$2,000 and their children will share in a \$10,000 trust fund.

found Hintze near his car on the other side of a small hill from where the girls were found. The sheriff said he didn't resist.

State Blue Cross Denied Hearing

Firm Sought to Include Dental Care, Drugs in Its Coverage

MADISON (AP)—The Wisconsin assembly's Insurance and Banking Committee refused Wednesday to hold a second hearing on a measure that would allow Wisconsin Blue Cross to expand its hospital care program to include dental, dental care and nursing services.

The measure drew strong support from representatives of labor unions, hospitals, nursing homes, the Pharmaceutical Association, the Visiting Nurse Association, the Wisconsin Council of Homes and Hospitals serving the Aged, and other groups.

Opposed were the state medical and dental societies. Robert Murphy of Madison, representing the medical and dental groups, asked for the second hearing to give the societies policy boards time to consider the measure.

Too Late
But Assemblyman Kyle Kenyon, R-Monroe, committee chairman, said the request came too late and that Murphy could present his position to a Senate Committee which will consider the measure.

"These professions are directly concerned," Murphy protested. "They shouldn't be controlled by the timetable of the forces pushing this bill. I don't know what the urgency is."

Blue Cross, officially Associated Hospital Services, Inc., operates under a law which restricts it to providing pre-paid hospital care.

There are two organizations offering surgical care—Blue Shield and Wisconsin Physicians Service. Blue Cross and Blue Shield work together. Physicians service is operated by the State Medical Society.

Madison Attorney
R. W. Paterson, Madison attorney for Blue Cross, said the bill would broaden the range of services available to those covered by Blue Cross but these would be confined to "sickness care." Blue Cross has no intention of entering the life insurance field or surgical care, he said.

"This bill would not allow Blue Cross to provide any services not allowed other groups," he added.

George Hall of Milwaukee, representing the state AFL-CIO, said working people "want dental, visiting nurse and out-patient programs under Blue Cross if at all possible."

State insurance commissioner Charles Manson told the committee he has power to regulate Blue Cross "up to a point" and felt that the public would like to

Health Care Proposals Go To Congress

CONTINUED FROM PAGE 1

Security-financed health bill Tuesday.

Last year's administration bill—almost a twin to this year's—died in the hands of the House Ways and Means Committee. An attempt to move it through the Senate as an amendment to a welfare bill was defeated 52 to 48.

The basic change this year is an option in benefits for insured

persons. The prime benefit still provide for up to 90 days of paid hospital care after the insured patient has paid the first \$20 to \$50.

Options Provided
But the new bill allows two options, providing the insured elderly person chooses the option immediately before his 65th birthday. Once made, the choice cannot be changed.

The insured may choose to get 180 days of paid care, after first paying 2½ days himself. Or he may choose to get 45 days of paid care without paying for any part of it. If he makes neither choice, he gets the basic 90-day provision of the bill.

As in the earlier bill, the cost of the medical care would be borne largely by a boost in Social Security taxes. It would mean a maximum of \$13 a year for each

employee, and a like sum for his employer. It amounts to one-fourth of 1 per cent for the first \$5,200 of the employee's income.

Number of Elderly Grows
There are now, the President said, 17.5 million Americans aged 65 or older—and that number will swell to 25 million by 1980.

Nearly 6 million Americans are 75 or older, and more than 10,000 are over the age of 100, he added. "Our national record in providing for our aged is a proud and hopeful one," he stated. "But it can and must improve."

"Our aged have not been singled out in this special message to segregate them from other citizens," he concluded. "Rather, I have sought to emphasize the important values that can accrue to us as a nation if we would but recognize fully the facts concern-

ing our older citizens—their numbers, their situation and their untapped potential."

The tax proposals, spelled out by the President in an earlier message, include such benefits for the elderly as:

A \$300 tax credit for everyone over age 65.

Unlimited deductions for medical and drug expenses.

The generally lower tax rates which would apply to all taxpayers if the tax program is adopted.

In other recommendations, the President asked for changes in legislation to:

Withhold federal grants for old age assistance from states which do not have and maintain standards of safety and health for housing rented to those receiving old age assistance.

Allow old age assistance pay-

Senator Denies Powell Charge Of Race Bias

CONTINUED FROM PAGE 1

father. He said he got out of the foundation a year ago.

"I have always paid my taxes promptly," said Powell. The years in question, he said, are the subject of pending court action and it cannot be determined what, if anything, he owes until the court decides.

Members of Staff

As for last summer's trip—according to Williams a "European vacation for Mr. Powell and two lady friends where he attended all the night spots of the European capitals"—Powell said the women with him were staff members of his House Education Committee.

Powell said he used State Department counterpart funds as do other members of Congress.

"The night I was in a nightclub in Paris, Sen. Estes Kefauver, D-Tenn. was in the same nightclub at the same time with 10 guests," Powell said. "And he used counterpart funds to pay for them all."

Kefauver is not expected back from a trip to Florida until later today and was unavailable for immediate comment.

Williams had also criticized Powell for having his wife on his payroll. Powell replied that more than 100 members of the House "that we know about" have relatives on the payroll on the Senate side.

Referring to both the controversy over counterpart funds and relatives on the payroll, Powell said "I will always do just what every other congressman has done, is doing and will do."

Missile Explosion Laid To Power Line Mishap

VANDENBERG AIR FORCE BASE, Calif. (AP)—The Air Force says a Titan 2 missile blew up shortly after launch Saturday because power lines between it and the ground failed to separate properly.

The missile, first of its kind launched from an underground silo, blew up at 18,000 feet over Vandenberg Test Site.

The Air Force Ballistic Systems Division said power feed lines were ripped out of the 300,000-pound missile, and resulting damage caused the Titan to blow itself up.

Board Wants More Land at School Site

Kaukauna Council Refers Matter to Finance Committee

KAUKAUNA — A request from the board of education for the council to secure additional property in the area of the new high school addition was referred to the finance committee by aldermen Tuesday night.

The board suggested the council purchase property surrounding the school as it became available. This would ultimately provide acreage suggested for a high school site as current property

owned is not in line with state recommendations, the board said. Money for the purchase could come from interest being gained through investing bond issue funds, the school board noted.

Railway Property
The Chicago and North Western Railway offered to sell the city a tract of land fronting on Main Avenue containing approximately 14,700 square feet for \$6,175. The property has a 100-foot frontage on Main Avenue and is approximately 215 feet deep. It is a tapered strip, being 40 feet wide on the back end.

Mayor Joseph Bayargeon indicated he had written the railway asking them to continue a study of land situations which might make it possible for the city to acquire additional property as requested in 1962. The city had requested the site of the old railway depot plus additional land for road widening and off street parking. The property offered for sale is only a small part of the overall

request made in 1962. The offer to sell was referred to the finance committee and board of public works for study and recommendation.

A letter from Donald Green, city attorney, to Paul Kostka, Little Chute, village president, asking his cooperation in taking steps to have the boundary lines between the village and city straightened out, was placed on file. Changing the boundary needs agreement by property owners involved from both communities. Tentative plans call for the village to give up portions of three lots while the city would deed a 25-foot strip from 19 lots to the village.

New Ordinance
Aldermen adopted an ordinance making it illegal to leave any vehicle standing unattended between 1 a.m. and 6 a.m. on any street in the business districts or along State Highway 55 and 96 and County Trunk Highway 2 and J. During daylight saving time re-

strictions will be applicable between 2 a.m. and 6 p.m.

Formerly the overnight parking restrictions were only in effect during winter months. Approval was given to raising the fee for renewal of electrical permits from \$1 to \$2.

Representatives of the Donohue Engineering Co., designers for the improved sewage treatment plant for the city, were authorized to contact the state board of health and federal department relative to the city securing federal grant-in-aid toward plant construction costs.

The chief of police was instructed to investigate the possibility of renting a car which could serve as a combination second police car and rescue, emergency wagon. The city is contemplating either purchase or rental of a second police vehicle.

Kaukauna Board Voting Plan for Little Chute Set

LITTLE CHUTE — Village residents living within the Kaukauna school district way vote for school board members at the Little Chute voting station this year rather than casting ballots in Kaukauna, as done in previous years.

Ballots for voting will be furnished village election workers by the Kaukauna district. Residents of Kaukauna school district voting in the village must register with Mrs. Loretta Versteegen, clerk, between March 6 and 20.

Two members of the Kaukauna board are up for election and three persons are seeking the offices. Running for reelection are Olin Dryer and Victor Haen while David Dean is the third candidate.

All are residents of the city of Kaukauna. Village residents within the Kaukauna district are eligible to run for school commissioner posts, but none has taken out papers for this election.

Plan Hearing On Benefits For Widow

Corporation Counsel Claims Mrs. Welch Shouldn't be Covered

The legal question of whether a highway patrolman is a policeman and therefore eligible for compensation payments upon his death under a special state statute will be determined March 4 at a special hearing of the industrial commission at the Appleton courthouse.

Outagamie County Corporation Counsel A. W. Ponath, will claim that former Outagamie County Patrolman Elwin Welch, 57, who died in an accident while patrolling in his squad car April 2, 1962, is not eligible for compensation under State Statute 66.191, the special death or disability for certain public employees law.

Mrs. Welch, 2206 N. Locust St., has sought compensation under the statute and has declined taking the regular workman's compensation settlement.

Won't Get Pay
Under the state statute for special employees, Mrs. Welch would receive a payment of one-third her husband's monthly salary at the time of his death. The payments would be made each month until she remarries or dies.

Under the compensation payment, Mrs. Welch would receive a settlement equal to four times the amount of an average annual salary. Those payments would be made on a monthly basis.

Ponath figured Mrs. Welch would receive about \$8,000 more under the state statute "depend-

ing, of course, on the amount of time she collects."

The "issue" in the case comes in the wording of the statute which lists eligible "special" employees as "policemen, conservation wardens, deputy state fire marshals, state forest rangers, field employees of the conservation commission subject to call for forest fire control or warden duty, members of the state traffic patrol, state university full-time guards or any employee whose duties are supervisory in state penal institutions, state hospitals or who are state tax beverage employees."

Ponath claims that in the listing, the statute does not mention county traffic patrolmen. He said if the statute were to cover Welch's death, county traffic patrolmen would have to be listed as eligible.

"Too Loose"
"The ruling is too loose and inconclusive in this case," Ponath said. "It is so specific in other areas, I can't see why, if it were intended to cover county traffic patrolmen, they would not have been listed."

Mrs. Welch was informed on April 9 that she was eligible to receive the benefits under the statute by Helen Majestic of the workman's compensation division of the State Industrial Commission. Miss Majestic asked Mrs. Welch to choose whether or not she wanted compensation under the statute or under the state compensation ruling. On May 21, Mrs. Welch chose the benefits under the special state statute.

In September, Ponath objected to the decision and demanded the hearing before the Industrial Commission.

Mrs. Welch, meanwhile, has been living on social security payments and a small pension she receives each month from a police association fund. She said she was forced to sell her car to pay taxes this year.

Thursday, Feb. 21, 1963 Appleton Post-Crescent D12

Truck Drivers Accused of Overloads Must be in Court

Truck drivers or representatives of trucking firms which are charged with overload violations will be required to appear in Outagamie County Court, Branch 2 instead of posting bonds and stipulating their guilt through the mails.

County Judge Gustave Keller told state patrol officers the violations require detailed computation to arrive at fines and the computation can be handled better in the courtroom.

Give Formula
Fines for overload are based on a formula outlined in state statutes and vary with each case, state police said. Most violations for overloading come through vehicle inspections by the Wisconsin Motor Vehicle Department which puts up truck inspection posts along state highways.

Judge Keller also clarified his year-old order requiring all traffic violators who have not reached their 26th birthday and who live within 40 miles of Appleton to appear in court in answer to traffic charges.

If the violator lives outside the 40 mile limit, or if he is 26 years of age or over, he is then eligible to post bond at the courthouse, or to send the bond into the clerk's office by mail. By posting the bond, the violator admits his guilt in the offense and waives his right to a court hearing.

Xavier Council Plans Washington Day Hop
The Xavier High School student council will sponsor a Washington's Day Hop at 7:30 p.m. Friday at the school.

The program will begin with a pep rally in the gymnasium, during which the student body will urge the Hawks on to victory in the regional state tournament. Skits will be presented at the rally. A dance then will be held in the Commons.

Besides Knoke, of Knoke Lumber Co., Appleton, other officers re-elected included Fred Roberts, Kimberly-Clark Corp., Woodlands Division, Norway, Mich., vice president; Fred Menzner, Menzner Lumber and Supply Co., Marathon, treasurer; Miss Harriet Holmes, Green Bay, assistant treasurer, and William A. McGraw, Green Bay, secretary-manager.

Bay Buildings Burn Out of Control

All City's Crews Battle Fire In 3 Buildings on West Side

GREEN BAY (AP)—All of the city's fire fighting equipment was called out this morning to battle a blaze which raged out of control in three buildings on the West Side. No injuries were reported.

One of the structures was the three-story Blackstone Hotel. All occupants were reportedly evacuated after the fire was discovered in the basement of one of the buildings located

Michigan Fire Kills Four in Family of Six

KALKASKA, Mich. (AP)—Four members of a family of six perished today when a fire destroyed their roadside restaurant and home on U.S. 131 south of here.

Two teen-age daughters escaped the blaze, running a block in their bare feet and night clothes in 6 below zero temperature to give the alarm.

The fire swept a combination restaurant and filling station operated by Cecil Birmingham and his wife, Ovina.

The parents died with two other children, Donald and Valery, when all were trapped in the basement living quarters.

Their home and place of business, known as the Riverview Inn, was in the small town of South Boardman eight miles south of here, in northern lower Michigan. Kalkaska County Sheriff Earl Woodman and state police said the cause of the fire was not determined immediately.

The two surviving daughters, Marilyn, 18, and Paulette, 16, were taken to Kalkaska memorial hospital.

They were injured in breaking windows to escape.

Pistol Possible Clue In Biernat Murder

KENOSHA (AP)—A rusty .32 caliber pistol found along a highway Wednesday was turned over to officers investigating the gang-style slaying of juke box distributor Anthony Biernat, 46, last month.

William P. Schmitt, an investigator for the sheriff's department, said he did not think the weapon was connected with the case. The gun was discovered near a county road by a State Highway Department employee. Schmitt said there were no fingerprints or blood stains on the gun. The hammer had been broken off.

WASHINGTON (AP)—The Navy is enlarging its fleet of tender ships and floating drydocks to provide more floating overseas bases for its Polaris submarines.

Included in the new shipbuilding program submitted to Congress in the defense budget is a request for funds to construct a fifth tender and to convert another floating drydock capable of servicing the larger, 425-foot long Polaris submarines.

Details were disclosed in testimony Wednesday before the House Armed Services Committee by Vice Adm. Charles D. Griffin, deputy chief of naval operations for fleet readiness.

6 Tender Ships Needed

For the planned fleet of 41 Polaris submarines, the Navy estimates it will need six tender ships with accompanying craft. Two tender ships are now in commission. A third was launched last month and a fourth is under construction.

When the concept of the Polaris submarine-missile system was first presented, it was argued that such a system would not need foreign bases. This view still is expressed. But the original thought has been modified to the program of floating bases which can provide routine supply and minor repair needs, and a change in crews without a submarine having to make the long cruise to the United States and then back to its station at sea.

Spectacular Fire

MARKESAN, Wis. (AP)—A spectacular fire whipped by 40 mile an hour winds and battled by firemen in 14 below zero weather destroyed a landmark farm home on the outskirts of this Green Lake County community early today.

Owner Roger Helpap, his wife and two daughters escaped without injury. They managed to save some personal possessions and a few items of furniture.

The blaze could be seen for miles as it swept the two-story frame home, erected nearly 100 years ago.

Smelled Smoke

Helpap said he had banked the fire for the night, but smelled smoke a short while later. The basement was filled with flame when he opened the door.

The fight against the flames was hampered when hoses froze. There was no immediate estimate of the loss.

\$3.5 Million Theft Revealed

NEW YORK (AP)—Disclosure of the theft of more than \$3.5 million in stock certificates from an elderly widow's home excited Wall Street today.

The disclosure resulted from a securities firm's warning that stolen stock certificates were being presented for transfer.

An FBI spokesman said the theft occurred more than 17 months ago at the home of Theresa N. McSweeney in suburban New Rochelle, N.Y.

Mrs. McSweeney is the widow of Henry McSweeney, a corporate lawyer who died in 1946.

The theft was at first reported as a minor one.

WASHINGTON (AP)—President Kennedy put his battered plans for health care of the elderly into new wrappings today—part of a \$10 billion, five-year plan aimed to better life, income and housing for senior Americans.

But it was bound to be old hat to Congress.

Besides the expected, and once-defeated, proposals for hospital insurance for the aged through Social Security, the President asked again for tax benefits for the elderly, part of his tax message last month.

The hospital insurance plan is expected to cost \$5.6 billion for the first four years, the tax benefits \$3.9 billion for the first five years.

Additional Proposals

Thus, in this special message on problems of the aging—the first ever by an American president—the two biggest money

items and all but a fraction of the total money package are quite familiar.

But, in addition, the President called for:

More money for low interest loans to build rental housing for elderly persons of moderate income.

New emphasis on building group residences for the elderly where central dining and housekeeping services are available, some nursing care can be provided, but privacy is preserved.

Hospital Insurance

More jobs for those past retirement age who want to work—including a directive to federal agencies to evaluate applicants and employees on the basis of ability, not age.

In all, the President recommended 36 ways to better the lot of senior citizens. But the heart of the program was hospital insurance. Concurrent with the President's message, a new administration bill was to be introduced in Congress.

It was basically the same as a bill stymied by Congress last year. And it did nothing to bend to previous objections of the American Medical Association to any plan financed solely by Social Security.

1962 Bill Died in Committee

Nor is there room in the new bill for private or voluntary health insurance plans to get into the picture, except as additional insurance. This had been suggested to some degree by liberal Republicans who offered their own Social

Missing Ship's Owners Plan to Inspect Debris

KEY WEST, Fla. (AP)—Owners of the missing tanker Marine Sulphur Queen planned an inspection of debris today while Coast Guard ships searched south of Key West for traces and survivors of the ship that vanished after sailing Feb. 2 with 39 men aboard.

An unidentified flare and floatman lettered "Sulphur Queen" stimulated the search. The Coast Guard had no assurance that the light had anything to do with the 323-foot vessel.

One possible explanation—that the flare was fired by the crew of a missing light plane—was eliminated when the plane was located on the ground at Miami. It had been thought missing on a flight from Miami to the Bahamas.

A Coast Guard spokesman in Miami said a representative of the Sulphur Queen owners, Marine Transport Lines, Inc., would examine debris brought ashore by a cutter.

Prairie Fires

OKLAHOMA CITY, Okla. (AP)—Prairie fires fanned by winds up to 50 miles an hour swept across thousands of acres of parched Oklahoma grassland Wednesday.

An Indian Agency headquarters and 15 houses were destroyed and oil storage tanks exploded. Two firemen were burned and two others overcome by smoke.

Officers said two fires were set by arsonists.

Farm land is dry as tinder. Since Jan. 1, Oklahoma City has recorded only 30 of an inch precipitation compared with a normal 2.30 inches.

The largest fire, near Fairfax in northern Oklahoma, raced across an area 10 miles long and up to 7½ miles wide, destroying the Gray Horse Indian Agency building and two homes.

Between Otho and Drenright in East-central Oklahoma, six homes were leveled when fire burned over an area seven miles long and a mile wide. A battery of oil storage tanks exploded near Otho.

WASHINGTON (AP)—President Kennedy ordered the armed forces today "to take all necessary action" to prevent a recurrence of Wednesday's rocket attack by Cuba-based MIG planes on an American shrimp boat.

Kennedy's action was announced by the White House, which attributed the attack in the Florida Straits to "Cuban aircraft."

In a second announcement, the White House said the Soviet Union has told this government that several thousand Soviet military personnel will be withdrawn from Cuba by the middle of March.

It said the Soviet personnel being withdrawn had to do with guarding the kinds of weapons which already have been re-

MOVED FROM CUBA, as well as some military specialists who have been training Cuban military cadres.

Strong U.S. Protest

As for the shrimp boat incident, press secretary Pierre Salinger read newsmen a statement reporting that "a strong protest" against the firing of MIG rockets at the shrimp boat Ala has been sent to Havana via the Swiss government.

The United States government will expect a full explanation from Cuba," the statement said.

Swiss channels were used to forward the note because the United States does not maintain diplomatic relations with Cuba.

The key sentence in the White House statement read:

"Orders have been given to the armed forces to take all necessary action against any repetition of such an attack."

The shrimp boat was not hit by the rockets.

The MIGs-shrimp boat incident occurred Wednesday but was only disclosed by the Pentagon this morning. The Defense Department said two MIGs flew by the shrimp boat, Ala, and fired rockets but did not hit it.

May Involve Mystery

The sudden MIG assault inevitably raised the question in speculation here as to whether the shrimp boat might afford some clue to the mysterious fate of the tanker Marine Sulphur Queen, which vanished Feb. 2 on a voyage between Beaumont, Tex., and

WASHINGTON (AP)—Rep. John W. Byrnes, Green Bay Republican, wants recruits for a "crusade for puritan prudence" in governmental spending as a prerequisite to tax reforms and cuts.

The congressman, who is a member of the House Ways and Means committee which is holding hearings on the Administration's tax reduction and reform bill, said that "it is time that we tailor our tax laws to the needs of the economy and that we tailor our expenditures to the needs of our tax laws."

Discipline Needed

Stating that "prudence" is defined as "the ability to regulate and discipline oneself through the exercise of reason; and skill or sagacity in the management of practical affairs," Byrnes said there is nothing we need more than "prudence" in the management of our fiscal affairs.

As specific examples of how the government can cut its expenditures, Byrnes suggested a "moratorium on all new programs," in-

Telephone Firm Reports Earnings

Clintonville Company Re-Elects Two Directors at Annual Meeting

CLINTONVILLE — Directors A. O. Sander, Shawano, and Thomas O'Connor, Clintonville, were re-elected to three-year terms at the annual stockholders meeting of the Urban Telephone Corp. on Feb. 14.

Pres. F. H. Schafer reported to the stockholders that 1962 earnings declined \$7,286 from the 1961 earnings although revenues increased \$22,412. Combined dividends paid in 1962 amounted to \$51,895. The number of telephones in service during the year increased by 247 making a total of 10,324.

Additions to the telephone plant during the past year were \$255,897. The corporation handled 556,752 long distance messages in 1962, a slight increase over the previous year. The sum of \$77,394 was collected from subscribers in federal excise tax and paid to the federal government.

The corporation's program is continuing to improve service for subscribers and to put plant and equipment in condition for further modernization. In 1962 two positions were added to the long distance switchboard at Clintonville to permit handling a larger volume of messages, and an extensive addition of terminals and automatic equipment was added in connection with the program to reduce the number of subscribers on rural lines to six.

Extended area service between Shawano and Cecil was placed in operation last summer. At Shawano additional central office equipment has been purchased and installation is now being completed. It will allow for growth and continuation of the program of reducing the number of rural party line subscribers to six or less per line.

New London Firm, Union Agree to Terms

Barn-O-Matic, UAW Sign 2-Year Pact With Pay Increase

NEW LONDON — Negotiations were completed and a two-year contract signed Wednesday between Barn-O-Matic and the United Auto Workers according to a joint statement of H. W. Lacey, director of industrial relations for Barn-O-Matic and Harvey Kitzman, director, region 10, International Union of United Automobile, Aerospace and Agricultural Workers of America and William Thoma, president of Local 1025.

While complete details of the settlement were not disclosed, both company and union expressed satisfaction that the settlement was fair and equitable.

The new agreement provides for an immediate wage increase and additional increases on the 12th and 18th month anniversaries of the agreement. The contract also provided for improved vacation holidays and group insurance coverage.

Lacey added the general atmosphere which prevailed throughout our negotiations were both wholesome and productive.

Certified Agent

The UAW was certified as bargaining agent for the production and maintenance employees at Barn-O-Matic Inc. on Nov. 28, 1962. Negotiations got under way in the latter part of December. Agreements were reached Feb. 7.

Barn-O-Matic Inc. manufactures a complete line of Barn cleaners, silo unloaders and bunk feeders. The company began operation at Iowa in January 1958 and moved to its present New London location in January 1960. In February 1962 the company became a subsidiary of Avco Corp. with Gordon Carew, one of the founders as president.

"I present the company has 44 employees with 32 of them on the production staff."

Emergency Society Gift Starts Aid Program for Half-Way House

BY FERN SMITH
Post-Crescent Staff Writer

MENASHA — Development of a half-way house took a step forward Tuesday when the Menasha Emergency Society pledged \$10,000 towards its inception. Mrs. Henry Tolette, president in making the announcement, said it was the society's way of giving impetus to the plans of the Work Adjustment Services, Inc.'s study and need for such a facility.

A second contribution was made at the Neenah-Menasha Community Council luncheon on Tuesday when the Zonta Club of Neenah-Menasha gave its check to Mrs. Thomas C. Catlin, president of the Winnebago County Health Association.

Form Committee

"It is hoped that a half-way house will soon become a reality in Menasha," Mrs. Catlin said. "A committee is now being formed to go ahead with plans. Membership of this committee will be announced soon."

"This half-way house will be designed to give additional help for the community adjustment of long-term hospitalized patients and it will provide the long-needed additional service for the rehabilitation of patients in Winnebago County who leave Winnebago State Hospital cured of their mental illness and take jobs at the Work Adjustment Services, Inc. action for Mental Health" has been the philosophy of the Winnebago County community and it has implemented it by first establishing a broad program of volunteer services and secondly by the Work Adjustment Services, Inc., Menasha. A second center, under the same auspices and with the same professional direction, is planned for Oshkosh this spring.

Supplements

The need is great. The Rehabilitation Service of the State Board of Vocational and Adult Education has found in many cases that it cannot "counsel" a hospitalized patient to a state of job readiness through supplying occupational information, employment information or vocational training alone. Many patients, recovered from mental illness are not able to adjust to the stresses of a job and a new social situation at one and the same time. Short term patients can be speeded in their adjustment to society by the intermediate aid of a half-way house. For the chronic or long-term patients it is often an outright necessity to have additional means for community adjustment.

Youthful Driver Fined \$65 in Calumet Court

CHILTON — A New Holstein teenager who led Chilton police on a high speed chase was fined \$65 by Judge D. H. Sebora in Calumet County Court this week.

Ralph C. Brill, 19, route 1, New Holstein, pleaded guilty of reckless driving. A speeding charge was dropped by police. Brill was arrested by Police Sgt. Dan Al-bodryl Feb. 3 but not before a roadblock set up by New Holstein police halted the youth.

\$200 Taken In Break-in At Potter

POTTER — Calumet County authorities are investigating a break-in at the Potter elevator where some \$200 was taken from the safe sometime Tuesday night or early Wednesday morning.

Sheriff C. J. Kosmosky said the burglary and safecracking was discovered about 8 a.m. Wednesday by Jack Vogt, an elevator employee. Kosmosky said thieves gained entry by jimmying the lock of a west door. The dial was knocked off the safe, and the thieves apparently removed the cash box before being driven from the office by tear gas released when the dial was smashed.

The thieves retreated to the elevator and rifled the cash box taking only money, police said. Checks and other papers were left behind.

The cash loss was estimated at \$200 by Raymond Rusch, elevator proprietor. Kosmosky believes the break-in is linked to several elevator break-ins in Manitowoc County.

Tickets Out For Musical At Waupaca

High School Will Give 'Brigadoon' On March 8 and 9

WAUPACA — The sale of tickets for the Waupaca High School production of the musical "Brigadoon," was launched this week.

Tickets for the March 8 and 9 performances are being sold by high school students and several business places in Waupaca.

The musical set in Scotland, deals with the mysteries of the city of Brigadoon which comes to life for one day every 100 years. That day of life centers around the excitement of the wedding of Charlie Dalrymple, portrayed by Glen, Guy Basvogel and Jeanne McLaren, played by Jean Woolsey.

The day's activities are interrupted by the appearance of two lost American hunters. One of the Americans, portrayed by Don Winkler, a baritone falls in love with the bride's sister, enacted by Jane Elliott, a soprano. The other American, portrayed by Glenn Pasvogel, is chased by the village character casted by Amy Schlichting, an alto.

The play includes many dances and songs. It is the first time in the history of the school a musical presentation was attempted. In charge are Miss Sharon Swanson, Samuel R. Winch and Gerald Knoepfel vocal and instrumental music instructors.

Workshop Held For 130 Teachers

About 130 teachers from Catholic schools in the Appleton area attended a one-day workshop today at Sacred Heart Catholic School on the new mathematics program that will be introduced next fall.

Teachers from Catholic schools in Appleton, Greenville, Hortonville, Mackville and Darby, the Rev. Richard Kleiber, superintendent of the Green Bay diocesan school system, and diocesan school supervisors attended the workshop, which was conducted by representatives of the publishers whose math books will be used in the program.

Eleven Girls, 10 of Whom are Waupaca High School students, are competing in the snow princess contest as part of the first annual Waupaca Winter Carnival Saturday and Sunday. The princess will be crowned Sunday afternoon at Chalmers Ski Club. In the front row, from left, are Judy Erickson, Judy Mittelstaedt and Mary Braatz, second row, same order, Judy Paulson, DeeDee Peterson and Cindy Wilson, and back row, Karen Jenkins, Donna Jorgenson, Eileen Ecklund and Patti Vaux Ardyce. Danielson, the other contestant, is a student at Stevens Point State College. (Post-Crescent Photo)

Airport Committees Reach Two Conclusions on Study

Twin City, County Units Discuss 4 Possible Firms

OSHKOSH — The engineering study of the Winnebago County airport requested by the Neenah-Menasha Chamber of Commerce came a step closer to realization as the result of agreements reached at a meeting Tuesday night of the aviation committee of the County Board with Twin City and Oshkosh airport groups.

The nature, scope and possible firms to do the survey were discussed at a two-hour meeting at which two basic conclusions were reached.

1. The district attorney will prepare a rough draft as to the information sought in the engineering study. This will be submitted to the aviation committee for review and then to the airport committee of the Neenah-Menasha Chamber of Commerce and the Oshkosh Citizens Committee for the Winnebago County Airport for their suggestions.

From Twin Cities

These two groups will indicate if there is additional information they would desire or if certain information listed is unnecessary or duplicates other information being received and could be deleted from the engineering survey. The aviation committee then will prepare the final statement as to the scope of the survey.

2. A fourth engineering consulting firm will be considered along with the three now under consideration for making the study. This fourth firm is that of James Buckley of New York City. The other three are Howard Needles Tammen and Bergendoff of Kansas City, Charles L. Barber and Associates of Toledo and Maurice H. Connell and Associates of Miami.

Representing the Neenah-Menasha Chamber of Commerce at the meeting were its president, Donald C. Shepard Jr., and its executive secretary, John Konrad. Attending from the Oshkosh Citizens Committee were T. C. Wilder Jr., M. Edward Kelly, executive vice president of the Oshkosh Chamber of Commerce.

Henry Kimberly and Theodore Gunz

Also sharing in the meeting were Steve Wittman, airport manager, and Al Pinckley, chief pilot for Marathon Division of American Can Co. Both Wittman and Pinckley had made a detailed study of three of the firms considered for the survey.

Pinckley said there were six top consulting firms in the country and that two of them, Leigh Fisher and Associates, and a drum and Brown had been eliminated because of work they had done or were doing for Outagamie and Brown Counties respectively. The Buckley firm was not considered because its name had been mentioned in a previous discussion and Wittman and Pinckley wanted their study of possible firms to be completely impartial.

It was agreed that the Buckley firm will be added to the other three under consideration.

The basic nature of the engineering study it was mutually decided during the discussions, is what are the needs for the future and how does the Winnebago County airport fit these needs and what should be done to meet future needs.

Symphony Members Perform for Clubs

BONDUEL — Four members of the Green Bay Symphony Orchestra presented a concert when the Bonduel Woman's Club and the Bonduel Rotary Club had a joint meeting Monday.

Hostesses were Woman's Club members Mmes. Reuben Monroe, Fred Westphal, Hans Lawrence, Harvey Heck, Wilbur Krueger, Norbert Boettcher, Harry Martin and Norman Senzig. Herman Marton and Donald Aderhold.

Farm Woman Injured

LEEMAN — Mrs. Cecil Carpenter was hospitalized at New London Community Hospital Saturday with a broken hip after she slipped and fell while helping with chores at the family farm, route 1, Shocton.

Barn-O-Matic, of New London signed a two-year contract with the UAW. Present for the signing of the contract were, from the left, James BeeBee, Barn-O-Matic, director of manufacturing, Gordon Carew, president of Barn-O-Matic, Garry Lacey, director of industrial relations for Barn-O-Matic, Harvey Kitzman, director of the UAW Region 10, and William Thoma, president of Local 1025. Standing, same order, are Chris Gerber, international representative of UAW, Robert Riska, secretary of local, Elker Zarnoff, International representative of UAW area 10, and Don Loken, local vice president. (Post-Crescent Photo)

Chilton Planning To Adopt Uniform Fire Traffic Law

Fire Chief, City Attorney Are Drawing Up Parking Ordinance

CHILTON — Calumet County, none of the city adoption of a uniform fire traffic control ordinance. Chilton Fire Chief Norbert Sturm told the city council Tuesday night when he asked that Chilton follow suit.

His proposed ordinance would establish one-side parking on streets or roads at the scene of a fire. Vehicles of unhookers or volunteers could be parked only on the side opposite the blaze.

Until the city's fire chiefs at a recent meeting at Hilbert, decided to push for a uniform traffic control ordinance, police had no jurisdiction or authority to order vehicles to move from areas where they were blocking traffic at fires.

Purpose of Law

Primary purpose of the ordinance is to keep narrow town roads clear so fire fighting equipment, especially tank trucks carrying water, are able to maneuver freely to and from fires. Parking on both sides of narrow roads all but blocks them, Sturm told the council.

Chilton already has an ordinance limiting parking on the city block where a fire occurs but has

Teachers Call Harry Hebard Kind of Quiet

Youth Had Been Average Student At West High School

BY DAVE OTTO
Post-Crescent News Service

GREEN BAY — An average kid, kind of quiet, but the type that wouldn't cause trouble for any one.

This is how West High School faculty members Wednesday characterized one of their students, 16-year-old Harry Hebard, who Monday night wiped out five members of his family by shooting them in their heads.

"Harry was an average garden variety youngster who had never been referred to my office for academic discipline," Principal George Dauplaise said.

School records show that Hebard was carrying about a C average but that his classwork had fallen off noticeably in the past several weeks.

Junior Standing

He had a junior standing at the school. His attendance record, according to Dauplaise, was excellent showing only one and a half days absence this year.

The half days absence was Monday afternoon, just before the killing.

James Block, a drafting instructor, was the last teacher to see Harry Hebard before the killings. He said that Hebard refused to do any work in the class just before noon hour, and when pressed, the youth told Block he had made an appointment with the guidance department for Monday afternoon. A check with that office, however, revealed there was no such appointment.

Block said Hebard was a "likable" youth who was very quiet. He didn't apply himself too well in class, but caused no problems for the teacher, Block said. The youngster acted strange Monday morning but a conversation with him revealed nothing wrong, Block added.

Miss Nina McCandless, Hebard's advanced algebra teacher, described him as "kind of dreamy." He always appeared to be off somewhere. She added that Hebard certainly wasn't the kind of a boy you'd expect to kill somebody.

"I had a lot of trouble getting next to Harry, but then a lot of people had the same trouble," Miss McCandless said. She believed Harry had the potential for good work in her class but didn't apply himself too well, she said.

No Trouble

"He was a perfectly normal boy, kind of quiet, but lots of people are quiet," noted Miss Helen Goldmann, the boy's American history teacher. Miss Mary Meikle, his English teacher, echoed these feelings nothing he was the average type that you just don't notice very much.

"I certainly couldn't describe

3 Accidents Reported Near Bonduel on 47

BONDUEL — Damages but no serious injuries resulted in several traffic accidents on State 47 near here over the weekend.

Damages of \$750 resulted Saturday when a car driven by Betty Noack, 19, Black Creek, was struck from behind by a car driven by Wayne Peebles, 23, of Watonsa. No one was hurt.

A car driven by Donald Diemel, 22, route 1, Shocton, was demolished in a one-car accident seven miles south of Bonduel. The car went into the left ditch and overturned. The driver and the passenger, Arlen Puen, 25, route 1, Bonduel, were taken by Born Ambulance to Shawano Community Hospital where they were given first aid and released.

Two cars collided Sunday just south of Bonduel causing damages of \$700 but no injuries. The drivers were Louis Andresek of Green Bay, and Antone Robadek of route 1, Pulaski.

WERB to Set Date For Vote on Union

AFL-CIO Unit May Represent Waupaca County Highway Group

WAUPACA — The Wisconsin Employment Relations Board will set the date for an election to accept or reject Local No. 1756 of the American Federation of State, County and Municipal Employees AFL-CIO as the bargaining unit for Waupaca County Highway Department employees. The decision was made Wednesday afternoon at a public hearing at the courthouse.

County officials and representatives of the newly organized county union agreed on the employees who are eligible to vote on the issue.

James L. Greenwald, Madison examiner with the WERB said the election will be within one month from the date of the hearing, on a weekday afternoon from 2 to 5 p.m. at the county highway office at Manawa.

Same as Holiday

Fred Grunwald, county highway commissioner and Supv. Carl Sturm, Manawa chairman of the county board agreed the workers will be given the afternoon off to vote. It will be similar to a paid holiday.

Greenwald said a representative from his office, a representative of the county and a representative of the union will supervise the election.

Robert W. Swanson, Appleton, representative of the Wisconsin Council of County and Municipal Employees AFSCME AFL-CIO and officers of the local took part in determining which of the employees will be eligible to vote. District Atty Gerald K. Anderson.

Voter List

A list of 111 county highway department employees was selected. The list excludes the highway commissioner, supervisory personnel and confidential clerical personnel.

Notices of the election date will be sent to all of the county highway department offices at Clintonville, Marion, New London, Manawa, Iowa and Waupaca.

Greenwald said a majority will decide the outcome of the election. Officers of the local also attended the hearing. They are John Prinson, New London president, Gordon Klug, Weyauwega, vice president, Delfred Larsen, Scandinavia secretary and Corrin Flaata, Iowa treasurer.

Speed Skating Will Open Winter Carnival

Former Olympic Star of Oshkosh, Miss Maddy Horn, Will Be Guest

WAUPACA — Events in the first annual Winter Carnival will open with speed skating championships at 1 p.m. Saturday at Shadow Lake according to Ray Hemmingson and J. Fred Gohl, co-chairmen.

The races sanctioned by the Wisconsin Skating Association will honor entries until 12:30 p.m. Saturday. Twelve classes will be run with trophies in each class and other awards.

A skating carnival is scheduled at Shadow Lake from 7 to 9 p.m. Saturday for all area high school boys and girls. It is sponsored by the Cornet Cove Youth Center. Activities will be resumed from 9 to 11 p.m. at the Cornet Cove.

While ice skating races are in progress, free skiing will be provided at Chalmers Ski Club from 1 to 4 p.m. and from 7 to 9 p.m. Saturday.

Highlighting the carnival will be the crowning of the snow princess.

Contestants

They are Patti Vaux, DeeDee Peterson, Judy Erickson, Judy Mittelstaedt, Mary Braatz, Cindy Wilson, Karen Jenkins, Donna Jorgenson, Eileen Ecklund, Judy Paulson and Ardyce Danielson.

A grant slalom will follow the coronation. It will be a 14-gate competition with three classes. Trophies will be awarded to the winner of each class. Entries for the skiing events will close at 9 p.m. Saturday. All skiers have been asked to take part in the coronation ceremonies by forming a "cort" for the princess.

One of the distinguished visitors will be Miss Maddy Horn, Oshkosh one of the greatest speed skaters of all time. She represented the United States in the Olympics and won many national and international titles.

Sue Murrow Was crowned queen of the Manawa FFA-FFA Valentine dance at Manawa High School. From left are Judy Phelps, Kay Kanke, Ginny Yohr,

Brilliant at Valders

Chilton Host to New Holstein Five

EASTERN WIS. CONFERENCE
 Plymouth 18 2 Chilton
 Sheboygan Falls 18 2 Oostburg
 Valders 18 2 Brillion
 New Holstein 18 2 Kiel
 Elkhart Lake 18 2 Kohler

CHILTON — Going into the final games of the season Friday night the Eastern Wisconsin Conference title is still very much in doubt.

Three teams, Valders Sheboygan Falls and Plymouth, are deadlocked going into the final pairings but a three way tie will be impossible. Plymouth and Falls clash at Sheboygan Falls with the winner assured of at least a share of the crown.

Valders, meanwhile, has a schedule break that makes the Vikings a good bet to clinch a piece of the title. Valders plays host to Brillion.

Taking a lesson from Sheboygan Falls' bitter experience a week ago it is unlikely that the Vikings will be taking their second division foe lightly. Last week a powerful Falcon quintet was stunned by lowly Kohler in the upset of the year when a victory would have nailed down the title for the Falcons with Valders losing to New Holstein.

Title at Stake
 With the home court advantage and the title at stake, Valders rules as favorite Brillion however, should be rebounding from the 96-60 drubbing it was handed by Plymouth last week and the Lions could be dangerous.

The feature tilt will be at Sheboygan Falls. This week the host Falcons will be playing the game they no doubt were looking ahead to last week when ambushed at Kohler. Before the overtime up

New London Archers Win Forfeit Match From Fond du Lac

NEW LONDON — The New London Bowmen Archery Club defeated North Fond du Lac in last week's mail match. The win was by a forfeit Tuesday night the club shot against Waupaca in the mail match but the score will not be known until next week.

High shooters in this week's mail match were Bob Cupp 708, Clair Baehman 666, Del Palmer 548 and Harold Earl 628. In the junior shoot the top score went to Mark Thayer with a 378. He was followed by Jan Close with a 329 and Steve Fischer who had a 252.

The next shoot will be at Elberts Hall next Tuesday night with the juniors starting at 6:30 p.m. and the adults at 8 p.m.

Dartball Tournament Set at Clintonville

CLINTONVILLE — A dartball tournament will be held Sunday at the Christus Lutheran parish hall beginning at 1 p.m. Francis Williams is the tournament chairman and Eugene Dexter is chairman of refreshments.

In the first game Caroline versus Clintonville, Morris versus Big Falls, Dupont versus Tigerton and Pella versus Split Rock. There will be seven games played in the tournament.

Mixed Curling Champs

WAUPACA — The Chevrolet team won the Waupaca High school mixed intramural curling title with a 7-6 decision over Limons. Members of the winning team are Dennis Girard, skip Bill Poley, Nancy Johnson and Jane Behm.

Teachers Call Harry Hebard Kind of Quiet

CONTINUED FROM PAGE 1

him as a boy with mental trouble," said Floyd Dietzo, Hebard's chemistry teacher. Hebard was in Dietzo's class Monday morning but the teacher didn't notice any unusual behavior or the boy's part. Dietzo also noted that Hebard was not a very good student and he "didn't contribute much to class."

A close insight on Hebard's personality was provided by Mike Powers, who coached the boy in track.

Worked Hard

"Harry worked very diligently at the sport," Powers noted, "and we considered him a diamond in the rough in the mile run." After topping the squad in the first time trials however, Hebard suffered an ankle sprain that hampered his running the rest of the year. He did not win a letter but he certainly was a good athlete," Powers noted. "He took defeat in stride, and was never

one to brag when he won." Rather than becoming depressed over his track injury, Hebard seemed to be spurred to work all the harder. He even had a small track set up at home where he could get extra practice.

Powers also said that Hebard was not the "lone wolf" variety, but rather that he mixed well with his teammates, especially those of his sophomore class.

Hebard entered West High in September 1961 after attending grade school in the Town of Hobart and Franklin Junior High. His aptitude tests show he had average academic ability, and there was no indication that his recent drop in grade was due to any special problems or depression.

Guidance office records indicate that Hebard participated in JV football as well as track, was member of a church club and member of a church club and choir and had organized and captained a neighborhood football team.

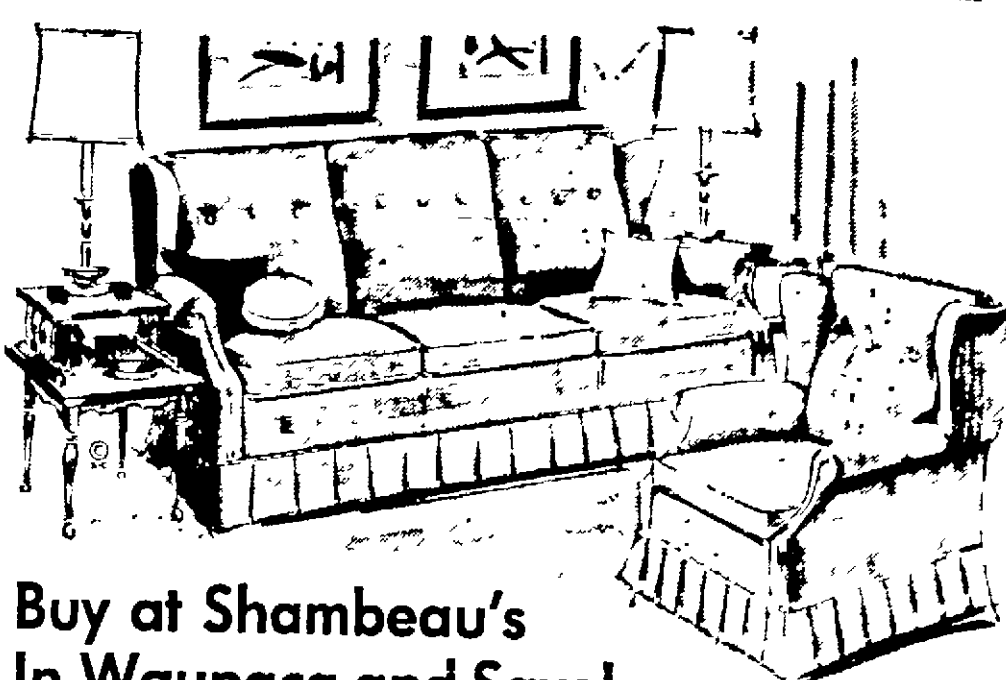

His ambition was to become an architect.

Post Office Hours

BEAR CREEK — The post office will be open from 8 to 10 a.m. only Friday. Washington's birthday. There will be no rural delivery.

School Custodian

AMHERST — Kenneth Carey
has been chosen chief custodian
of Tomorrow River Schools from
a field of 15 applicants. He will
replace Sherman Borgen, who is
returning March 1.

It Will Be Colder Tonight in the eastern two-thirds
of the nation. There will be snow flurries over the
Lakes and Ohio valley while the gulf coast will have
local showers. (AP Wirephoto Map)

15 Below Today

-12 Friday, Warmer Weekend Predicted

To repeat a familiar phrase this
winter, it'll be cold again Friday.
But the weatherman has decided
to be surprisingly generous, pre-
dicting moderating temperatures
and warmer weather for the week-
end.
The U.S. Weather Bureau in
Green Bay -- temperatures will
remain very cold tonight, with a
low of 12 below, but begin climb-
ing Friday, reaching a high of 10
above, compared to today's pre-
dicted high, plus 3.
The weather bureau also said
there is a good possibility of snow
flurries Friday.
Appleton's cooperative observer
for the U.S. Weather Bureau, the
Wisconsin Michigan Power Co.,
recorded a low of 15 below at 7
a.m. today. The mercury had
climbed to only a minus 13 by 10
a.m. The power company record-
ed 16-mile-an-hour winds from
the northwest this morning.

Neenah Reading

In Neenah, WINAM Radio's
WeatherScope listed 11 below at 5
a.m., 14 below, the low, at 7 a.m.,
and a rise to 11 below again at 9
a.m. The device also recorded
westerly winds averaging 20 miles
an hour today.
Unofficial temperature reports
include 24 below at Winchester, 14
below in downtown Menasha, and
24 below at Jefferson School in
Menasha.
Appleton observer Ralph Dorn

Marion High School Conducting Study Of Former Students

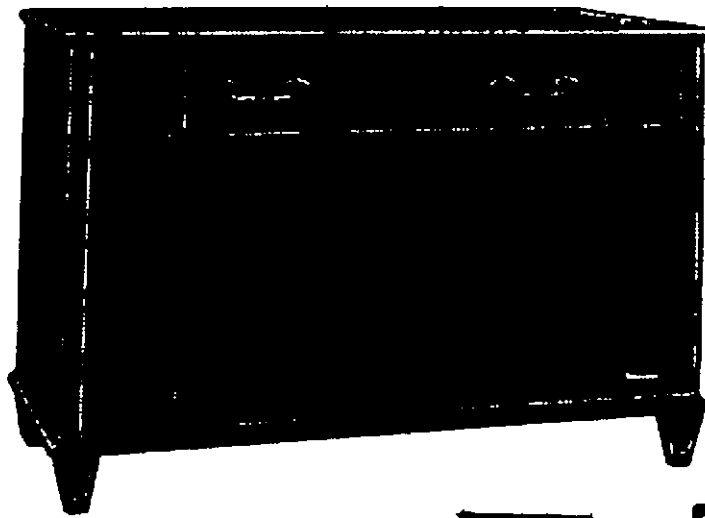

MARION — A 10-year follow-up
study is being conducted by the
Guidance department of Marion
High School.
All graduates in the last 10
years will be sent a question-
naire. The results, once compiled,
will assist the school in evaluat-
ing its curriculum, courses, course
content and how well it is pre-
paring students to meet the fu-
ture.
The student council will gather
graduates' addresses and will as-
sist in the mailing and compiling
process.

More Families Receive Surplus Food in Area

United Counties Distributors' Head Lists February Totals, Releases March Schedule

NEW LONDON — A heavy surge of people receiving surplus food under a new program to aid low income families has occurred during the month of February, according to Ted Thomas, executive of United Counties Distributors. Schedules for the coming month where families can pick up food were released Wednesday in Winnebago County, one of

Chilton Hopes To Keep Grant

City Council Asks Extension Date on Sewer Project Fund

CHILTON — Measures to protect the \$97,933 federal grant in aid for sewerage plant rejuvenation made available to the city a year ago have been taken by the city council.

The district health, education and welfare committee, federal administrators of the funds, has directed a letter of inquiry to the city asking why contracts have not been sent to the committee for approval. The letter points out that if it seems likely that contracts for the remodeling work will not be awarded before the April 19, 1963, determination date, the committee should be notified.

The council will ask for a one-year extension. The grant caught city officials somewhat by surprise when it was extended to the community before it was expected.

No plans have been made to proceed with the \$226,446 sewerage plant remodeling project, primarily because no funds are available and the project was not included in the budget.

Season Ends For Grade Teams At Clintonville

CLINTONVILLE — The basketball league of fifth and sixth graders ended its season Saturday at the Clintonville Senior High School gym. Coaches of the teams were members of the varsity basketball squad. Director of the program was Coach Carl Bruggink. The boys played Saturday mornings for eight weeks at the gym.

The final standings for the sixth graders were Rosnow's Raiders in first place with 6 wins and 2 losses; Nienke's Packers, 5 and 3; Melzer's and Hoffman's Thunderbirds, 3 and 5; and Postel's and Tveten's Globe-Trotters, 2 and 6.

For the fifth graders, Holm's Hawks and Hedtke's and Schmidt's Celtics tied with 5 wins and 3 losses, and Thompson's and Korb's Lakers and Dieck's Trucks tied with 3 wins and 5 losses.

The boys were treated with hot chocolate milk, courtesy of Crystal Fountain Dairy, on the final day of play.

Women Begin Plans For Diocesan Event

CHILTON — Twenty women, representing Calumet County Catholic congregations, met Monday night at St. Augustine parish to launch plans for a spring Calumet Diocese, Diocesan Council of Catholic Women meeting.

The event has been scheduled for 8 p.m. April 30 at St. Peter and Paul auditorium, Kiel.

Attending the planning session were presidents and other delegates from the Calumet Diocese's affiliate units. Mrs. Wilmer Wolf, Kiel, presided.

Development of a traffic safety theme for the April meeting commanded major attention at the planning session. The theme was selected by Bishop Thoma. While it is expected that all groups will make some type of contribution to the safety theme, direction of the program will be handled by the social action committee. Mrs. Richard Luehrs, New Holstein, is chairman.

Mrs. James McGrath, Chilton, chairman of the foreign relief committee, urged members of all affiliated units to keep accurate records of contributions in time materials and cash donated to the program so that a full report may be compiled.

The need for more and better reading material was stressed by members of the libraries and library committee which is headed by Eugenia Heehl, Kiel. Members were asked to save Catholic reading material for distribution to homes for the aged, and for use by migrant families who will come to the area within a few weeks.

In conjunction with Catholic Week, Mrs. James Knud, Kiel, reported briefly on revisions that have been made in the chapters of Isabella leading to a new work that has been done to update central libraries at St.

the latest counties to provide this service, the number of families receiving the surplus food jumped from 221 in January to 1,973 in the month of February. At the present time over 12,000 people in the six county area are receiving the commodities under the new plan. Counties served by United Counties Distributors are Waupaca, Winnebago, Shawano, Waushara, Portage and Fond du Lac.

February was the first month that food was distributed in Fond du Lac County and on the first day of delivery, in the city of Fond du Lac alone 630 families received food, Thomas said. On the second day of distribution in the city 533 people appeared. Figures for the third day in the city of Fond du Lac and the remaining parts of the county have not been compiled at the present time, Thomas added.

March schedules that have been released are for Shawano, Waushara, Winnebago and Fond du Lac Counties. The schedules for Waupaca County and Portage County are still incomplete and will be released at a later date, he said.

The schedule for Shawano County calls for first deliveries in the city of Shawano March 1 from 8:30 a.m. to 3:30 p.m. The bus which is used to distribute food will also be in the city of Shawano March 4 from 8:30 a.m. to noon and in Angella from 1:30-4 p.m. Other stops include Gresham, March 5, 8:30 a.m. to 12:30 p.m.; and Bowler 1:30-4 p.m.; March 6, County Trunk D and N (east), 8:30 a.m.-12:30 p.m.; and Birmamwood 1 to 4 p.m.; March 7, Tiger 8:30 a.m.-12:30 p.m. and in Wittenberg from 1-4 p.m.

Deliveries will be made in Winnebago County, March 8, in south Oshkosh from 8:30 a.m. to 3:30 p.m. Deliveries will be made during the same times in Neenah, March 11; Menasha, March 12; and north Oshkosh, March 13 and 14. Also on March 14 from 8:30-10:30 a.m. in Winneconne; 11 a.m. to 1:30 p.m. in Omro and 2:30-3:30 p.m. in Wolf River.

More Stops Listed

On March 15, 18 and 19 deliveries will be made in the City of Fond du Lac from 8 a.m. till 4 p.m. The bus will be in Ripon March 20, 8 a.m. till noon and from 1-4 p.m. in Waupun. Campbellsport will be visited from 8:30 a.m. till noon and Mt. Calvary from 1-3 p.m. on March 21.

Waushara County deliveries will be made March 18 from 8-10 a.m. in Coloma; 10:30-1 p.m. in Hancock and 1:30-3:30 p.m. in Plainfield, March 19, Waubesa, 9-11:30 a.m. and Wild Rose, noon to 3:30 p.m.; March 20, West Bloomfield, 8-10 a.m. Poyssippi, 9-10:30 a.m.; Pine River 11 a.m. to noon and Red Granite 1-3:30 p.m.

34th Anniversary

MEDINA — Mr. and Mrs. Orsen Dietz were entertained at a dinner party Sunday in honor of their 34th wedding anniversary. Hostesses were Mr. and Mrs. Eugene Niemuth and family.

Mary and St. Augustine schools in Chilton.

Her work with the PAVLA program — a group similar to the Peace Corps which sends volunteer Catholic workers into Latin America — was explained by Mrs. Lawrence Brunner, Kiel.

Mrs. Justine Harkins, Mrs. McGrath and Mrs. Victor Geiser were named to a nominating committee to prepare a slate of candidates for April elections. A newsletter will be issued to all affiliate groups prior to elections with Mrs. D. H. Sebora, Chilton, in charge.

Retreat dates for deanery members were set for July 30 through Aug. 1 at Monte Alverno, Appleton.

Chilton Garden Club Lists Activities for Year and Names 1963 Officers

CHILTON — Activities for the coming year were planned by the members of the Chilton Garden Club at their February meeting. The March meeting will be devoted to wildlife conservation with County Warden Keith Reichenbach the featured speaker.

In April, members will join with those from the New Holstein and Kiel clubs for a study of birds native to this area. Mrs. Harry Millard, New London, is slated to appear at the May meeting to head a study of wild flowers.

Selected gardens will be toured in June and the annual nature study trip and picnic is scheduled for July.

Mrs. H. Sam, Fond du Lac, will display arrangements made with weathered wood and driftwood at the August meeting with a study of trees scheduled for September. Fall care of perennials

Victor T. Broome, executive secretary of the Tri District Legion Washington Birthday Americanism dinner at Fond du Lac Saturday, shows a facsimile of a citation which will be awarded to an outstanding law enforcement officer from the Fox Cities area. From left are Mrs. Arno Schaefer, Chilton, Mrs. William Killeen, Oshkosh, Broome, Fond du Lac, Mrs. Arthur Kessler, Neenah, and Mrs. Lloyd Habermann, Brillion. (Thiel Photo)

Matheson's 770 Series Paces Boob's Bowlers to 2nd Place

WAUPACA — Norman Matheson again paced the King Archers with a high 770 for Boob's Bar as the team won a 3,485 to 3,381 decision over U. R. Next at the Waupaca armory.

The win jolted U. R. Next out of sole possession of second place in the league standings. McPherson Jewelry scored a 3,492 to 3,345 win over Rosicky's DX to share second place with U. R. Next and Boob's Bar.

Wisconsin Gas Co. is still in the lead with four wins and one loss and second place teams have three in each column. Rosicky's DX is trailing with one win and four losses.

Mel Matheson turned in the

Wisconsin Loses Case Tilt But Retains School Lead

WAUPACA — Indians triggered the upset of the season downing previously undefeated Wisconsin, 27-26, behind a 14-point effort by Raul Reyes in the Waupaca High School intramural basketball league.

Wisconsin retains the league

lead with 11 wins and one defeat. Michigan is in second place with nine wins and three lost. Other teams and standings are Illinois, 8-3; Northwestern, 6-6; Indiana, 5-6; Minnesota, 4-6; Iowa, 2-10; and Purdue, 1-11.

Teachers Hold Training Talks

Phonovision Method Of Phonetics Shown At Catholic School

CLINTONVILLE — An in-service institute on the phonovision method was conducted by Sister Mary Bernard for the faculty of St. Rose Catholic School on Saturday.

The phonovision method is a simple, easily understood system of teaching elementary phonetics in order to obtain earlier and better results in reading and spelling.

It is found that independence and the speed of learning are so enhanced that there is time for a greatly enriched program of creative writing and outside reading.

Uses Charts

The phonovision method is based on the use of pictorial charts arranged on a scientific phonetic foundation together with a definite plan for training auditory and visual discrimination. The three main steps in teaching the method are: initial consonants, initial and final consonants, and vowels and blends.

Sister Mary Bernard is an experienced elementary teacher. She received her master's degree from the Catholic University at Washington, D. C., having studied previously at Holy Family College, Manitowoc; Mt. St. Mary College, Los Angeles; St. Norbert College, and Temple University, Philadelphia.

Sister Mary Bernard has taught the phonovision method at Holy Family College, St. Norbert College, and Catholic University.

At present, she is teaching at St. Therese School, Appleton, where in addition to her classroom duties she is engaged in clinical speech therapy for students desiring her services.

Man Held At Waupaca For Moving Property

WAUPACA — James H. Schmidt, 29, route 1, Ogdensburg, was ordered held for County Court Wednesday morning by Municipal Justice George Whalen on a charge of fraudulently moving mortgaged property.

He was charged on a complaint signed by Charles Hoffmann, Manawa, representing Manawa Sales. It charges him with conveying 10 mortgaged Holstein cows to Jerry Van Camp, route 1, Kaukauna.

Municipal Justice Whalen set bail at \$1,000. Schmidt was committed to the county jail when he was unable to furnish bail.

Attorney Objects To Admission of Doctor's Statement

Judge Overrules Motion as Schuster Murder Trial Continues

BY DON CASTONIA

OSHKOSH — Admission of testimony Wednesday afternoon placing George Schuster in the home of Mrs. May Gokey the night she died was objected to by Schuster's attorney, Henry P. Hughes.

Hughes objected to the entire testimony of Dr. John T. Petersik, Oshkosh psychiatrist who examined Schuster on April 28, a week after the death of Mrs. Gokey, at the request of Dist. Atty. Jack D. Steinhilber. Hughes said the testimony violated the traditional patient-doctor relationship.

Steinhilber contended this relationship did not exist in this case and that Schuster had been so informed before he was examined and questioned by Dr. Petersik. Circuit Judge Arnold J. Cane upheld Steinhilber.

The 39-year-old Schuster, who now lives in Appleton, is charged with third degree murder in the April 20 death of Mrs. Gokey, who was 61. The state contends Schuster attempted to assault Mrs. Gokey, causing a fatal heart attack.

Dr. Petersik testified that when he awoke he saw Mrs. Gokey on the floor. The psychiatrist's testimony indicated that Schuster said he had tried to lift her onto the bed but could not do so. He then also failed in attempting to put her on the davenport. Schuster had said, Dr. Petersik continued, that he then went out to the front porch and fell asleep. He woke up about 4 a.m. and went home.

Williamovsky, who questioned Schuster the day before Dr. Petersik saw him, said Schuster also admitted being in the house but thought Mrs. Gokey was already on the floor when he went into the house.

Deafes Beating Her

Under cross-examination, Williamovsky said Schuster denied either beating or assaulting Mrs. Gokey.

Williamovsky also admitted Schuster was confused and that they's death and that he had "quite his recollection of that night prob-

ably was not good because of his state of intoxication.

In cross-examination of Dr. Petersik, Hughes read part of the psychiatric report of Dr. Benjamin Glover, Madison, who examined Schuster last May.

Dr. Glover reported Schuster was "passive and submissive" and under pressure his recall ability was very confused.

Dr. Petersik said he did not think Schuster was easily influenced by questioning.

Several witnesses were produced by the state who reported Schuster was in the Vice President Bar the night of Mrs. Gokey's death and that he had "quite his recollection of that night prob-

ably was not good because of his state of intoxication.

A Question of Taste

Gov. Reynolds saw most of the state's penal and welfare institutions for the first time when he visited them in connection with his budget deliberations last December. Like most other first-time visitors, he was disturbed by the unpleasant experience of observing hundreds of extremely handicapped children at the Northern Colony for the Retarded at Chippewa Falls.

The governor's decision to use all the resources at his command to win acceptance of his higher budget of appropriations will be applauded by many of his constituents, resisted by others. We would venture a suggestion, however, that most of them will regret his decision to put on public exhibition motion pictures of some of the patients he observed in one of the state hospitals.

This is primarily a question of taste. It is also a question of distortion of the facts. The governor does not suggest that these patients are ill-fed, ill-clothed, or neglected with respect to basic comforts and health care. He says the institution is overcrowded, and that is a fact. But a big addition to the hospital capacity had been authorized by the state building commission before he took the oath of office, and would have been built during this two year period had he been defeated in the last election. It has the highest priority on the welfare department list, and the standard building budgets by the legislatures of the last decade, which are virtually certain to be approved by this legislature, would have assured its authorization.

What then is the governor trying to accomplish by flashing on the screen, before public audiences, the empty faces and the deformed bodies of these unfortunate creatures in the state's care?

The suspicion is likely to be, among

discerning and informed persons, that he is cynically exploiting the shock value of these selected scenes to organize political support for the highest budget of expenditures on record, including many purposes not even remotely associated with hospital care, and an unfair tax program accompanying it.

That suspicion will be reinforced by the fact that the governor's film is carefully edited to show only the unpleasantness. At Northern Colony there was no effort to show a magnificent new school building with a dedicated staff of special teachers employed at helping those among the institution's patients who are educable. He was concerned only with putting on a horror show. At the School for the Blind in Janesville the governor's film tugs at the heartstrings as it shows visually handicapped children learning their lessons. But it does not show that the school has been generously endowed with building funds and staff budgets to expand its service through the acts of state officials long before the governor turned up to imply neglect and niggardliness.

Mr. Reynolds is a gentle and humane man, we are sure. But he is also a consciously calculating politician. Surely he had some doubts about his rights to invade the privacy of these unfortunate imbeciles at a state hospital, not to mention their relatives. To film such scenes for the legislature is one thing. But to announce, as he has now announced, that he wants public circulation before conventions, clubs and on television stations, is another and a brutal political tactic. We are sorry and ashamed that Mr. Reynolds permitted his political instincts to overcome his judgment.

Betancourt Pays a Visit

The hijacking of the Venezuelan freighter in the Caribbean appears to have been just another Communist attempt to make President Betancourt look ineffective and to halt his visit to the United States. The hijackers failed.

In spite of a national history of tyranny, riots, hunger and poverty, Venezuela is beginning to show signs of economic improvement and even governmental stability under President Betancourt. He is the first honestly elected ruler in that country who seems to have a chance of finishing out his term. And of course this is what is bothering Venezuelan Communists and their allies in Latin America and especially in Cuba.

Betancourt has been the target of other extremists. Exiled several times for almost twenty years, he was violently attacked by the right wing when he finally took control of the government. The Organization of American States voted economic sanctions against the Dominican Republic when its dictator, Trujillo, was accused of hiring assassins to try to get rid of Betancourt. In recent months the Communists have increased their violence in Venezuela, not because Betancourt is failing to help the people but because he is succeeding.

His visit to the United States is not merely a hand shaking tour or even to impress those at home and abroad of where his sympathies lie. In December President Kennedy announced changes in our oil import quota program that Vene-

zuelans say will cut their exports of crude oil by 50,000 barrels a day. Betancourt wants the U. S. to remove the restrictions on residual oil imports to make up for the loss of crude oil income to Venezuela. The matter of oil in the Trade Expansion Act of 1962 was reportedly not debated in Congress because of President Kennedy's assurance that changes would be made to help domestic producers.

Obviously, it is to the interests of the United States to encourage Betancourt's regime in its present form. There seems to be a possibility that a form of representative government has a chance of success in Venezuela. Any Latin American republic which can help to ease the poverty, organize a fair land reform and improve the political stability of the nation is a blow to both Communists and the old military dictatorships.

The problem for the United States, of course, is exactly how far we can discriminate against local oil producers in order to help Betancourt. And always on the horizon is the United Nations' assistance to nations like Cuba which have not attempted to solve their own problems except by tyranny.

President Betancourt has the courage to face down both the ultra right and the Communists and apparently he has the vision to know what can pull his country out of its economic and political miseries. Certainly he is the type of Latin American leader the U. S. should help.

Regional Planning Does Work

A big salute to Appleton and Kimberly officials who demonstrated Tuesday night that sound planning for the entire region can be achieved through objectivity and mutual cooperation.

City and village officials are to be commended for their willingness to join hands in the spirit of true cooperation to preserve the right-of-way for the proposed East-West expressway which will affect communities in Winnebago, Outagamie and Calumet Counties.

A special committee of the Fox Valley Regional Plan Commission has requested all communities along the proposed route to preserve the expressway right-of-way by putting it on their official maps, or taking other necessary action.

Spokesmen for the city and village minced no words in arriving at the verbal agreement that each would protect a por-

tion of expressway right-of-way so the region will have orderly development, including installation of utilities in subdivisions bounding their fringes.

It was a "give and take" session, and an example for other communities to follow.

Walter Johnson, state planning director, took the occasion to congratulate the two communities for their objectivity. Johnson hit the nail on the head and gave credit when he said, "The assuming of responsibility for the thoroughfare speaks well of both communities."

It is also significant and heartening that city and village officials agreed to consult with each other in the future to iron out any problems that may arise and affect each other.

Regional planning, with all communities working together, will pay great dividends. This was openly demonstrated Tuesday night.

Looking Backward

Crescent Raps State Legislators

100 YEARS AGO

Quoted from the Appleton Crescent for Feb. 21, 1963.

Our Legislature is a humbug on the State and a terrible incubus on the Tax-Payers.

Nothing of importance has been done other than voting themselves postage stamps, drawing per diem pay and indulging in political buncombe. What a sacrifice in such times and during such upheavals!

Is there no honesty in humanity? Is the doctrine of depravity a reality? Oh that divine power would scourge the capital city of Wisconsin!

If Republican and Democratic Legislators have no further business than bleeding the public thus inhumanly — no higher mo-

tives than severing Wisconsin's jugular vein — the sooner they hang out their business cards the better for humanity.

In all conscience, hurry through your business and adjourn. Do yourselves justice — remember your constituents.

25 YEARS AGO

Thursday, Feb. 17, 1938.

Dr. Francis E. Townsend, Long Beach, Calif., physician and old age leader in the nation, was on his way to Washington, D. C., to serve a 30-day jail sentence for contempt of a congressional committee. The 71-year-old man was planning to write a book in jail on his life and philosophy.

Miss Celia Schuster, Seymour, leader of the Pine Grove 4-H

Club for the last 11 years, was to be honored at the Achievement banquet sponsored by the Appleton Chamber of Commerce.

Fifteen Kaukauna High School Band members were to receive school letters. They included Karl Kloebe, Jerome Nytes, Marcella Bouche Beatrice Wolf, Donald Siebers, Mae McCormick, Mildred Modl, Earl Treptow, Norbert O'Dell, Jack Blake, Kenneth Balgie, Lucille Berg, Russell Hornas, Earl O'Connor and Robert Hoehne.

The Misses Elaine Buesing, Ruth Sieg and Kathryn Peterson of Appleton were initiated into Alpha Chi Omega sorority at Lawrence.

Members of the Royallon Congregational Church were celebrating the diamond anniversary

People's Forum

Freedom of Press Doesn't Mean Pornographic License

Editor, Post-Crescent:

It looks as if it may be time to stand and be counted. The recent discussions of Ray Brock's observations on the presence of pornographic material on Appleton magazine stands have raised some interesting comments. It is through this principle of comparison of our various views in just such a medium as the Post-Crescent that we hope to resolve our differences insofar as possible for the ultimate good of the community. My own viewpoint is that Mr. Brock has served the community in pointing out to us

examples of indecent literature found here, and in describing the laws in force here and throughout the country for dealing with this problem. I feel that Mr. Brock, in speaking out for the preservation of moral standards, is not attacking the freedom of the press. A good bit of our heritage lies not only in the freedom of the press, but also in its integrity. The newspaper press, for example, has a definite code of ethics. There are certain four-letter words, certain pictures which will never appear; certain descriptions which will never be made in our newspapers. For some reason, this

honorableness is not found in certain other branches of the popular press. Freedom is not license, and I for one would defend Mr. Brock's freedom of speech as he speaks out against the degrading licentiousness of an irresponsible part of the periodical press.

Appleton is an area of high moral standards, and it is to the everlasting credit of countless local merchants that they have declined the fast buck business built on dirty reading matter. In my opinion, these men deserve the active approval of favorable public opinion.

In cases where problems exist, obviously the final protection of the public is provided by law. All businesses are subject to legal responsibility of one sort or another, and our predecessors have realized that cases like this are no exception and have set up laws in this field all over the land. Mr. Brock is simply describing for us this situation, and I am sure he will find ample numbers of us standing with him in maintaining our high moral standards through the proper procedures established by public opinion and by the law.

Did City Misjudge Parking Ramp Need?

Editor, Post-Crescent:

Now that the City of Appleton is about to embark on another parking ramp project, I am wondering about the success of the existing new ramp.

From personal observation since the new ramp has been opened, I have noticed that there is practically no, I repeat no, parking on the upper level. Apparently the city has been providing excellent covered parking at regular rates for no more cars than could have been parked in this area originally.

Of course there are probably

some good reasons for this perhaps, and one reason would seem to be the rather awkward entrance to the upper ramp. However, it certainly would seem to question the feasibility reports upon which the city relied in order to embark on this expensive investment.

The health of the mind is as important as the health of the body. We have doctors and public health officials to inspect the meat, milk and drugs we consume and the places where they are produced.

Why aren't clergymen, psychiatrists and policemen as qualified in their special fields

to judge what is harmful to impressionable minds? Not every person who drinks raw milk will get undulant fever, but it is enough of a threat so that barns and dairies must be inspected, cows must be tested, and dairies are required to sell only pasteurized milk.

Not every person who reads the questionable literature will be contaminated, but it is enough of a threat so that some guide should be established for its censorship.

Mr. and Mrs. Anthony Welhouse, Jr.

Wisconsin Report

Bill to Reapportion Congress Districts in State Is Fairly Drawn

BY JOHN WYNGAARD

MADISON — The politicians whose jobs and fortunes are in re-apportionment bills and measure the maps accompanying them more minutely than does the laity, but as an off-hand judgment, the congressional reapportionment bill brought in by the Republicans in the current legislature will be difficult to impugn.

It meets the most obvious objections of the Democrats of two years ago, on which Gov. Gaylord Nelson then pegged his veto, resulting in a stalemate that brought no action on a subject that has been delayed since 1940. (The last congressional reapportionment in Wisconsin was in 1931. The last legislative redistricting was in 1933.)

The Republican bill of two years ago was immediately vulnerable because it attempted to protect the Republican electoral majority in the first district, then held by Rep. Henry Schaefer of Racine, a first term.

The apparent conclusion today is that the Republican incumbent has shown that he can survive without such maneuvering, and thus the bill proposes to transfer reliably Republican Green County from the first district to the second district, in exchange for the separation of Waukesha County from the second district, to make a better balance in both districts.

MR. JOHNSON

The bill also proposes to abolish, in effect, the ninth district of northwestern Wisconsin.

The territory in the district would be attached to the third and tenth districts, now represented by Republicans Vernon W. Thomson and Alvin O'Konski, and both now well below the population size that a district ought to be under a reasonable distribution of the inhabitants.

Mr. Johnson, the veteran ninth district congressional incumbent, won't like the idea, it may be guessed. He didn't like it two years ago. Last summer he told the Democratic state convention that he was pretty sure he was

being picked on, over-looking the fact that any serious effort to revamp Wisconsin for congressional representation must tamper with his district in a way that is politically disadvantageous to him.

The congressman will find his objections weakened, moreover, by the fact that the so-called Legislative Council bipartisan bill of two years ago, which the Democrats in the legislature so eagerly supported, also proposed to extinguish his district. Mr. Johnson, if this bill becomes law, will have the unpleasant choice of running in either the third or the tenth next year, against established incumbents.

IN MILWAUKEE

The ninth district is marked for extinction, in most reapportionment calculations, in order to provide an additional congressional seat to the crowded southeastern corner of the state. In the current Republican proposal the new ninth district would comprise Waukesha County and the north Milwaukee county suburbs, which will make it a fair bet that the district will lean toward the Republicans.

Democrats can be expected to heckle on that point and to offer amendments favoring their own partisan interest. Yet the Republicans can make a good case for the considerations of balance and population equality under their formula. An all-suburban district in Milwaukee will probably provide a more plausible system of representation than the division of the territory into three mixed urban-suburban complexes. It is worth noting also that the map as the GOP bill carves it up would produce three virtually equal districts, according to the 1960 census.

The equality of population will be one of the big arguments for the Republican bill, and will make it difficult for Gov. Reynolds to challenge, although he will doubtless be tempted to use his veto. The average deviation proposed is 1.5 per cent, or less than 6,000 persons. It is fairly evident that a more precise distribution cannot be obtained without the division of other counties besides Milwaukee County, which public opinion is not likely to support.

Strictly Personal

Striving End in Itself If Goals Are Set High

BY SYDNEY J. HARRIS

Purely Personal Prejudices:

To ask the right question, it is necessary that we already know much of the answer; and those who do not know are perpetually condemned to be asking the wrong questions and getting no satisfactory replies.

One can always tell when a criticism strikes home, for the person criticized promptly gets angry and counterattacks, when it misses its mark, the person merely shrugs or smiles or calmly ignores it.

Some people are incapable of assuaging their own secret doubts until they have persuaded others; in the very act of zealous conversion, they are stifling their own uncertainties while kindling the beliefs of others.

When the Corporation speaks to the Employee, it customarily says the things that it would like to hear, and not what the Employee would necessarily like to hear; thus the failure of so much official communication designed to improve morale, increase loyalty, and promote better understanding.

"In the final analysis" is a

phrase only young men should use; men of middle age and over should know that there is no final analysis.

There is a saturnine truth, however we may deny it, in the observation made by N. F. Simpson: "Each of us as he receives his private trouncings at the hands of fate is kept in good heart by the moth in his brother's parachute, and the scorpion in his neighbor's underwear."

It seems to be the essential irony of the human condition that we have been given just enough intelligence to prevent us using these tools to oppress, exploit and exterminate one another.

Con men and cynics, who are fond of quoting Barnum's famous phrase, "A sucker is born every minute," to justify their behavior, pay no attention to Barnum's other remark (much more true and profound) that, "More persons, on the whole, are humbugged by believing nothing, than by believing too much."

Failure breeds bitterness, and success breeds disenchantment; this is the best argument for setting goals that are unattainable, so that the striving becomes an end in itself.

The God I worship can accept sinners and rogues, the debauched and even the degenerate; what He finds most offensive about all is the virtuous person with a mean mind.

Potomac Fever — by Fletcher Knebel

The Supreme Court rules that draft-dodgers can't be denied citizenship. On the other hand, if you catch a young citizen praying before school's out, you can draft the rascal.

One thing about Princess Grace Kelly's TV palace tour as contrasted with Jacqueline Kennedy's: Princess Grace seems to have her in-laws in the picture gallery—instead of in her hair.

Economizers' bulletin: Republicans are enraged at this 30-mile hike nonsense — and vow to cut it back to 48.9 miles.

Vice President Johnson says the tide of world affairs is running with us. And that's sure some kind of fast running — away from France, Canada and Cuba.

Communists who hijacked a Venezuelan ship have their own pirate flag — the hammer and snitch it.

Critics judging the TV home lecture tour battle between Jackie Kennedy and Princess Kelly say Jackie had the cleanest drapes — but Grace had the neatest French accent.

Elizabeth Hospital Names New Director

Mr. M. Estelle
Being Replaced by
Mrs. M. Kathleen

Mrs. M. Kathleen has been appointed administrator at St. Elizabeth's Hospital, Appleton. She replaced Mr. M. Estelle, who was transferred to St. Anthony's Hospital, St. Louis, Mo. Mrs. Kathleen came to St. Elizabeth's in 1960 as business manager and one of the assistants to the administrator. In

Mrs. M. Kathleen

In these posts, she worked on the campaign in connection with the building program, part of 1961 and all of

Mrs. Kathleen was administrator of St. Mary's Hospital in Racine from 1952 to 1954. In October, 1954, she was appointed administrator of the Provincial Council of the Provincial Council of Wisconsin. At the expiration of her term in 1960, she returned to Appleton.

Mrs. Kathleen takes the helm of St. Elizabeth's at a time when the hospital is embarking on a major building and expansion program. South, east and north wings will be added to the hospital and the present main building will be remodeled.

Mrs. Kathleen will make every effort to complete the final drawings as soon as possible and hope to start construction sometime in the summer. A new administrator said she will bring to an existing building the planning quite different, she said. "In our plans, we are trying to keep the hospital flexible to take care of the needs of the hospital."

The building fund campaign of St. Elizabeth's closed last July. "While we are not nearly reaching our goal, the funds are still coming in," Mrs. Kathleen said. "We wish to thank the many friends who have helped us in our building program. We also take this opportunity to thank our many friends who have given their time so generously to help us."

Farmers Union in Fight Against Any of Sales Tax

LAIRE —(AP)—Opposition to a sales tax of any kind was affirmed Tuesday by the Wisconsin Farmers Union, which said that Wisconsin should not raise taxes through a pro-income tax.

The union was endorsed unanimously by delegates at the annual session of the organization's 32nd annual convention. A resolution was adopted only after delegates rejected a section which would have had the effect, accepted the elective sales tax as one raising needed funds.

The union approved a resolution to meet with other farm organizations at a local level for discussion of farm

adopted resolutions called for expanded vocational educational areas and banning "filthy food" as a "human consumption." The delegates also approved a proposal that the Union start its own packing plant.
